

A Good Beginning

Most people want to begin at the top. Instead of taking hold of the first piece of work that comes to hand, and driving it through as if it were the grandest thing they ever expected to do, they either decline it because it does not meet their tastes, or they do it in a half-hearted way because they take no real interest in it. Their thoughts are so far in advance of what they are doing that the thing in hand is only half done. It is the use of the first opportunity that makes a second opportunity, but thousands are always waiting for the second to come first; they are expecting miracles when they ought to be working along the moral lines of success. It is the boy who takes a place in the country store and put brains, strength and heart into the weighing of sugar and the measuring of potatoes, who finally sits down in his office in a great warehouse and telegraphs his orders to the ends of the earth; the other boy, who wanted to be a great merchant, by omitting the sugar and potatoes continues in the obscurity of his native village. These small duties, these meagre opportunities, are the training schools of success, and no one gets the prizes who does not take his degree in them.

The Great French Remedy, Dr. LeDuc's Periodical Pills.

For the cure of Lencorrhoea or White's Excessive of airtful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagina, Hysteria, pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very enfeebled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

"We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fragrant, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality."
