Rich and Poor,  
Prince and Peasant, the Millionaire and Day Laborer, by their common use of this remedy, attest the world-wide reputation of Ayer's Pills. Leading physicians recommend these pills for Stomach and Liver Troubles, Costiveness, Biliousness, and Sick Headache; also, for Rheumatism, Jaundice, and Neuralgia. They are sugar-coated; contain no calomel; are prompt, but mild, in operation; and, therefore, the very best medicine for Family Use, as well as for Travelers and Tourists.  
"I have derived great relief from Ayer's Pills. Five years ago I was taken so ill with  
**Rheumatism**  
that I was unable to do any work. I took three boxes of Ayer's Pills and was entirely cured. Since that time I am never without a box of these pills." Peter Christensen, Sherwood, Wis.  
"Ayer's Pills have been in use in my family upwards of twenty years and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afford greater relief than any other medicine I ever tried."—E. F. Adams, Holly Springs, Texas.  
"I have used Ayer's Pills for a number of years, and have never found anything equal to them for giving me an appetite and imparting energy and strength to the system. I always keep them in the house."—E. D. Jackson, Wilmington, Del.  
"Two boxes of Ayer's Pills cured me of severe  
**Headache,**  
from which I was long a sufferer. — Emma Keyes, Hubbardston, Mass.  
"Whenever I am troubled with constipation, or suffer from loss of appetite, Ayer's Pills set me right again."—A. J. Kiser, Jr., Rock House, Va.  
"Ayer's Pills are in general demand among our customers. Our sales of them exceed those of all other pills combined. We have never known them fail to give entire satisfaction."—Wright & Hannelly, San Diego, Texas.

## THE DAILY EXAMINER.

AUGUST 14, 1889.

### Notes and Comments.

—The Halifax Herald remarks that the ten or twelve thousand dollars expended upon the carnival preparations was money well spent. Halifax and its great attractions as a summer resort are now better and more widely known than ever before.

—It is stated on good authority that notwithstanding the destruction of human life by the late civil war the white population of the Southern States has increased in a greater ratio than the negro race by nearly four per cent.

—It may interest some people to learn that since 1848 the city of London has received half a million new houses and nearly two thousand miles of new streets. Between 1878 and 1888 the average increase in street mileage was more than 50 miles a year.

—It is stated that there are no fewer than four and a quarter millions of children learning to sing in the British Elementary Schools, two millions and three-quarters singing by note. Truth refers to this as "one of the most appalling discoveries of modern times." Upon which the Toronto Globe remarks: "It would be if the effect were to fill all these children with the ambition to shine in concert halls. But if, as is more likely, the effect is to give them all a pleasant accomplishment, and to fill some millions of homes with simple music, it would be hard to overestimate the amount of human happiness which these figures indicate."

—The example of Winnipeg has been cited in favor of Sunday street cars. The reply to this is that street cars are not run in Winnipeg on Sunday and never have been. The Free Press says: "Street cars have never been permitted to run on Sundays here, and we are persuaded that the citizens, by an overwhelming majority, would vote down any such proposal if it were made. Without believing that man was made for the Sabbath, the people of Winnipeg are yet proud of the decent, orderly observance of the day manifested by all classes, and nothing would induce them to consent to a change."

—The Pall Mall Gazette is informed that "there is no truth in the report that the Mackay-Bennett and the French Atlantic Cable Companies have entered into an amalgamation. As the latter company cannot even enter into a pool with the cable companies, it is obvious that it would be impossible for it to amalgamate. The visit of Mr. Ward, Mackay-Bennett's New York manager, to Nova Scotia, had nothing to do with the question of amalgamation. The French company has landed its cable near Canso, for the purpose of connecting with the Canada Pacific Railway, which is now building lines in Nova Scotia. This gives the French company a second route to the United States."

—During the last ten years the deposits in the post office savings banks have increased from \$3,000,000 to \$23,000,000. These deposits have been almost exclusively made by people of small means, and the fact that they have grown so enormously during the past decade affords little support for the argument of those preachers of despair who see no hope in the future of Canada. Besides the deposits in the postal savings banks, the government savings banks contain another \$20,000,000, making the total amount held on deposit by the government for the people \$40,000,000. The latter forms a part of the public debt of the Dominion, a very large proportion of which, it will be seen, is due to our own people, thus limiting the sum annually sent abroad in payment of interest.

—The Dominion Illustrated, for August 10, is a good number, both from a pictorial and literary point of view. The letter press comprises poems by Prof. Gregory Murray, of Montreal, and Rev. Arthur J. Lockhart, one of the authors of "The Masque of Minstrels" and other meritorious features. Of illustrations there is a rich variety, covering the entire Dominion, from the Maritime Provinces to British Columbia. Manitoba pioneer life is illustrated with some capital views. Mrs. Arthur Sprague continues to depict the latter Province with sprightly pen and skillful pencil. Scotchmen will appreciate the illustrated history sketch of the Caledonian Society of Montreal. The portraits of the Presidents since 1855 will recall familiar features to a number of readers. Altogether, The Dominion Illustrated maintains the high standard of excellence with which it began its career, and in some respects shows signs of improvement. It is worthy of the encouragement of the public.

