WITH GLOVES ON.

The hands of the patient referred to below were so sore and offensive that he had to wear gloves continually to hide his hands, until he used

PHOSPHOLEINE

(Pronounced FOS-FO-LEEN), when they became smooth and soft. SCROFULA and SALT RHEUM. Dear Mr. Eggar, I have much pleasure in giving you a record of the effect produced by the use of your PHOSPHOLEINE. The following case has come under my particular attention while visiting the sick and poor: A case of Hereditary Scrofula.—The patient had tried most of the blood purifying remedies and Sarsaparilla in use, but for the past 19 years obtained no relief. After taking three bottles of your PHOSPHOLEINE his flesh became smooth and healthy, and he is now completely cured. A case of severe cough in the last stages of Consumption: The cough was eased, and the patient regained flesh and strength. This case is past curing, and the patient was pronounced so by physicians; but had she obtained of your medicine sooner, would no doubt have been cured. A case in which patient had given up the use of alcohol: The craving was cured, and the patient was regaining health and strength. A case of loss of flesh, great weakness, and inability for exertion of any kind, has been restored to health and strength by using your PHOSPHOLEINE. I have also recommended it to many who have been suffering from Dyspepsia, loss of strength and flesh, and in every case it has effected a cure. I have derived much benefit from the use of it myself. I remain yours, &c., E. C. NEWBERY. For Sale by all dealers at 50c per bottle of 60 doses. For sale by Geo. E. Hughes and Reddin Bros., Charlottetown.

The Telephone Company OF P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:— 1st. Speak with the mouth about four inches from the transmitter. 2nd. Speak in a moderate tone of voice, not too loud, & distinctly. 3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds from the transmitter. It is possible to talk and be heard when standing back two or three feet from the transmitter, if you speak loudly enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
