

Diamond Rings

For engagement rings
Still take first place in popular favour.

Their matchless sparkle, their intrinsic value, and their durability, appeal irresistibly to the refined taste.

The price ranges from \$7 up. Special rings ordered on approval for your inspection.

C. F. HUTCHESON,
Watchmaker & Jeweler

Special Notice.

Having purchased from Mr. F. J. Morris the stock and good will of his Book and Stationery Business in the Morris Block, we will continue the business in its various branches, selling at lowest prices for cash only. Miss E. Hornsby, who has managed the business in the past, will be in charge of the store, and will be pleased to attend to all old customers and many new ones.

A choice new stock of Wall-Papers will be placed on sale, and all departments of the business will be kept well stocked. A well supplied news stand will be a special feature of the business. The store will be known as "The Bazaar Bookstore."

THE Bazaar Company

Successors to F. J. MORRIS.

NEWLY INTRODUCED.

Sensation Caused in Barnaby River,
N. B., by Dodd's Kidney
Pills.

Barnaby River, N. B., May 14 — Quite a sensation has been caused here lately by the introduction of a new medicine—Dodd's Kidney Pills. Although there had been many deaths from Bright's Disease and other kidney troubles, yet strange to say Dodd's Kidney Pills had never been tested. Our people had to be taken in patient medicines.

Now, however, Dodd's Kidney Pills are creating a sensation. A large number of people are using them and expressing surprise and admiration at the result. "From the first week I began to improve," says Charles C. G. of Barnaby River, who had been given up by the doctor. The fact seems almost surprising here, but it is always true when Dodd's Kidney Pills are used.

Gilt has been 280 and about right lots of other things and merchandise to the Ottawa and Hull stores.

Minard's Liniment Relieves Rheumatism

The annual supply of milk for London, England, is estimated to be about 850 million gallons, and that leaves many of the people without any.

Babies Have Croup.

No disease comes more suddenly and treacherously upon its victim than Croup. Happily there is a remedy who has taken Dr. Chamberlain's Syrup of Turpentine when the danger once awakes in the night, and a few drops are given for breath. This famous remedy is held in high honor as a cure for croup, bronchitis, coughs, colds, asthma and throat irritation. 25 cents a bottle. Family size 50 cents.

One of the benighted families of Ottawa numbers 20 persons, and there are several families of eighteen.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All that is required is to take 2 or 3 tablets before bed. A. W. Clark's is the best.

The average progress on the Simplon tunnel is 16 feet a day.

Minard's Liniment Cures Dandruff.

Thought is company for those who are capable of exercising it.

Babies Tortured.

By flaming, itching eczema, find comfort and permanent cure in Dr. Chamberlain's Ointment, a preparation which has a record of cures unparalleled in the history of medicine. Eczema, salt rheum, tetter, ringworm, and people's rash, and all other skin diseases are almost always cured by Dr. Chamberlain's Ointment.

Happiness results from being content with what you have.

There is one good thing about the man with trouble on his mind. He never breaks into your life by making collections from a rag time opera.

Minard's Liniment for sale everywhere

THE UNEXPECTED HAPPENS

If Ch'town was OTTAWA to-day you would have been sorry you were not covered for a large amount.

I have good companies and can quote you low rates.

Of Special Interest To Our Farmers

LATER SPRAYING.

In a former article we considered the matter of the early spraying of orchards, more especially for the bud moth and the bark louse, because they must be dealt with very early in the season in order to be treated effectively, but every other pest with which we have to contend, requires equally prompt action at just the proper time if it is to be successfully combated. It is time, therefore, that growers had their preparations completed for the campaign against the caterpillar, the cankerworm and the "black spot," and the campaign, if not already begun, should begin immediately. The caterpillars are reported to have hatched already in sheltered localities, and where they are troublesome no time should be lost but the trees should be sprayed immediately after with Paris Green or some other insecticide.

For the treatment of the three pests named above, as well as the "leaf-blight" of plums, and many other such diseases, a combination of Bordeaux mixture with Paris Green will, perhaps, be most satisfactory for the majority of the orchardists of the province. For the benefit of those who have not previously prepared Bordeaux mixture a few directions may be useful. The usual formula given is:

