TORONTO

TORONTO (CP) — Speculative fever gripped the stock market Friday as trading ripped along at its fastest pace in four months. A trend in prices, however, was hard to detect as gains and losses across the board were fairly well balanced.

Southern Union Oils sparked the interest and it led the most-active list of stocks, trading 1,060,550 shares while gaining 4 cents to 73 cents. At one time it touched 87 cents.

A Bay Street report that Southern Union had found mineralization on its Mattagami, Que. property created activity among stocks with properties in the same area.

Northcal, amid a turnover of 893,925 shares, added 8 cents at 41 cents and Daering, trading 461,256, gained 5 cents at 40 cents. The three stocks are all listed as oils on the Toronto Stock Exchange but it is copper speculation which pushed them Friday.

Senior mines and oils were easier in a fractional range and fell into the background as the juniors and speculatives took over. The oil index lost a point.

Index changes: Golds up 1.06 to 85.80 base metals off .07 to 178.22; western oils off 1.00 to 135.58.
