DRILL.—No. 1 Battery, G. A., will meet for drill to-night.

FURNITURE.—Mr. Bairisto holds an auction sale of very fine furniture to-morrow.

I. O. O. F.—The Natal Day Committee will please meet to-night (Thursday) at 7.30 sharp.

IS THIS TRUE?—In the House of Assembly this morning Mr. McMillan said that there seemed to be a law for the rich and another law for the poor in this Province.

ARRIVAL OF THE HATTIE LOUISE.—The brig, Hattie Louise, Captain Barnard, arrived last evening from Barbadoes. Captain Barnard's many friends gave him a hearty welcome.

SENT UP.—John Wesley Silliker, the young man arrested at Summerside last week for the larceny of a horse from a man named McWilliams has been sent up for trial in the Supreme Court.

ANOTHER GOOD ONE.—Rev. Dr. Doyle's beautiful black brood mare dropped a very handsome filly on the 29th ult., by the well-known Abdallah Messenger, r 4869. The last one was considered a beauty, but this one is still better.

THE BEATRICE.—The str. Princess Beatrice, Capt. Kelley, arrived from Halifax, via intermediate ports, last night at nine o'clock. She brought the usual general cargo. She is now loading with pork, potatoes, hay, etc., and will sail on return this evening.

AN UNTRUE REPORT.—A report has been in circulation for some time to the effect that an Island sea captain was in trouble in New York. We are pleased to be in a position to assure the many friends of the Captain in question that there is no foundation whatever for the rumor.

A MISSIONARY MURDERER.—A Montreal despatch of April 29th says: A cablegram received from Tokio, Japan, announces that Rev. J. A. Large, one of the most devoted missionaries of the Methodist Church, was killed while pursuing his labors. A press despatch says Mr. Large was stabbed to death by two burglars at his residence on April 5th. Rev. Mr. Large, whose sad death is announced in the above despatch, was a grandson of the late John Large, Esq., of Little York, in this province, and went out from Ontario as a missionary to Japan several years ago. He leaves a widow (who is preceptress of an important school in the city of Tokio) and two children.

SALE OF HORSES.—The sale of horses, carriages, etc., held at Gillis' Livery Stable to-day, by E. H. Norton & Co., was largely attended, and fairly good prices were realized. The stallion Fairmont, owned by Charles Dockendorff, was "bid in" by the owner for \$350, and Apothecary, owned by George E. Hughes, was bought by Richard Bagnall, of New Glasgow, for \$295. The year-old Preceptor filly, owned by John Cameron, Royalty, was bought by Allan Stewart, of this city, for \$168. In all, about twenty horses and the same number of carriages were disposed of.

CHANGED HANDS.—We understand that Mr. Henry Trainor, of Baldwin's Road, has sold his valuable trotting stallion True Blue, for a handsome sum, to parties in eastern King's County, the principal of which is Mr. Andrew Mooney, of Little Harbor. It would be advisable for farmers and lovers of the turf in that section of the Province to avail themselves of the services of that valuable horse. True Blue is sired by Dean Swift, record 2.36, and is a brother to Island Chief and H. B. Gordon. A 3-year-old brother of True Blue's took first honors in the showing at Summerside, and his sister, Mr. Lee's Dean Swift filly, took first honors at the same place. Another brother owned in Chatham, N. B., beat the 3-year-old's on the Newcastle Park last fall.

THE LATE PETER McLAUCHLAN.—The remains of the late Mr. Peter McLauchlan were removed from the P. E. I. Hospital at 2.45 this afternoon, and conveyed to the steamer W. H. Aitken, by which they were conveyed to his mother's home at West River. A large number of Odd-fellows assembled at the Lodge Room at 2 o'clock, and accompanied by the Citizens' Band, marched to the place where lay all that was mortal of their late loved brother. The impressive funeral service was conducted by Rev. Brother Fred. E. J. Lloyd, Chaplain of St. Lawrence Lodge. A delegation from Willey Lodge accompanied the body to the family residence where it will remain until to-morrow afternoon at 4 o'clock, when the burial takes place at the cemetery at Canoe Cove. A number of Odd-fellows will attend the obsequies. Rev. W. W. Brewer, Chaplain of Willey Lodge, will officiate at the grave.

Sir Thomas More.

Last evening Mr. James McIsaac, of the Herald, closed the series of lectures delivered this season under the auspices of the League of the Cross. St. Patrick's Hall was filled with an intelligent audience, eager to hear the learned lecturer, and the rapt attention with which they followed him throughout proves more clearly than words the excellence of the lecture. His subject was "Sir Thomas More," Lord High Chancellor of England in the reign of Henry VIII. He began with his boyhood, followed him through all the phases of his chequered career, until a victim of the King's wrath he fell a martyr to the cause of right. His description of Sir Thomas More's last moments was extremely pathetic. The audience, inspired by the burning words of the lecturer, was led in spirit to the scene of his last suffering, where they were shown Sir Thomas More old and decrepit, sacrificing home, friends and all earthly ties rather than make a shipwreck of his conscience. At the close of the lecture complimentary remarks were made by Messrs. Roche, D. O. M. Reddin, Jr., J. H. Reddin, and a vote of thanks, proposed by Rev. Gregory McDonald and seconded by Rev. J. C. McMillan, was accorded the lecturer, to which he suitably responded.

