

SAFER CIGARETTE CLAIMED BY TORONTO RESEARCHERS

TORONTO (CP)—Two private researchers claim to have developed a cigarette that is safer and healthier than conventional types.

David Laing, senior technician at the University of Toronto metallurgy department, and James A. E. Bell of the International Nickel Co. at Sudbury, Ont., have studied heat generated by burning cigarettes, cigars and pipes. Heat is the key to the harmful effects of cigarettes, they said. Pipes and cigars burn at lower heat.

They claim to have been able to get the temperature of cigarette smoke down to the level of pipes and cigars by altering the design of the cigarette and the way tobacco is packed in the paper.

The men said they got the idea for their research when they noted the United States surgeon-general's report on smoking and lung cancer said pipe and cigar smokers contract lung cancer less frequently than cigarette smokers.

No new chemicals were added to the newly designed cigarettes, they said, but lowering the combustion temperature was found to eliminate irritants in the smoke. Flavor was unchanged and some-time improved.

Both men said they are trying to patent their development and the Reynolds Tobacco Co. of Winston, N.C. is testing the design.

Sales Tax Revenues Far Ahead Of 1964

By JAMES NELSON

OTTAWA (CP)—Federal government sales tax revenues are running ahead of last year at more than four times the speed of general revenues.

If the pace keeps up for the balance of the fiscal year, running to next March 31, it seems clear that the buoyancy of the economy will push revenues well ahead of Finance Minister Gordon's April 26 budget forecasts.

Sales tax collections normally run high at mid-summer and towards the end of the calendar year.

But in the first four months of the current fiscal year—April, May, June and July—they amounted to \$573,300,000, compared with \$494,700,000 in the same period of the 1964-65 fiscal year.

Part of this increase reflects the imposition Jan. 1 of the final three percentage points of the 11 per cent sales tax on building materials and production machinery.

Three percentage points of the sales tax are earmarked for the old age security fund, from which old age pensions of \$75 a month are paid to everyone 70 and older. These collections for this fiscal year, to the end of last month, ran to \$156,800,000, compared with last year's comparable figure of \$120,300,000.

AHEAD OF SCHEDULE

Sales tax collections, on both normal budget account and for the old age security fund, are running 16 per cent ahead of 1964-65 figures, while total tax revenues on both accounts, amounting to \$2,838,000,000 at the end of July, are up 3.6 per cent on the year.

In the normal budgetary revenues, sales tax collections amounted to \$416,400,000 in the four-month period, up 11.2 per cent. Finance Minister Gordon forecast in his budget speech that for the whole fiscal year, these collections would run to \$1,300,000,000, up about nine per cent on the year.

Centennial Projects Announced

OTTAWA (CP)—Four additional projects under the federal provincial centennial grants program have been approved for Nova Scotia, the Centennial Commission announced here.

The projects are:

A regional library for Truro to cost \$180,000, of which the federal government will contribute \$42,000.

A library for College St. Anne to cost \$150,000 of which the federal government will donate \$50,000.

A park at Shelburne worth \$12,000, of which \$4,000 will come from the federal government.

An arena at Port Hawkesbury worth \$142,000, of which the federal government will donate \$29,000.

The province now has 18 projects in the program under which the federal government contributes up to \$1 for every resident of a province for centennial projects providing the provincial government and municipality together contribute at least \$2.

eral government will donate \$29,000.

The province now has 18 projects in the program under which the federal government contributes up to \$1 for every resident of a province for centennial projects providing the provincial government and municipality together contribute at least \$2.

Wagner Favors Immigration Restrictions

QUEBEC (CP)—Quebec Justice Minister Wagner said Tuesday he favors rigorous restrictions on immigration but he has no thought of recommending that the federal government adopt restrictive measures against any ethnic group in particular.

"Organized crime makes no racial distinctions throughout the world," said Mr. Wagner in a statement.

"I suggest simply, as justice minister responsible for law and order in Quebec, that federal authorities use all means at their disposal to assure that immigrants will be valuable acquisitions."

News stories from Quebec Monday attributed to him a statement that he particularly wanted supervision of admission of those who spread Sicilian origin because the Mafia and Cosa Nostra crime syndicates recruited most of their members from among them.

WANTED

SHIP FITTERS
PIPEFITTERS
SHIPWRIGHTS
FIRST CLASS WELDERS

Long term employment, top wages and full scale of employee benefits

Apply:

Industrial Relations Manager,

GOOD WINTER IS PREDICTED

VANCOUVER (CP)—Domingo Charlie, elderly weather prophet of the Squamish Indian tribe, looked at the leaves here and predicted a good winter.

By their color, he decided "It's gonna be mild."

Last year Domingo Charlie predicted a bad winter, and British Columbia was buried in snow that tied up traffic and vital services, and drove some suburbanites to move into downtown hotels until the worst was past.

M/F Limited Transfers

TORONTO (CP)—The transfer of a substantial portion of Massey - Ferguson Industries Ltd. farm implement assembly from Brantford and Woodstock, Ont., to a new factory in Des Moines, Iowa, was announced here by company president J. G. Straizer.

The transfer will take place over a 12-month period after which time the implements will be assembled in a plant purchased by Massey - Ferguson Inc., the company's subsidiary in the United States.

While the implements for the U.S. market will be designed and assembled in Des Moines, they will continue to be made from Canadian steel.

Mr. Straizer said the transfer was made for two reasons—the need for a manufacturing facility closer to markets and the need for new assembly facilities.

Announcements

CITY AND QUEENS
DANCE at Mt. Ryan Hall, Johnsons River, every Friday. Good music.
