

Gulf Ice Is Said Worst In Years

The Department of Transport charts indicate that ice conditions in the Gulf of St. Lawrence appear to be the worst in several years. A chart for March 4 of estimated ice conditions, received by provincial transportation director, Graham Rogers, shows the Gulf to be filled with ice. Ice extends from the Strait of Canoe to Fort Aux Basques, Nfld., to the Strait of Belle Isle, along the Labrador and Quebec Coasts, deep into the St. Lawrence and filling the Northumberland Strait as far as Canada.

not by raising tariffs, but by free trade."

CANDIDATES SPEAK

Three provincial candidates spoke briefly. J. Watson MacNaught, Prince County, said "it is time to put an end to indecision in government; you voters will put an end to that indecision that has bedevilled Canada in the past eight months." Commenting on recent resignations of federal cabinet ministers, Mr. MacNaught said "those with weak hearts resigned; those with weak heads remain."

Queens County candidate Allison Gillis said "before 1957, Canada was a strong middle power looked on with respect by other countries. Since then we have slipped down the ladder. We are no longer with honor. We made defence commitments. The government did not carry them out. The Prime Minister won on votes from the West. He got those votes by feeding communism, a ruse which invaded India. This sort of thing cannot go on. A strong government must take over."

"Recently, the junior member from Queens said the Conservatives are the only party that can form a stable government. The gall of them. They don't even have a stable party."

Ira Lewis, also candidate for Queens County, said: "The people of Canada are looking to the Liberal party to clean up the mess in Ottawa. The internal decay of the Conservative party has gone so far that it is no longer a viable government. It is not now supporting the party nor are they active in the campaign. Toryism tends to create a disunity—it is impossible for a party to win with its disunity to a stable government in Canada. There were no defections in the Liberal party. It is only on the basis of such unity that a stable government can be formed."

Mr. Martin was introduced by provincial Liberal leader A.W. Matheson.

Chairman of the meeting was Kenneth Jenkins, president of the P.E.I. Young Liberals, and Mrs. Aden Muligan, president of the P.E.I. Liberal Women's Association.

FIRE KILLS FIVE
KINNELON, N.J. (AP)—A father and four of his children were burned to death early Thursday when a fire swept their large, colonial-style home.

Michael Moran, about 47, died in an apartment building with his wife, Mrs. Patricia J., 17, Patrick, 13, Betty, 11, and Joseph, 8. The mother and three other children escaped the flames by leaping from second-floor windows.

"We will create new jobs—maximum health care protection at reasonable rates, whilst saving member companies a tremendous amount of bookkeeping and paperwork. Diagnosis, laboratory services, doctors' bills, a semi-private room in a hospital or a liberal allowance towards a private room—these are just a few of the Blue Shield-Blue Cross benefits. Good reasons why so many of us prefer this Blue Shield-Blue Cross protection. How about you?"

CH'TOWN POLICE ROPE STEER ON ICE

Just like the old rodeo days, Const. William Ford and an aster unidentified man wrestle a steer only in this case they are saving it from a cold fate in the icy water of the Texaco Oil Co. wharf where it had fallen through the ice.

The steer, belonging to Wellington MacNeil, was being weighed when it broke away and escaped on the ice with two men in hot pursuit. After a couple of minutes of this,

however, it turned around and charged the men who ran back to the wharf. As the steer approached the wharf, its 1,100 pounds proved too much for the ice to hold and it fell through. Driving down

to the wharf to investigate, Const. Ford, along with Const. Warren MacKenzie and Cpl. Keith Wakelin, assisted in securing it with ropes and pulling it free from the ice.

Provinces, Mr. Martin said if a majority Liberal government is elected it will "make the Atlantic Development Board a strong vibrant reality... give the board a substantial capital fund to promote development projects and industrial expansion, paying particular attention to the needs of the Prince Edward Island tourist industry."

"We will give the board the power to invest and the power to act. We will provide representation on the board for organized labor and for the basic industries of the Maritimes."

"Adjustment grants will be made available to industry, both new and established, which locate in development areas in the Maritimes. In places where industry is so severely needed, we will grant assistance to the industry, through the use of tax incentives and improved credit facilities. We will make definite efforts to assist in the direction of organizing new employment opportunities in rural areas and in fishing settlements. We will continue the Atlantic Provinces adjustment grants as long as they are needed. We will also restore the principle of equalization."

