You Will Have a Good Clock

If you buy it here. We are showing a large line of clocks that are RELIABLE, DURABLE and STYLISH. One that we fancy most is a block-wood clock, strikes the hours on a musical gong bell, and the half hours on a tinkling cup bell; it is tastefully decorated in gilt scrolls and has a beautiful ornamented dial.

If you have any intention of buying a clock it will be well worth your time to see us and get prices. W. W. WELLNER Jeweler and Engraver.

Needed an Explanation. Sir John A. Macdonald, who was governor of Gibraltar fortress, always made himself closely acquainted with the work of whatever happened to be his department. Meeting a person once coming into the office late, the general asked him what time he was supposed to be on duty.

A Little Too Hot. Little Janet, aged 4, noticed the other day at dinner the rest of the family helping themselves liberally to the mustard. Nobody offering her any, she waited until something drew away the attention of the others, when she lifted the mustard spoon, liberally daubed a piece of bread with it and took a great bite.

When a man neglects his health for a day he marks two days off the calendar of his life. When he neglects his health for two consecutive days he marks four days off his life's calendar. And so on. That's about the ratio, and it doesn't take many days to cross off an entire year.

Tragedies of the Grand Canyon. Tragic stories are told of men who have lost their lives in the search for precious metals which may be hidden or uncovered, says Harriet Monroe in The Atlantic.

Dr. Pierce's Common Sense Medical Adviser has had a larger sale than any other book of this class ever offered the public. This book of 1,008 pages with 300 illustrations, is full from cover to cover, of practical advice on health matters.

Nast, Conkling and Curds. It is to be suspected that some of Tom Nast's wittiest work with his marvelous pencil was "printed, not published"—was intended simply to gratify his friends—and never met the eyes of the general public.

He wanted to impress upon the lady that Washington life had been too much for him and did so by drawing a capital full length picture of himself as he appeared walking along the avenue.

I suppose the politicians still recall Roscoe Conkling's famous allusion to the great cartoonist in his Rochester speech "dedicated" to George William Curtis. Mr. Curtis at the time was the editor of Harper's Weekly, a position which he had held for many years.

It is an old idea long since exploded that digestion is confined to the stomach. No modern scientist denies that by far the greater part of digestion and the more difficult part takes place in the intestines.

Dr. Chase's Kidney-Liver Pills act directly on the kidneys, liver and bowels, and give new tone and vigor to the intestines, and make them able to perform their work of digesting the substances on which the stomach has no effect.

A Jury of Women

Who have tested the merits of Dr. A. W. Chase's Kidney-Liver Pills return the verdict that for backache and kidney disorders there is no preparation in any way equal to this great discovery of Dr. A. W. Chase, America's greatest physician.

A WRONG IDEA OF... DYSPEPSIA

Throws all the Blame on the Stomach—The Real Seat of Trouble is the Intestines—The Permanent Cure is Dr. Chase's Kidney-Liver Pills.

It is an old idea long since exploded that digestion is confined to the stomach. No modern scientist denies that by far the greater part of digestion and the more difficult part takes place in the intestines.

Dr. Chase's Kidney-Liver Pills act directly on the kidneys, liver and bowels, and give new tone and vigor to the intestines, and make them able to perform their work of digesting the substances on which the stomach has no effect.

Stomach treatment may do well enough for slight indigestion, but if you have chronic indigestion or dyspepsia of a serious nature you can profit by the experience of scores of thousands who have been permanently cured by using Dr. Chase's Kidney-Liver Pills.