- 4 lbs copper sulphate
- 4 lbs lime
- 40 gal. water

To which 4 oz. of Paris Green are added for destroying insects, and as a rule this is satisfactory. But a safer and surer method is to use the potassium ferrocyanide test to determine when enough lime has been added. Let us suppose that the farmer has determined to spray his orchard the coming season (and if he hasn't so determined he should do so immediately). He should first procure several casks that will hold water. This does not of necessity mean costly oil barrels, but the better the quality they can be without too great expense the more satisfactory they will prove. In one of these casks dissolve a quantity of copper sulphate at the rate of 1 lb to 1 gal of water; then when used 1 gallon of the solution means a pound of copper sulphate. Of course the amount of copper sulphate required will depend on the size of the orchard to be sprayed. Place the copper sulphate in a bag and suspend in the upper part of the water and will it soon dissolve. Next secure some fresh lime, shake carefully in another cask and keep it under water to prevent the air from coming in contact with it. The "stock solutions" are now ready and if kept in this way will not deteriorate in the least. And for the potassium ferrocyanide test above referred to, buy 50¢ worth of this chemical at the drug store, dissolve in a pint of water and put in a bottle. When it is desired to prepare a cast of Bordeaux mixture, measure out 4 gallons of the copper sulphate solution and add water to make it almost a half barrel. In another cask, or tub, take out a quantity of slaked lime (perhaps two quarts) and add water till it is a very thin whitewash. Then pour these two solutions together. It is now necessary to test the solution to see if sufficient lime has been added. To do this take out a small quantity of it in a saucer and add a few drops of the test solution. If any red color appears, more lime is needed. This test is very simple when one becomes familiar with its use and is absolutely sure. After testing add sufficient water to make 40

The Ills of Women.

Are usually the result of an exhausted nervous system which can be fully restored by the use of Dr. W. Clark's Female Food. Women made nervous by the wasting diseases which often attend old age, or by the loss of their food, the best and most reliable remedy is Dr. W. Clark's Female Food.

To Hotel and Boarding House Keepers

If all those who are desirous of accommodating summer tourists and others during the coming season will send their address to THE EXAMINER office we will be happy to compile a list and forward to the different houses which make a business of furnishing such information to the travelling public. Particulars regarding rates, distance from Charlottetown, surroundings of hotel, mails, nearness to railway and bathing, etc., should be mentioned when writing us.

Warning to Sportmen.

We hereby notify all persons from trespassing on BIG POND or premises on the west side, from the bridge below Paul McPhee's to the shore of the Gulf of St. Lawrence.

ANGUS J. McPHEE, Owners.
dy & wky.

gallons of the mixture. Next mix 4 oz of Paris Green with a small amount of water and add this to the Bordeaux and the material is ready for application.

These directions have been made thus explicit for the benefit of those who have never before prepared Bordeaux mixture and who may desire to have each step explained. Once familiar with the process it is as simple as running a mowing machine, and not half as dangerous.

Bordeaux should be prepared fresh for each application, for when lime is added to copper sulphate solution the mixture begins to deteriorate after 48 hours.

A good general rule for applications is to spray once just as the leaves are expanded; once just after the blossoms fall and a third time in ten days or two weeks. But let me say in closing that no one but the grower himself can decide just when the sprayings should be made, for all depends on what pests are most troublesome in that particular orchard. If his apples are wormy at the core it means that the codling moth is abundant, and his great care should then be to spray his orchard thoroughly with Paris Green within a week after the blossoms fall. If the black spot is troublesome, then he should give most attention to the use of copper sulphate, making one application before the buds have begun to swell, using 1 lb to 10 gal. of water; and spraying once just before the blossoms open, and two or three times after they fall, with Bordeaux mixture. While if the cankerworm and the caterpillar are the chief offenders, he should spray thoroughly with Paris Green or some other insecticide, making the first application just as the leaves are expanding. But whatever may be his enemy, let him spray thoroughly and in good season and as a result he will do his share to keep Nova Scotia where she belongs, in the front rank of apple producing countries in the world; and what is, perhaps, even more to the point, it will mean money in his own pocket and in that of his neighbor.

A VANCOUVER LADY

Cured of Asthma After Eight Years of Almost Constant Suffering. She says the Absolute Freedom From the Disease Seems Like a Dream. Clarke's Kola Compound Cures.

Mrs. J. Wise, Mt. Pleasant, Vancouver, B.C., writes:—"I have been a great sufferer from bronchial asthma for the past eight years, many times having to sit up nearly all night. Through the advice of a friend who had been cured by Clarke's Kola Compound I resolved as a last resort to try it. The first bottle did not relieve me much, but before I had finished the third bottle the attacks ceased altogether, and during the past six months of damp and cold weather have not had a single attack. It seems something like a dream to be free from this worst of all diseases after so many years of suffering. I have since my recovery recommended this remedy to others suffering as I was, and know many others in this city whom it has cured. I consider it a marvellous remedy, and would urge any person suffering from this disease to try it."

A free sample bottle will be sent to any person who has asthma. Enclose 6c stamp. Address The Griffiths and Macpherson Co., Limited, 121 Church street, Toronto, Ont.

Clarke's Kola Compound should not be confounded with the other Kola preparations on the market, as this is altogether a different preparation, designated especially for the cure of asthma. All druggists. Price 5¢ per bottle.

The One Who Cooks

knows there is one sure way to reach a man's heart, and that is by always having a nicely spread table. To do this you must have choice groceries, canned goods and provisions.
