**TOBOGGANING IN 1765.**

It is interesting to note in Smollett's "Travels Through France and Italy" that when the novelist was making an excursion in March, 1765, from Nice across the Maritime Alps to Turin he descended the Piedmontese slope of the Col di Tenda toward Cuneo on a toboggan.

"Having reached the top of the mountain," he tells us in letter 38, "we prepared for descending on the other side by the leze, which is an occasional sledge made of two pieces of wood, carried up by the coulants (local guides) for the purpose. I did not much relish this kind of carriage, especially as the mountain was very steep and covered with such a thick fog that we could hardly see two or three yards before us. Nevertheless our guides were so confident and my companion, who had passed the same way on other occasions, so secure that I ventured to place myself on this machine, one of the coulants standing behind me and the other sitting before me as the conductor, with his feet paddling in the snow, in order to moderate the velocity of its descent. Thus accommodated, we descended the mountain with such rapidity that in an hour we reached Limon. Here we waited two full hours for the mules which traveled with the servants by the common road."

This is simply tobogganing used as a practical means of transit for travelers in the Alps.—Chambers' Journal.

**Given as a Medicine.**

A rebuke emphasized by a kindness is apt to be remembered. One day an officer walked into the office of one of the well known business men of the west.

"What do you want here?" he said to the officer.

"I've come to attach the wages of one of your men for a debt."

"Who is the man?"

The officer named him, and he was at once summoned to his employer's office.

"How long have you been in debt?" was the first question asked.

"Been behindhand for 20 years. I can't seem to catch up," said the man.

"But you have a good salary."

"I know it, but I can't get out of debt."

"You must get out, or you must leave here. How much do you owe?"

The whole was not much less than \$1,000, but the employer immediately wrote his check for the amount, and said, as he handed it to the man:

"This will pay all your bills. If I hear of your running in debt again, you'll have to go."

It was what the doctors call "heroic treatment," and it not only astonished the man, but "revolutionized" him. He settled with his creditors, and then, by carefulness, kept out of debt.

Better than a genius for making money is the habit of paying as you go.—Youth's Companion.

If you are ill you need a doctor in whom you have confidence.

If you need a remedy you want one that has been tested for years; not an obscure, untried thing that is urged upon you, or on which you save a few cents—that is no consideration as against health.

For wasting in children or adults, Scott's Emulsion of Cod-liver Oil with Hypophosphites has been the recognized remedy for twenty-five years.

**WE MUST BE STRONG**

Or We Will Fail in the Fierce Struggle for Existence.

The Dyspeptic Cannot Win Unless He Uses Dodd's Dyspepsia Tablets—They Give Perfect Health, Strength and Vigor.

The dyspeptic suffers more than his usual share of agony during these sweltering hot days.

The languor and sluggishness caused by the heat affect the digestive system, causing more than ordinary defects.

The blood is thin, watery and weak. It is feverishly hot. The heart beats more rapidly, causing greater strain on every portion of the human machinery.

Dizziness, fainting spells, sudden and severe attacks of diarrhoea, follow.

The condition of the victim is deplorable. Nevertheless, it is very easily remedied. All that is needed is a short course of treatment with Dodd's Dyspepsia Tablets.

This will positively cure indigestion and dyspepsia—because Dodd's Dyspepsia Tablets digest the food themselves.

The smaller brown tablets that go with every box, act on the liver and bowels, giving a perfect opening and stimulating treatment.

Thus the digestive system is put in perfect working condition. The blood is made pure and cool; the waste material is promptly carried off by the bowels, instead of being retained in the system to rot and fester and poison the blood.

Health, strength and vigor follow the use of Dodd's Dyspepsia Tablets.

You can distinguish the people who use Dodd's Dyspepsia Tablets from those who don't. Those who do, look robust, healthy and vigorous. Those who don't, look weak, sallow and languid.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes \$2.50, or sent, on receipt of price, by The Dodd's Medicine Co., Limited, Toronto, Ont.

**Sailing on Fresh Water.**

A Pittsburg who at one time served an enlistment on the United States steamship Michigan, a vessel of the United States navy which is stationed on the great lakes, tells a story of Charles V. Gridley, captain of the flagship Olympia, which led the fighting at Manila.

Young Gridley, shortly after graduation at the Naval academy, was ordered to the Michigan for duty. A few days after he had reported the commander ordered the usual boat drill, and the crew went through the process of abandoning the ship. When the cutter of which Gridley was in command had gone a mile or two away from the vessel, the young officer, who had never before sailed on fresh water, inquired sharply for the water cask, which he discovered had not been placed in the boat.

"What do you fellows do for drinking water when you are called away from the ship?" he asked the cockswain with some asperity.

"Sure, sir," replied that worthy, "we generally dip over the side."

Gridley had nothing more to say, but the joke has been in circulation ever since.—Pittsburg Dispatch.

**Battleship and Cruiser.**

The difference between a battleship and an armored cruiser is technical, and experts have stumbled over the matter. A battleship is supposed to have heavier guns and armor and to be better fitted to withstand hard knocks from an opposing force. But this does not always hold good, as may be seen in the case of the Maine as compared with the Brooklyn. The Maine was a battleship, but she was not so large nor so heavily armored as the armored cruiser Brooklyn. On one point there seems to be no dispute, and that is the fact that the cruisers are faster than the battleships, and it is conceded also that in most instances the battleships are better protected.

**A WEAK BROTHER**

Penn had a very strong aversion to tobacco. Once he came unexpectedly upon some of the Friends who were enjoying the fragrant weed, but out of respect for their great leader they hid their pipes, which, however, still continued to emit smoke. Perceiving this, the governor said pleasantly, "Well, friends, I am glad to see that you are at last ashamed of your old practice."

"Not entirely so," replied one of the brethren, "but we preferred laying down our pipes to the danger of offending a weaker brother."—London Tit-Bits.

**A Change of Opinion.**

"There's a good deal of human nature in a puppy," remarked the philosopher, calmly watching Fido tearing his best hat to pieces. "Almost as destructive as one of my little nephews."

The Professor—Thunder, so he has! I thought it was one of the boarders' hats. Take that, you whelp!—Boston Transcript.

**TWIN TORTURERS!**

**Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.**

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, misshapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago. Dodd's Kidney Pills ALWAYS CURE.
