N. S. Christmas Tree Trade Down

HALIFAX (CP)—Deputy Lands Minister G. W. I. Creighton Tuesday estimated that the province's Christmas tree export was about 75 per cent of last year's business.

He blamed an insect blight by the needle midge, rigid inspection demands by the New York market and a general insistence on better quality trees.

"The ordinary type trees snapped up last year were turned down this year in the search for quality."

Cold weather and muddy conditions hampered the Nova Scotia harvest. But the total export volume had been shipped before heavy snows hit, he said.
