P. O. Box 600, Summerside.
S'ide, April 8, 1890—eod

LETTERS TO THE EDITOR.

Letter from Mr. Haslam.

SIR,—I notice in the Patriot of the 10th inst. a communication signed "John Moore," "Crapaud," in which that gentleman criticizes at some length a letter of mine that appeared in THE EXAMINER some four weeks ago. Mr. Moore makes some coarse, personal allusions, and finds fault with my English. He also makes a desperate effort to be funny, and in this he has been very successful, for surely it would be impossible for anyone to crowd more blunders and misstatements, more nonsense and blunders, into a column of reading matter than Mr. Moore has managed to get into his letter. I would strongly advise any of your readers, who like to be amused and enjoy a laugh, to procure a Patriot of the 10th inst. and read the epistle, for it certainly is a curiosity. He says, first of all, that I at the late election found fault with Mr. Sutherland as an unamiable man to represent the First Electoral District. With all due respect to Mr. Moore, I think so still. He then says I made some misstatements on the corn question, but leaves us entirely in the dark as to what those misstatements were. He also casts doubt on my statement as to the Island's freedom from taxation, but fails entirely to meet my argument. Then he speaks of Protection as an "exploded neutrum." Who told Mr. Moore this? Surely when Protection is believed in and practised by every important country in the civilized world except Great Britain; and more than that, the tendency of the times all around is rather to increase than to do away with protection, it scarce can be called an exploded doctrine. Mr. Moore read this somewhere and took it for granted it was true. Mr. Moore says I made a misstatement on the corn question. Will he kindly tell us what it was? He says I called the six men we send to Ottawa to represent us the "Grit delegation," and implies that this was wrong, considering what fine men they are and what services they render the country. I do not say anything against Mr. Davies as a member. I don't like his politics. I am opposed to his opinions on trade matters, but I freely grant his ability and that he does us no discredit. But I say that, for the other five men, it is a shame and a disgrace that other and better men cannot be chosen. Surely a great party can find as its exponent a more suitable man than James Yeo, who has not one qualification for the position. He hides me for not knowing that the C. P. R. is the cause of all this cheap corn, beef and pork. And yet as a matter of fact the C. P. R. has no more to do with it than the Suez Canal. American pork came into the Maritime Provinces before the C. P. R. was thought of. The beef is brought principally by way of Portland and the N. B. & M. railway. Mr. Moore, however, read this statement in the Patriot and if he had investigated the matter would have found it, like a good many more of the Patriot's statements, untrue. He criticizes me for saying that the staple products of the Island are oats, beef and pork. I say so still; and they always will be, except in a few cases where farmers are near shipping ports, where potatoes are largely grown. He also says that the Dominion Government robs us, but fails to show in what way. I say that we are freer from taxation than any other people in the civilized world, both as regards Federal and local taxation. I would prove it did space allow. With his knowledge of statistics is he aware that the products of the unobtrusive little hen brought more money to the Island last year than the oat crop? This is the next conundrum Mr. Moore propounds. I confess I did not nor any person else, and this shows how stupidly ignorant Mr. Moore must be. He has likely got the idea from some Grit paper, and took it for truth. The fact is that at least half the farmers rely almost solely on the proceeds of their oat crop for a living, and the balance make it the great source of their revenue by feeding it to their horses, cattle, hogs and "unobtrusive little hen." But this is not all. There was more money's worth of oats exported from the Island last year than of any other products or two products. But as the bulk of it was sent across to New Brunswick and Nova Scotia in schooners, consequently no record of it has been kept. All the account we have is of what has been sent to foreign countries. Some ignorant fool knowing no better exhibited the statement that our hens bring us more money than our oats, and Mr. Moore believes him. He then finds fault with the policy of the Dominion Government as irritating and the cause of the action of the American Congress in proposing to put a duty on eggs and raising the duties on potatoes, horses, etc. Will Mr. Moore be good enough to show us how the Dominion Government's conduct has been irritating, and explain how it is that Congress is increasing the duties all around, on every article that suffers from foreign competition. As a matter of fact, the conduct of the Canadian Government has no more to do with the placing of a duty on eggs than the conduct of the Chinese Government had to do with the late embargo placed on the importations of Chinese laborers. The American laborer wanted protection, and he got it. Now the American farmer wants protection. He will likely get it too. I have no more time to spend on Mr. Moore at present, but if he will bring a little moderation and some knowledge to the subject, I will discuss Unrestricted Reciprocity with him.
J. HEBER HASLAM.
Springfield, April 14, 1890.

