ANOTHER ISLANDER HEARD FROM.—The Philadelphia Item says:

"John Shay, a provincial fighter, challenges Charley Mitchell, the Britisher to fight him for any part of \$15,000. Shay says he has fought a number of battles in the Canadian provinces, and is confident he can whip Mitchell. He is 28 years old, is 5 feet 8 inches tall, and weighs 185 pounds. He is a man of remarkable physical development, but no one seems to know much about him. He came from the provinces, and will go to England on a bark, of which he is one of the crew."

The Shay referred to by the Item is a Charlottetonian, and is known in this city as "Buckey" Shea. He has been away from the Island for several years. He would make a sorry exhibition of himself with Mitchell,—or any other pugilist.

OUR SCHOOLS.—St. Peter's Schools reopened to-day, with a goodly number of pupils—some of the scholars have not yet returned from the country, so there were a few vacant seats. Several boys are expected to matriculate at King's College, Windsor, or other universities, at the end of the year, and are formed into a special class for that purpose. We understand that both the boys' and girls' schools will be drilled systematically twice a week. This seems to us very commendable, as too little attention has been given, in this city, in times past, to the bodily exercise of children. Mr. E. J. Hodgson will continue his English History and General Information classes, and Rev. Fred. E. J. Lloyd takes classes in English Literature and Singing. In the Girls' School, there are still a few vacancies. The advanced classes of girls will be taught Latin and Algebra by the Rev. J. Simpson. We are pleased to find the schools in such a flourishing condition, and hope that as good work will be done in them this year as last.

A considerable addition to the number of scholars in attendance at the public schools was observable to-day. In this connection, we cannot refrain from expressing the hope that the mistake of this year will not be repeated. People cannot be forced to send their children to school before the holiday season is over any more than they can be forced to maintain the law according to the Scott Act when they don't care to do so. No doubt, the authority of the School Board over both teachers and pupils must be asserted; no doubt the boys of West Kent Street School acted badly when they hissed at the trustees; and, no doubt, they ought to be taught that such conduct cannot be endured, and must be punished. All the same, the trustees ran counter to the most enlightened public opinion of the town when they ordered the re-opening of the schools on the 19th of August; and, as a result, a great deal of the work done by the teachers in the past two weeks will now have to be done over again.

TELEGRAPHIC NEWS.

SPECIAL DESPATCHES TO THE EXAMINER.

News of the Great Strike.

LONDON, Sept. 1.

On Saturday the employees of Yarrow & Co. who are under a heavy contract to supply the Government with torpedo appliances struck and 5,000 iron workers on the Isle of Dogs have gone out for an advance of six pence. The dock laborers on strike number 110,000, and as the immediate consequence of their cessation 20,000 stovedores, 6,000 lightmen, 20,000 clerks and nearly 5,000 grain workers and laborers are compulsorily idle. The Melbourne Trades Council, representing all branches of labor, has called a mass meeting for Monday to raise funds for the London strikers. The directors of the dock companies have absolutely declined to make any concessions beyond these already offered. The council of strikers held a meeting last evening and after a long discussion on the situation it was decided to continue the strike. A monster meeting of the strikers was held at Hyde Park this afternoon. Burns and other labor leaders made speeches. Resolutions stating that the men would continue the strike until their demands are fully conceded were unanimously adopted. It is estimated that 250,000 persons took part in the demonstration. The immense crowd dispersed in an orderly manner. The Economist predicts disastrous results for the strikers if they obtain the sixpence rate with the four hours minimum, and says that the number of men seeking work at docks will largely increase. The company will employ more permanent men and avail themselves of fewer casual employees, and only a few will be benefited. The lot of the many will be harder than ever. The law of the survival of the fittest will be exemplified by the strike, the wide-reaching consequences of which will be unprecedented in London's history. The riot insurance rate advancing, the dock directors, having refused to negotiate except with the old dockmen, Burns declared against further interviews.

The commander of the American revenue cutter took away the Junjata's sealskins and arms, and gave a sealed letter of instructions to proceed to Sitka as a prize. No prize crew was put on board. The Indians were told not to mind going to Sitka, as they would find the Pathfinder, Minnie and Black Diamond all there and would not be lonely. As soon as the Rush was out of sight the Junjata made for Victoria.

BIRTH.

At the Rectory, Milton, on Sunday, Sept. 1st, the wife of Rev. W. H. Sampson, of a son. [Halifax papers please copy.]

AFTER MANY YEARS.—Some ten years ago a Mr. McMaisters, of Peterboro, Ont., lost a 17-year-old daughter. A few days ago, he found her in Kingston jail where she had been sent for vagrancy. She had worked for a farmer whose wife discharged her after her husband's death.

ANOTHER HORSE SHIPMENT.—We learn from the Agriculturalist that Mr. Richard Kirvan, of Indiantown, St. John, shipped three horses on Friday morning, to be used in connection with his lime business. One of the number was a very fine Norman Chief, weighing 1510 pounds, purchased from Mr. Samuel Bagnall, Wilmot; another was Capt. Jos. Read's grey, by Victor Hugo, weighing about 1350 pounds.

THEY ALL LIKE IT.—The Pioneer says: Mr. James Sprout, of Campbellton, N. B., who has been on the Island for two weeks for the good of his health, left for home last Thursday morning. He speaks very highly of the Island as a summer resort, and no doubt he has occasion to, as his health has been completely restored under the invigorating air of our Island home.

We are often deceived in the age of people having beautiful and luxuriant hair; not knowing that they use Hall's Hair Renewer to keep gray hairs away.
