The Liberal-Conservative Platform

"That this House is of opinion that the welfare of Canada requires the adoption of a National Policy, which, by a judicious re-adjustment of the tariff, will benefit and foster the Agricultural, the Mining, the Manufacturing and other interests of the Dominion; that such a policy will retain in Canada thousands of our fellow-countrymen now obliged to expatriate themselves in search of the employment denied them at home; will restore prosperity to our struggling industries, now so sadly depressed; will prevent Canada from being made a sacrifice market; will encourage and develop an active inter-provincial trade, and moving (as it ought to do) in the direction of a reciprocity of tariffs with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this country, eventually, a reciprocity of trade."

MR. TILLEY SAYS:

"THE POLICY OF THE OPPOSITION IS NOT INCREASED TAXATION, AS IT HAS BEEN STATED BY OUR OPPONENTS, BUT A READJUSTMENT OF THE TARIFF AND REDUCED EXPENDITURES."

DR. TUPPER SAYS:

"WE DO NOT REQUIRE SO MUCH MONEY AS THE HON. GENTLEMEN OPPOSITE, AS WE HAVE SHOWN BY OUR ECONOMY IN THE PAST, AND WHICH WE ARE PREPARED TO PRACTICE IN THE FUTURE, BUT THAT THE MONEY SHALL BE LEVIED IN SUCH A WAY AS TO FURNISH EMPLOYMENT FOR THE PEOPLE AND PROVIDE THE MEANS OF PAYING THE TAXATION THAT IS LEVIED UPON THEM."

MR. MACKENZIE SAYS:

"We have no idea of having a system of Free Trade." "The policy of the Government is determined opposition to the Opposition." "It is absolutely impossible to carry out a Free Trade Policy."

SIR A. T. GALT SAYS:

"Perfect Free Trade would annihilate many valuable branches of industry, and necessarily cause the immediate substitution of direct taxes in lieu of Customs duties, to an extent that, in my opinion, would be unbearable."

\$41,000 MORE GONE!

ALTHOUGH McKenzie, when in Opposition, was loud in declaiming about the madness of letting a contract for Pacific Railway before surveys were made, when he got into power he determined to build a line to French River, which was not necessary as part of the Pacific Railway, and was not included in the original scheme; and in such a hurry was he to let the contract to his friend ex-Senator Foster, that he refused to have surveys made before letting the contract! (Journals 1875, p. 220.) When the line, as let for contract, came to be examined, it was found impracticable, and had to be abandoned! (Sess. Pap. 57, 1877.) McKenzie then cancelled the contract, gave Foster back the security he had deposited, and paid him \$41,000 beside without proper authority! Here is what Sandford Fleming, Chief Engineer, says on oath:—

"Are you aware that the Order in Council requires that the payment should be made on the certificate of the Engineer, and do you hold yourself responsible for the payment of the \$41,000?—No, I have not certified for the payment of the \$41,000!—You have not seen the vouchers, and have not certified the payments?—No!" (App. No. 2, Journals 1877.)

What do the electors think of McKenzie paying out their money in this way?

IF WE ARE GOING TO BUILD UP A NATION HERE, WE MUST TAKE A NATIONAL WAY OF DOING IT.—Hon. Geo. Howland's Speech in Senate, 1878.

McKenzie Party in Power.

It would be difficult to name a political crime they have not committed or an assault on popular liberties and private rights which they have not accomplished. Their five years career is an epitome of political outrage and violence, unprecedented in the history of modern self-government. The mobs of France have risen against and overthrown much better Governments than that which reigns at Ottawa under Mr. McKenzie. Since the days of Castlereagh no such corrupt Government has lived in England. Compared with McKenzie's, the rule of Bismarck and Gortschakoff might be esteemed mild and moderate. In fact, while in other countries the tendency of rulers has been towards liberal administration of the laws, in Canada the McKenzie Party have treated the entire Government fabric as a huge electioneering machine to be employed to prevent their opponents from reaching power again.

THE PRICE OF FLOUR.

OUR Grit contemporaries in town and country continue to cry out that the Opposition policy will "raise the price of flour." We cannot to often call their attention to Mr. McKenzie's remarks on that very subject:—

Extract No. 1.

Said Mr. McKenzie to the electors of Clinton—"To the extent of that 'duty' (25 or 50 cents per barrel) which goes by Boston and New York, our millers might get the advantage and no more, and that if spread over the millers of this county would afford them, perhaps, one ninth of a cent per barrel on the flour made in Canada."

Extract No. 2.

And again, in Oct., 1875, he said:—
"Some people in Parliament have held that it is possible to protect the farmer and raise the price of wheat by imposing a duty on foreign wheat, and they actually believe 'If we impose a duty of five cents on wheat coming from the United States it will increase the price of our wheat also. There never was a greater fallacy to hold than that, because, if we produce more wheat than we consume, it would only prevent any United States wheat being carried through Canada or milled in Canada for transportation to the Old World.'"
Extract No. 3.

Mr. McKenzie said at Halifax:—
"Now, when your leaders come down here they declare, as Dr. Tupper did the other day, that a tax on flour would not raise the price one cent, and Dr. Tupper quotes me as an authority for that statement. Well, I do believe in it; I believe that no tax will affect the price of a commodity of which we produce a surplus."

British Columbia Indignant.

THE following is the concluding portion of an address to the Queen, recently passed upon a division of 14 to 9 in the House of Assembly of British Columbia:—

"To prevent, if possible, the repetition in future of the disasters of the past, your petitioners, with great regret, feel compelled, in defence of the interests of the Province, to resort to the unavoidable alternative forced upon them by the conduct of the present Dominion Government; and do, therefore, humbly pray that, in the event of the Dominion Government failing to carry into effect the settlement of 1874 on or before the 1st of May next, Your Majesty will be graciously pleased to order and direct that British Columbia shall thereafter have the right to exclusively collect her customs and excise duties, and to withdraw from Union, and shall also in any event be entitled to be compensated by the Dominion for losses sustained by reason of past delays and the failure of the Dominion Government to carry out their railway and other obligations to the Province."

An exchange very happily remarks that one of the most instructive signs of the times is the number of "Independent" candidates in the field. Not one of them belongs to the Opposition—they are all Grits except one, who, we believe, is really an independent man—we mean S. J. Dawson, of Algoma. The rest find that they cannot face their constituents, and carry the sins of the McKenzie Government, which now stinks in the nostrils of the people.

We had the pleasure of seeing our young friend, Mr. Thomas Costello—son of John Costello, Esq., of this City. He is from New York, and left here yesterday for his adopted home. We were glad to see him and to know that an Island lad was doing well. He is another of our sons of whom our little Province may be proud. Our good wishes go with him.

THE Patriot, this morning, under the heading "Cheap Sympathy," tries to make his readers believe that Cartwright's insulting language to Highlanders was a "joke." Thousands of intelligent Highlanders in Ontario, as well as other Provinces of the Dominion, have not accepted as a "joke" language which unmistakably conveys the animus toward the Highland race of the man who uttered it.
