Vandalism Appears Chief Object In Tignish Break

Although a sum of money and some merchandise was stolen in a break into the Tignish Co-operative Store Thursday night, the main purpose of the intruders seemed to be to cause as much damage as possible. The entire store presented a scene of destruction yesterday morning with glass display counters turned upside down and merchandise scattered from one end of the large building to the other. Canned goods, bread, tea, 20 to 40 dozen eggs, costume jewellery, watches and countless other articles were strewn throughout the store. A new counter scale and a large floor type till were damaged beyond repair with a meat cleaver. About \$50.00 in bills and silver was taken from the till and a number of cigarette lighters, watches, bracelets, and costume jewellery and two clocks were among the articles known to be stolen. Damage was estimated at well over a thousand dollars. Entry was made by breaking the glass panel in the front door and releasing the lock. The Alberton R. C. M. Police are investigating.

Dr. O. H. Phillips Outlines Diefenbaker Achievements

Attendance at a public meeting reportedly filled the Tyne Valley hall last evening where Dr. O. H. Phillips, Conservative candidate in Prince County, spoke on some of the achievements of the Diefenbaker Government. Introduced by W. Chester S. MacDonald, provincial president of the Young Progressive Conservative Association, Dr. Phillips said that health insurance which was originally planned to go into effect in January 1959, has now been moved ahead, and those provinces that have signed the agreement will have health insurance in the next few months. Referring to the increase from \$1,000 to \$2,000 per hospital bed, Dr. Phillips pointed out that this is applicable to Tyne Valley in the event they should wish to expand the size of their hospital. He spoke at length on the agricultural price support bill, and reiterated that, in spite of Liberal attempts to hold price supports under the new bill to 80 percent of the last 10 year's average prices, the bill specifically states that price supports must be in accordance with the advisory board's recommendation, and must bear a direct relationship to the cost of production, and could be well in excess of 100 to 125 percent of the average price of the last ten years. He stated that potatoes can be added to the price support bill at any time on the request of the farmers, at which time the advisory board will take into consideration the average price and the cost of production, and set the floor price of this commodity. Dr. Phillips, replying to a statement made by a Liberal spokesman, that P.E.I. members had not been active in the House of Commons in seeking to have potatoes added to this support bill, said that through his (Dr. Phillips') appeal in the House of Commons, an Islander had been appointed to the advisory board. In concluding, Dr. Phillips asked for the support of average Canadians for the Diefenbaker Government which is made up of average Canadians, he said, and which has governed to the benefit of all Canadians.