A Land of Cyclones

A NUMBER OF MICHIGAN TOWNS VISITED AND LIFE AND PROPERTY DESTROYED.

Boston, April 9.—Advices from various points of Michigan report that a cyclone visited Charlotte, Towbridge, Altagan, Battle Creek, Kalamazoo, and Mount Clemens about three o'clock yesterday, doing several thousand dollars' worth of damage. Houses, barns and outbuildings were demolished. One woman was killed by lightning at Mount Clemens, and a number of persons injured in other places.

A cyclone, at Norwalk, Ohio, yesterday, partially demolished an umbrella factory. Thirty young women were employed in it. One was fatally, one very seriously, and several less seriously injured. A number of barns were demolished.

Obeslin, Ohio, April 9.—Business houses and cellars were flooded by a heavy rain storm last night.

Prophetstown, Ill., April 9.—The track of Monday's storm was a mile wide and a mile long. No loss of life. Damage to property will not exceed \$20,000. A number of persons were injured.

Anchor, Ill., April 9.—The town hall was uninjured by a storm last evening. Hail stones of prodigious size fell, and it is feared the storm has done great damage elsewhere in this locality.

Highland Park, Ill., April 9.—A fierce storm swept over this place about 11 o'clock last night, doing heavy damage to property. Only one person was injured, but a number had narrow escapes. The wind came from the northwest, and the path of destruction was about half a mile wide, the storm cutting a clean swath through the town.

News Notes.

Alaska has three weekly newspapers—one at Sitka and two at Juneau.

A New York syndicate, to buy and set apart a game preserve in the Adirondacks, has been formed.

Nine hours, without reduction in wages, has been granted the 2,200 workmen employed in twelve marble factories in Boston.

A New York despatch announces that a letter from Havana says the question of the annexation of Cuba to the United States is steadily growing more serious, and the Government commences to be alarmed.

The London Herald prints an interview with Stanley in which the latter maintains that Germany influenced Emin while he was ill, and that Emin doubtless revealed the proposals Stanley made to him at Wadai. Stanley thinks the Germans intend to annex, and will on these plans. If Germany secures the Lake Region, he says it will destroy the whole value of the British coast possessions.

Scott's Emulsion of Cod Liver Oil and Hypophosphites

Is sold all over the world. It is far superior to plain Cod Liver Oil, palatable and easily digested. Dr. Martin Miles Stanton, Bury Bucks, London England, says: "I have prescribed Scott's Emulsion, and taken it myself. It is palatable, efficient, and can be tolerated by almost anyone, especially where cod liver oil itself cannot be borne." Sold by all Druggists, 50c. and \$1.00.

"BARRISTER"

—AND—
"LUCKY LAD."

THESE renowned Clydesdale Horses will be sold at PUBLIC AUCTION, on the MARKET SQUARE,
ON FRIDAY, 18th APRIL,
AT 2 O'CLOCK, P. M.

Half the purchase money to be paid at time of sale. A credit of 12 months will be given for the balance on approved security.

"BARRISTER" and "LUCKY LAD" are so well known to the public interested in horses that it is deemed necessary to say but little concerning them.

"BARRISTER," which was foaled in 1878, was exhibited at many of the leading Shows in the Old Country, and never left the ring without a ribbon. He on this side has completed in New Brunswick, Nova Scotia and State of Maine, and was always placed first. At our Provincial Exhibitions he has never been beaten, excepting by "Lucky Lad." His stock is more favorably known in the Maritime Provinces and State of Maine, both as good workers and prize winners than any other horse of the draught breed.

"LUCKY LAD" was foaled in 1884, and was a short leg horse at the great Glasgow Spring Stallion Show, in March, 1887. He entered the ring with no less than 72 of the best 3-year-old horses of Scotland, and was one of twelve left in the circle from which the winner was selected. He is a very stylish, active horse, and as near faultless in conformation as any big horse to be found. He has been shown twice at our Provincial Exhibition and was placed first each time. His progeny took first prize at Charlottetown as foal at foot, at Exhibition, October, 1888, and first prize as yearling and second prize as weanling at Exhibition held in October last.

These horses have never had to leave their stalls in Charlottetown to make a fall season.
R. BEARSTO,
Auctioneer.

FOR THE WEAK AND LANGUID.—Campbell's Beef, Iron and Wine is one of the best tonics passing many nutritive and strengthening qualities. Is recommended by the leading medical men. If you are weak and languid a bottle will give instant relief. See that you ask for a d'got Campbell's Beef, Iron and Wine.