—Egypt is not a National Policy country and the Khedive has his own ideas about raising revenue. A few years ago Egypt raised over six million pounds of tobacco a year. She now makes none, and the reason of this is that the Khedive has imposed a heavy tax on all lands raising tobacco. This is done that the tobacco used will have to be imported, and pay a big import duty. By the way, it is said by a writer who has recently visited the country, that the Egyptians are great smokers. You see the Turks, he says, in the bazaars with long hookahs or water pipes before them, and you seldom meet a man or a boy without a cigarette in his mouth. The women smoke as well as the men, and puffing at cigarettes makes up a large part of the employment of the rich ladies of the harems. There are some women in Cairo who smoke regularly a hundred cigars a day, and there may be seen women walking on the streets puffing at cigarettes. It is the custom in Egypt to offer a cigarette or a pipe to all visitors. The tobacco used is very light, and first-class cigarettes cost about 70 cents a thousand. The tobacco trade is in the hands of the Greeks, who have cigar stores all over Cairo.

## Telegraphic Odds and Ends.

A BUDGET OF GENERAL NEWS FROM ALL PARTS OF THE WORLD.

MONTREAL, Aug. 12.—The monument to the late George E. Cartier and his daughter the late Miss Josephine Cartier, erected by Miss Hortense Cartier over the plot of ground where the remains of the deceased statesman lie with those of his daughter, on the highest spot in the Cote de Neiges cemetery, is about completed. The plot of ground is surrounded by an iron fence, on the posts of which are small coronets. On the door is the single word "Cartier." In the centre of the plot is a monument of polished granite seven feet high surmounted by a bronze life-size bust of Sir George. Beneath is the following inscription in French: "To My Father," and beneath, "George Etienne Cartier, 1814-1873." In the centre of the monument is the bronze medallion of the late Miss Cartier, with the inscription: "To My Sister Josephine Cartier, 1847-1886."

LONDON, Aug. 12.—In the House of Lords to-day, Lord Salisbury stated the Government's policy in Egypt would not be altered a hair's breadth. The country, he said, had improved under English administration, but it would be impossible to fix the limit of the stay of English troops there. The Government had entered into obligations which it must fulfil.

GALT, Ont., Aug. 12.—Charles Cutler, undoubtedly the oldest horse in Canada, died here the other day. He was foaled on the 10th of May, 1846, being in his 44th year, and had been in the possession of A. T. Cutler, of the Imperial Hotel, for 29 years. He was driven out occasionally during the past year, and had he not met with an accident which necessitated his being shot, might have lived for several years longer.

BERLIN, Aug. 17.—The village of Sachsenberg, Waldeck, was entirely destroyed by fire, which started on Saturday and burned until to-day.

CITY OF MEXICO, Aug. 12.—Federal troops are aiding the authorities against strikers at Sierra Carmen and Coahuila mines. Drought has caused the death of a large number of cattle at Tamauilipas.

NEW YORK, Aug. 12.—English tramp steamers are flocking hitherward to secure the expected rich run of the West Indian trade, to the exclusion of American bottoms, which they can easily do by superior facilities and low freights.

LIVERPOOL, Aug. 12.—Monday, August 26, has been fixed upon as the day for the execution of Mrs. Maybrick, convicted of poisoning her husband, Mr. Lincoln, United States minister, and many members of the American colony, who signed a petition for the reprieve of Mrs. Maybrick.

SAN FRANCISCO, Aug. 12.—There is great difference of opinion among those who arrived from Honolulu last night over the outcome of the insurrection there, although all agree it was inspired by native hatred of foreign control, and that Princess Liliuokalani, who desires Kalakakua to abdicate in her favor, was at the bottom of it. Europeans have controlled everything, ignoring the natives in all matters pertaining to government. It is expected everything will remain quiet until after the coming election. Then there will be a general movement to get rid of the ministry and reorganize the government. The uprising showed that if the revolutionists had six men like Boyd they would have been successful.

Prayers Restored Her Sight.  
A MIDDLETON (N. Y.) WOMAN'S REMARKABLE EXPERIENCE WITH FAITH CURISTS.

A Middleton (N. Y.) despatch says: Faith Mission is the name under which a religious organization in this city was recently incorporated. Faith Mission is very liberal in its views, opening its doors to all who profess Christ. On Sunday, July 28, the pastor devoted his time to recounting the cures effected in answer to the prayers of himself and his faithful followers. In the audience was a middle aged woman, Mrs. Wm. Boyce, a member of the Presbyterian Church and the wife of an employe on the State Asylum Farm, who for fourteen years had suffered from impaired vision. One of her eyes was totally blind and the sight of the other was so defective that she could only see dimly by the aid of the strongest glasses. Mrs. Boyce was much impressed with Hancock's remarks, and going forward for prayers was anointed with oil. Next morning, while working in the house, her sight was suddenly restored. She hastened to tell the neighbors, and as proof read the smallest return in the testament. On her husband's return from work she saw him for the first time in fourteen years with the eye that had been totally blind. Scores of people have been to see her during the week, and at the mission's services she gave proof of the cure by reading at sight, without glasses, articles in small type which she had never before seen.

Wreckage bearing the name, "F. A. Tucker" has floated ashore at Westport, Digby County.

Bark Minerva, Captain Laine, which left Liverpool May 23rd for West Bay, Nova Scotia, has been given up for lost. It is feared that she foundered in the hurricane that swept a portion of the Atlantic on the 19th of June. There was on board the Minerva a Halifax man named Barton.

Even the salmon appear to take sides with Canada against the United States. The Portland Oregonian says that the salmon pack on the Columbia river will fall short 75,000 cases of the pack of last year, while in British Columbia the packers on the Fraser and other streams estimate an excess of from 50,000 to 75,000 over that of 1888.
