

In Brief, And to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indignation is a foe to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics. But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy. Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

"Don't you suppose," said a member of the police force, "that a policeman knows a rogue when he sees him?" "No doubt," was the reply, "but the trouble is that he does not seize a rogue when he knows him."—Buffalo Commercial.

Blowing up Hell Gate has been a laborious and costly work, but the end justifies the effort. Obstruction in any important channel means disaster. Obstructions in the organs of the human body being inevitable disease. They must be cleared away, or physical wreck will follow. Keep the liver in order and the pure blood courses through the body conveying health, strength and life, let it become disordered and the channels are clogged with impurities, which result in disease and death. No other medical equals Dr. Pierce's Golden Medical Discovery for acting upon the liver and purifying the blood. s a w