"Our program is ready." The speaker suggested that a liberal government would appoint an associate minister of agriculture. "There are farmers in other parts of Canada

who need assistance as well as those who live beyond the Great Lakes," he said, adding that an associate minister of agriculture would be appointed from Eastern Canada.

Referring briefly to fisheries, Mr. Martin said "if an agreement on territorial water limits can be reached we will see that the 12-mile limit is enforced."

"The problem of unemployment," Mr. Martin said, "is the greatest single issue facing us today. Across Canada, 250,000 new jobs must be provided each year until at least 1970. This is in addition to the jobs for the 350,000 now without work."

"We are going to have to find new industry for the Maritimes east of the coast of Canada. No government, no country can stand by in the face of such a situation."

Lester Pearson has announced that a new department of industry will be created. A department that will sit with labor, management, government and university heads to create conditions for higher production.

"Do you know that Canada imports \$800,000,000 worth of automobile parts annually. If we made them in my home town (Windsor, Ont) that would create approximately 45,000 new jobs."

He was introduced by Clarence Mercer and thanked by club president Charles Balliem who also presented him with a gift on behalf of the club.

Co-chairman for the meeting was Thomas Phillips, Songleader was John Hopkirk; devotions were led by George Clark; Emcee was Robert P. Hogg and fairs were collected by Donald Wannamaker.

Guests for the meeting were Wendell Inman, Edward Welsh and Mel Gilmour.

It was announced that the radio auction has been postponed for a week and will be held March 19 and 20, and the usual program of goods will take place on a date which will be a separate notice.

A \$50 donation was voted to be made to the Y's Men's Club in Devoe City, the Philippines, to assist them in the work they are carrying on in relief aid in the disastrous floods which recently occurred there, particularly on the island of Mindanao.

END OF
(Continued from page 1)
if we had a repetition of the situation of the last eight months."

NUCLEAR ARMS STAND
Commenting on the Liberal Party's stand on nuclear arms, Mr. Martin said "it is not that we want war when we say we must live up to our commitments, it is because we know that the only way, until we have an agreement with the nations that oppose us, is to be strong enough so that war will not be worthwhile. We must carry our load in this gigantic responsibility. If we want to exercise our influence with the United States, the United Nations, and in the councils of the world, we must play our part in the defence of the free world."

Mr. Martin emphasized that "no one should disturb the pattern of our relations with the United States. It is those who think Canada can take the course the Prime Minister has taken, we must understand what it means to Canada, Canadian - United States relations must not be strained at this time of history."

ATLANTIC PROVINCES
Dealing with the Atlantic

of annual meetings of school districts.

Attending the meeting were: Hon. George Dewar, M.D., minister of education, presided yesterday afternoon at a meeting of the provincial council on education which was held in the Province Building.

The council meets annually and is usually held before the Legislature meets so that council recommendations may be considered at the session.

"At the meeting," said Dr. Dewar, "we discussed such matters as vocational training, teacher training, education of disabled children, teaching of French in schools, the co-operation of all provinces in certain areas of educational administration such as curricula, studies programs, testing and examinations."

"Also discussed were certain changes in the School Act such as the organization of regional high school units and the dates of annual meetings of school districts."

According to Dr. Dewar there was some support for an earlier beginning of French teaching in schools and a broader agricultural curriculum in regional high schools.

Attending the meeting were: Rt. Rev. J.A. Sullivan, S.J., Dunstan's University; Dr. Frank MacKinnon, Prince of Wales College; Lincoln Dewar, Charles Cairns, both representing the federation of agriculturists; Mrs. Marjorie Dover and John Hughes, both representing the P.E.I. Teachers Federation; Mrs. Basil MacDonald, representing home and school associations; Malcolm MacKenzie, deputy minister of education; W.S. McMurtry, director of apprenticeship training, and provincial school supervisors.

An interesting display and answered inquiries from students concerning scholarship availabilities in this field.

Those pupils who have already made plans to attend university for a more detailed period of study, literally walked away with the many college calendars from leading Canadian universities.

The next project planned by the Queen Charlotte Home and School Association is a library tea, planned for the sole purpose of adding new volumes to the school library.

Mr. Jenkins made the statement in reply to suggestions Mr. Pearson is not coming here because "he has already concluded a Maritime speaking engagement."

Mr. Pearson will definitely be in this province for a campaign appearance. W.R. Jenkins, president of the P.E.I. Liberal federation, said yesterday "Announcement will be made as soon as a definite date is arranged."
