Directors, who are no... the entire Capital stock, have decided at the request of numerous friends of the Company throughout Canada, to enlarge the proprietorship of its stock, and to offer for sale, at par, ten thousand shares, of one hundred dollars each, fully paid and non-assessable.

Payments are to be made as follows:—Five per cent. on application; five per cent. on allotment, twenty per cent. each in one, two, three and four months from the date of allotment. Applicants have the right to pay in full on allotment.

Applications for shares will be received until February 15th, 1893, at any of the offices of the Canadian Bank of Commerce, at the offices of the Union Bank of Halifax, and at the head office of the company, N. Y. Life Building, Montreal.

Forms of application for shares may be obtained at any of the above places, or they will be sent by mail on request.

Should no allotment of stock be made to any applicant for shares, the amount paid will be returned in full, and in the event of the Directors finding it impossible to allot the full number of shares applied for, the surplus of the deposit will be credited toward the amount payable on allotment.

The right is reserved of withdrawing the offer in whole or part at any time before allotment, and of allotting to any applicant any less number of shares than the number applied for.

As the dividends of the Company are payable quarterly, beginning with the first day of March next, allottees of stock will be entitled to receive a proportion of the quarterly dividend as declared, corresponding to the amount paid upon their subscription.

It is proposed to apply to the Stock Exchanges of Montreal and Toronto for official quotations of the shares of the Company.

The Consumers Cordage Company was organized in June, 1890, with a Capital of one million dollars, to operate several of the largest Cordage and Binder Twine Factories in Canada. It, at first, operated these under leases, but its operations having been successful, the Capital Stock was subsequently increased to Three Million Dollars, and the leased properties were purchased.

The Company has no mortgage indebtedness; and, according to the law under which it was incorporated, none can be created without the consent of two-thirds of the shares holders, represented at a meeting called for the purpose.

The Company has placed in the hands of its Bankers:—

(a) Full statements of its affairs, certified to by Messrs. Caldwell, Tait & Wilks, Chartered Accountants.

(b) The following letter from Messrs. Abbotts, Campbell & Meredith, advocates, Montreal, upon the legality of its incorporation, and the issue of its stock:—

MONTREAL, January 5, 1893.

Consumers Cordage Co., Ltd., Montreal:—

GENTLEMEN,—We have examined the books and documents connected with the organization of the Consumers Cordage Company, Limited, and are of opinion that it has been properly incorporated, and that its capital stock of $3,000,000, as issued, is fully paid up and non-assessable, according to the provisions of the "Companies Act."

We are, yours truly,
(signed), ABBOTTS, CAMPBELL & MEREDITH.

(c). A report from Messrs. Macmaster and McGibbon, Solicitors of the Company, that the titles to its Mills have been duly examined, and that no encumbrances exist.

Applicants for shares may examine these documents, copies of which may be seen at the Company's offices, and at the various offices of the Banks mentioned above.

The Consumers Cordage Company is probably the second largest Manufacturer of Cordage and Binder Twine in the world, and claims the following very material advantages over its competitors:—

1st. Ample capital to conduct its business which enables it:—

(a) To buy its raw material in larger quantities, and at lower prices.

(b) To use only the latest and most improved machinery, thus keeping its mills in the highest state of efficiency.

2nd. Economy in selling and distributing its manufactured product.

3rd. The business covers so wide a territory (its manufactured goods go to almost every civilized country in the world) that it cannot be seriously injured by local troubles; and its Manufacturing establishments are so scattered that the danger of severe loss by fire is very slight.

4th. Lower cost of production.

(a). By maintaining the sharpest competition between its several mills, it is enabled to introduce in all the best methods found in each.

(b). By spreading its commercial expenses over a larger output.

(c) By placing in one hand the purchasing of the Raw Materials and Manufacturing supplies for the several Mills, thus securing lowest prices.

(d). By manufacturing for themselves many of their supplies.

The Company has always found it in its interest to divide the economies effected in production and distribution with the Consumer, and since its existence the Consumer has, upon the average, had a better article at a lower price than previously.

The Company does not claim to have any monopoly, or to earn monopoly profits; in fact, it has no done so. Since its organization it has been able, owing to the advantages above referred to, to earn a net return on its present capital of not less than 10 per cent. per annum (as statements in their Bankers' hands will show), and the Directors believe that these profits will be maintained in the future, as the cost of production and distribution shows each year a marked decrease.

The Dividend for the year ending 31st October, 1892, was at the rate of 8½ percent. per annum. The past record of the Company and its present position justify the Directors in believing that quarterly dividends of one and three-quarters per cent. can be paid [and should the profits for the present year be as large as the outlook promises, the final quarter's dividend might be increased.

Any further information may be had at the head office of the Company at Montreal.

General Telegraphic News.

LONDON, Jan. 30.—Sir Charles Tupper, Canada's high commissioner to Great Britain, has returned to London from the French capital, where he had spent the past ten days. Sir Charles Tupper brought along with him the draft of the Franco-Canadian treaty, which despite the troublous times in Paris occasioned by the Panama scandals, was arranged by Lord Dufferin, the British minister, and officials representing the French government. This draft is made on the basis of granting Canadian imports to France a place on the minimum tariff schedule of the latter country. The foreign office here is now engaged in a consideration of the outlined draft, Sir Charles furnishing all the information required on the intricate points. If, as expected, this draft is approved by the British authorities, it will forthwith be laid before the French chamber of deputies and the Dominion Parliament for discussion and ratification.

