This Province's participation in the new Federal plan for Old Age Assistance became a reality yesterday when the Legislature passed a bill enabling Prince Edward Island to join with other provinces in the payment of pensions to needy persons between the ages of 65 and 69.

The controversial bombing came after an Allied advance had been held before a hill on which the monastery stood. Churchill's memoirs are appearing in serial form in Life Magazine, and in Canada in the Montreal Standard and Weekend Picture Magazine.

How he earned casually from President Roosevelt that Gen. Dwight D. Eisenhower and Gen. George C. Marshall would head the D-day invasion forces. How the King and the Prime Minister came close to witnessing the D-day Channel bombardment from a British cruiser.

Roosevelt and Churchill had returned to Cairo from the Tehran conference when the Prime Minister heard about Eisenhower. "On the day before his departure from Cairo Roosevelt told me his final decision," Churchill wrote.

"We were driving in his motor car from Cairo to the Pyramids," he said, almost casually, "that he could not spare General Marshall. He therefore proposed to nominate Eisenhower."

"I said, 'that we had also the warmest regard for General Eisenhower and would trust our fortunes to his direction with hearty goodwill.'"

The King, after himself wanting to board the cruiser for the bombardment, later decided that both he and Churchill should remain behind because of the responsibility of their offices.

High tribute was paid the school Cadet Corps of this city yesterday afternoon by Major R. G. Bewley, G.S.O. 2, Cadets, Halifax, following the qualifying examinations for sergeants and lieutenants held at the Armories.

"I think the results of this course are indicative of a very strong future for cadet corps in Prince Edward Island. Maj. Bewley stated in an interview, 'Out of a class of 21 there were 18 qualified for certificates. This is a very high percentage of success and speaks well not only for the future of the cadet corps here, but also of the past. They must have been good corps in the past to produce such fine examples.'"

The cadets taking the qualifying course were: West Kent School—George Mutch, Frank Mellich, Donald MacArthur, Allan MacKenzie, Herbert Sherrin, Henry Phillips, William Reid and Sterling Glidings. Queen Square School—Robert Jones, Frederick Duncan, Billy Kelly, James McQuarrie, Patrick McWade and Percy Vail.

Prince Street School—Rod Ainsworth, Douglas Cudmore, Mark Lader, Donald MacLeod, Angus MacLaren, David MacKay, Basil Miller and Ralph Whitehead.

The presentation of the Long Service Medal, for postal employees with twenty-five years of service was made yesterday to Mr. J. J. (Buff) Connolly, Postal Service, by the District Director of Postal Services, W. A. MacEachern of Moncton.

In the presence of Mr. Connolly's fellow workers Mr. MacEachern congratulated the recipient on his fine record and wished him many more years of service with the Department. Captain J. J. Connolly, Postmaster, also spoke briefly, mentioning the years he and Mr. Connolly had worked together. The medal, he said, was well merited.

Mr. Connolly expressed his appreciation to Mr. MacEachern for the award and requested that his personal appreciation be conveyed to the Postmaster-General.

The Medal bears the Royal Crown, with the Latin inscription, "To Serve the Public" and the letters C. P. for Canada Post.

"A drowning fatality was prevented at Montague yesterday shortly before noon by the prompt action of Mr. Henry Munroe, when Mr. Raymond Dewar fell ten feet unconscious into the water at Stevens Wharf, which is at present undergoing repairs.

Churchill Gives Behind Scenes View In Memoirs
NEW YORK, Oct. 26 (AP)—Winston Churchill questions in his memoirs the value of the Allied bombing of Monte Casino Monastery in Italy during the Second World War.

The wartime British Prime Minister declares in the memoirs: "The monastery did not contain German troops but the enemy fortifications were hardly separate from the building itself."

"On February 15 therefore, after the monks had been given full warning, over 450 tons of bombs were dropped, and heavy damage was done. The result was not good."

"The Germans had now every excuse for making whatever use they could of the rubble of the ruins, and this gave them even better opportunities for defence than when the building was intact."

The controversial bombing came after an Allied advance had been held before a hill on which the monastery stood. Churchill's memoirs are appearing in serial form in Life Magazine, and in Canada in the Montreal Standard and Weekend Picture Magazine.

W.C.T.U. NOTES
THE ONLY DEGRADING DRUG NOW BEING ADVERTISED
By Dr. Andrew Ivy
We know that alcohol is a narcotic drug which makes drunks out of one of every 15 or 20 social drinkers.

We know that there are now about 1 million alcohol addicts and 3 million excessive users of alcoholic beverages in our country.

We know that the only difference between morphine on the one hand, and alcohol on the other is that alcohol is less habit forming than morphine.

We know that the barbiturates are habit-forming and that there are more alcoholic addicts than barbiturate addicts.

We know that about 70 percent of drunks started to drink during their teen age.

We know that we do not advertise morphine, marihuana and barbiturates or any other habit-forming and physically and mentally degrading narcotic except alcohol.

It is difficult to acknowledge the rationality of a society which would allow advertisements to increase the sale of a beverage which makes physically and mentally deteriorated slaves out of one in 20 of the users of the beverage.

I can only believe, therefore, that our people are seduced by advertising and propaganda to spend almost 9,000,000,000 dollars a year on alcohol to impair the brain and put it to sleep, and only 3,000,000,000 a year to educate and awaken the brain.

We know that the consumption of alcoholic beverages is the cause of at least 20 percent of automobile accidents.

This means that alcoholic intoxication resulted in the injury of more people during the years of the war than were injured in all of our armed forces during the years of the war.

It is generally acknowledged that alcohol consumption increases divorces, venereal disease, illegitimate births, sexual promiscuity, vice and crime in general, poverty, the mortality from many diseases and many other forms of human misery.

"Alcohol has been the silent instigator in an appalling number of crimes. A survey of men admitted to San Quentin revealed 78% who admitted that liquor had played some part in their downfall."

Wardens Duffy of San Quentin, Federal Prison.

appear at any of the official functions of such organizations as the Russian-Canadian Friendship Committee or the Civil Liberties Committee with whom he was identified at one time.

Montreal Communists, in confidential reports to Tim Buck, their national leader, said recently that Adams was "active in Prague in the interests of peace," it was learned.

Close friends of the Adams family here said they knew nothing about these reports but said they did "not believe that Adams would come back very soon."