—King Malietoa is evidently determined to prevent the spread of leprosy in the Samoan Archipelago, for, in addition to his prohibition of Chinese immigration to the islands, he has issued an order calling upon all Hawaiians to quit the country. Though hard upon the Hawaiian settlers, it would have been quite useless for Malietoa to keep out the Celestials and allow the Hawaiians to remain.

FARMERS TELEPHONING!

HELLO, Summerside! Hello, Souris! Is that you, Ezra? Yes, that you, Alexander? Yes, Ezra. I just got the message that you had sold your farm and moved to the States. I tell you it is high time this Island woke up to the advantages of making our own farming implements. I am informed on good authority that five million dollars has been sent out of the Island for farm machinery for the last 9 years. Just think what that amount would have done if spent in manufacturing here. We can hardly realize what we lose every year in this way. I have hundreds of dollars worth of hardwood lumber on my farm ready for the mill, and my neighbors have lots and are paying thousands of dollars every year for Canadian trash. I have just received an order from LePage for six carloads. That fellow is a brick, and every farmer ought to encourage him by buying his implements. Those Harrows of his take the cake. I got one last year and tried it alongside a steel Jubilee and Patterson. We had to tie a rope to the handle and keep it jumping all the time or it would clog with sods and cough and the nuts everlastingly getting loose. It is a regular horse and man-hiller and the Patterson is no better, with the wide tooth and low frame. But LePage's is a Dandy, just cuts like a knife and never clogs or loses with clay. That Patent Tooth Harrow does the work every time. Aleck—Yes, every one here are taking them now in preference to any other, with the same experience as yourself. Canadian harrows have had their day and a pretty expensive day it has been for us down here. Ezra—Yes, that's a fact, and we may thank LePage for starting the ball rolling and getting the run on them. I tell you it did me good to read that last shot he gave the bioted monopolists and their agents in the papers. That was straight from the shoulder in the future. Aleck—Yes, there's no flies on LePage. When he gets in a row, someone's got to bite the dust. Ezra—Yes, that's the way it is. I got a harrow had the drop on him, but they got badly left, have you seen his new Seed Sower with grass seed box and steel wire feeders. I just bought one and put it on a we wheeled rake I got from him last year. It is a perfect success, and works like a charm. I sowed my wheat and timothy with it yesterday, and it came out to the quart and not one injured, and the draft is nothing, while those Mann's almost turn the horse around with side draft, and the rubber bushes and tin spoons are always getting loose and breaking out those four feet are a perfect fraud. The very idea of a force feed is enough for me. Forcing grain means grinding it during the process of sowing through iron feeders no matter what those slippery-tongued peddlers say. I tried one and that was enough for me. After crushing a lot of good seed a mail got in and broke a little metal in the hop, and lost three days until it came from Summerside and cost \$1.50 and 50c freight and telegram, and then a half day lost putting it on, and so completely and badly fixed at the factory that it gripped and snapped again. Then more cusses and more expense, and I gave it and the peddler the G. B. I tell you, Aleck, experience teaches fools, and we have had our share of both. It makes me mad to think how we have been letting ourselves be gulled by those glib orators, but we'll make it up on for the future. Say did you read that Lot 34 fellow's letter? Aleck—Yes, that was a good one. Every farmer, mechanic, member of the Legislature, and business man ought to chip in and help LePage. A few good letters like that would set farmers thinking. As everything depends on them and they are the one's most benefited by it. You see a farmer buys a Seeder and pays LePage, and he pays the workman, and the workman pays it right back to the farmer for oats, potatoes, and meat, etc., so he gets the cash right back again, and has the implement in the bargain. Now, if he buys a Canadian one his note goes into the bank, or lawyer, and he is forced to sacrifice his produce to pay. The cash goes to the Canadian manufacturers and to their workmen, and from them to the Canadian farmers. Thus we are supporting Canadian farmers, rich out of our own pockets. Then we complain of hard times and scarcity of cash, and no consumption for our produce, and our Island lumber rotting, and our smart workmen going to Canada and United States to be supported there by us idiots. The more I think of it the madder I get. Why Canadian and United States cities give a bonus from \$2,000 to \$5,000 and exemption from taxes for 20 years to get manufactures started, while we like fools have been idling them off the Island by our prejudice and ignorance as the Lot 34 farmer puts it. Central—Hello, time's up. All right, by-bye Ezra, By-bye Aleck. Call up next week for another little chat. By-bye. may 1
