

Provincial Medicare Policies Pose Most Worry For Doctors

OTTAWA (CP)—The uneasy cover 90 per cent of doctors on the subject of government-sponsored medical care insurance is directed more toward provincial governments than toward Ottawa, Prime Minister Pearson has said.

He told the Commons doctors are worried more about application of four cardinal principles fixed for the plan than about the principles themselves. Because the provinces will administer the insurance scheme, the difficulties will have to be settled at the provincial level.

Mr. Pearson was replying to Opposition Leader Diefenbaker, who noted a report that the Canadian Medical Association still has "sharp disagreements" with federal officials on medical care.

Provinces must fulfill four conditions to qualify for federal grants to medical care. Their plans must be publicly administered, universal in that

is a requirement for public audit only.

"I do not think it is in order to discuss the doctors' views of public administration," Mr. Pearson said.

Several other questions on the subject were not allowed by Speaker Lucien Lamoureux.

NICE IN THE ARCTIC

The only part of Canada expected to have warmer-than-average weather in the next four weeks is the far, far north. The 30 day outlook by the United States weather bureau calls for below-normal temperatures throughout eastern North America combined with plentiful rainfall. Arctic air from Hudson's Bay is expected to dominate Ontario's weather but farther west a more seasonal climate is predicted. The outlook is not a specific forecast and changes may occur. Other normal temperatures (precipitations): New York 74 (3.5), New Orleans 86 (5.6), San Francisco 62 (0.1).

SEALS PROFITABLE
HALIFAX (CP) — A Halifax flyer says the owner of a two-seater plane can earn as much as \$2,000 a day in seal-hunting operations in the Gulf of St. Lawrence. He pays hunters on the ice floes about \$10 a pelt, then transports them to a land base where he receives about \$10 a pelt. But if he insures his plane in the hazardous business, he will pay \$800 to \$900 a day in premiums.