REGINA, Jan. 30.—Among the Northwest's exhibits at the World's Fair will be a pillar of coal from the mine north of Edmonton, taken from a seam twenty feet thick. The pillar will be three feet in diameter and twenty feet high. The grain exhibit in sheafs will be decorated with wild chickens and other prairie game.

MONTREAL, Jan. 30.—The Gazette says: Sober second thought appears to have brought home to Mr. McCarthy the conviction that the excuse he offered for withdrawing from his old associates was so personal, so obviously a matter of pique, so indifferent to the public at large, in a word so childishly ridiculous, that he has hastened to disown his folly by attempting to discredit the reports of the speech

ODESSA, Jan. 30.—Enormous quantities of snow have fallen in southern Russia. In the valley of the Dneiper, the snow is on a level with the house tops. In one province 100,000 sheep perished.

London advices report that Mr. Gladstone has received hundreds of letters in the past few days and scores of callers making enquiries as to the state of his health. The reports that he is failing have caused great solicitude and some alarm among his personal friends and advocates of home rule. To dispel all doubts he walks and drives frequently in the parks, besides sending out occasional denials that he is feeling less strong and energetic than formerly. There is general apprehension among Liberal Englishmen, however, that their prime minister is not so well as he and his friends would make the world believe. It is impossible to verify these apprehensions, as Mr. Gladstone is closely guarded by his family and nearest friends, and only personal and political intimates are able to gain access to him.

Mrs. Brown's Case.

TORONTO, Jan. 25.—A most interesting case has come to light here, being that of Mrs. Brown, of Agnes St., who for years has suffered from Bright's Disease, the last two of which she spent in bed. Her feet were swollen so she could not walk, and being affected with paralysis she was taken to the Toronto General Hospital, where, after undergoing a lengthened treatment which did her no good, and receiving nothing in the way of consolation save a certificate that she was incurable and a permit admitting her to the Home for Incurables. Even then she did not give up hope and tried Homœpathic treatment, but with as little results as the other. There seemed nothing left but to go to that retreat where only those who are beyond all human aid are admitted, and there wait for death to relieve her of her sufferings. She heard of that wonderful cure of Sam Murray, of Gravenhurst, by Dodd's Kidney Pills, and she decided to try them. The first week she noticed very little change, but before she had finished the second box her back began to feel easier, the swelling to leave her feet, and by the third week she could walk, something she had been unable to do for two years before. Now, after taking Dodd's Kidney Pills for two months she is so completely cured that she is about to take up school teaching again, a calling she pursued before losing her health. ....

...(severely)—Johnny where is that ... I left here when I went out?

Visitor—That's all right. Go in and tell her I'm glad I didn't find her at home.

CHILDREN enjoy the pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative; and if the father or mother be costive or bilious, the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

Charlie (in raptures)—So you will marry me? Tell me, do you love me?

Clara—No, I don't; but Agnes Murray does, and I hate her.

He—Dear Fanny, it is now a year since we were married. How well I remember when we plighted our troth under the rustling leaves.

She—I remember all that, but I don't remember to have heard as yet the rustling of that dress that you promised me on that occasion.

The doctors authorize the following preliminary announcement of the cause of Mr. Blaine's death: "Chronic interstitial nephritis (form of chronic Bright's disease), due to and associated with general changes in the arteries of the body and dilitation of the heart. This condition was complicated with a disease of the lungs of a tubercular nature. The immediate cause of death was connected with the heart."

TO DISPEL COLDS, headaches and fevers, to cleanse the system effectually, yet gently when costive or bilious, or when the blood is impure and sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

The Empire of the Mikado is a most interesting country and recent figures prove it to be a progressive one also. Japan has now a population about equal to that of the United Kingdom—40,000 000. And the record of life in these delightful, but distant regions, is one of considerable longevity. The record shows 173 ...centenarians and 11 228 persons between 90 and 100 years of age.

A curious ceremony took place at St. Ephrem de Tring, Beauce, Quebec, the other day, when three couples celebrated their golden weddings. The first was that of Laurent Chouinard, and in his case the best man and bridesmaids were the same as at the original wedding half a century ago, not one of them having passed away. The other two couples were Charles and Louis Gagnon, who were married to two sisters, Celestine and Sophie Poulin. Such an event as this seldom occurs.

If Afflicted, Try It. It Will Cure You.

Malcolm McLean, of Kensington, P.E.I., writes the following:

For five years I suffered from severe Chronic Bronchitis, for which the doctors and numerous patent medicines failed to give relief. My physicians and friends advised a change of climate as my only hope. HAWKER'S BALSAM OF TOLU AND WILD CHERRY was recommended to me, and I am happy to say that I was entirely cured before I had used two large bottles. I consider it to be truly a wonderful medicine, and cheerfully recommend it to all so afflicted.
