

BBG Are Considering Corner Brook Station

OTTAWA (CP)—The Board of Broadcast Governors have taken under advisement a bid for a new radio station at Corner Brook, Nfld.

Denys Ferry, assistant manager with Colonial Broadcasting System Ltd., operator of three other stations in the province, said his company's proposed station would supply a type of regional coverage not being given to the community through the CBC outlet there or CFCB, the existing private station.

He proposed operation of an AM (amplitude modulation) station on 730 kilocycles.

The bid, opposed by CFCB, will be studied by the BBG which will make a recommendation on it to the government later.

With a population of about 7,000 in 1965, a booming economy and some \$32,000,000 annually in retail sales, Corner Brook could easily support another radio station, Mr. Ferry told the board.

Linked with VOCM in St. John's, CKOM in Grand Falls and CKCM in St. Mary's, the new station at Corner Brook would give colonial stations in the four major areas of the

Refrigerator Sales Streak Shows No Sign Of Cooling

By GORDON GRANT TORONTO (CP) — The hot sales streak that refrigerators started on last year is showing no sign of cooling off, according to manufacturers.

Sales in the first two months of this year were up about 17 per cent from last year's \$110,000,000 pace, and this gain is expected to hold up for at least the first quarter.

Sales in 1965 jumped about 12 per cent from 1964, with more than 375,000 refrigerators finding homes. This was about 30,000 more than the industry had expected to sell in 1965 and is even more than it had expected to sell in 1967.

Dominion Bureau of Statistics figures show 352,562 units were sold in Canada by domestic makers with Ontario residents leading the way, buying 143,890 units. Quebec was second with 97,310.

The bulk of refrigerators sold in Canada are replacements, and the outlook for the future looks bright since there are an estimated 1,500,000 refrigerators more than 10 years old now in Canadian homes.

SEEK CHANGES

A spokesman for the industry said: "Most refrigerators in homes work pretty well, the old ones that is, so if we want to sell a new model we have to find something attractive."

One of the biggest innovations has been the side-by-side refrigerator-freezer which he said "may really hit the chest freezer market."

The side-by-side unit has been cut in size so that it now takes up only slightly more room in a kitchen than a conventional refrigerator.

Colored refrigerators are also

Export Credits Insurance Down

OTTAWA (CP)—The Export Credits Insurance Corporation insured \$212,000,000 worth of exports in 1965, compared with \$246,000,000 in the previous year, its annual report showed.

Last year's total included \$78,500,000 worth of goods insured on behalf of the Canadian government, compared to a corresponding \$215,000,000 of government risk in 1964, largely in connection with large wheat and aircraft sales.

The report, tabled in the Commons by Trade Minister Winters also showed that the Crown agency signed long-term export financing agreements to provide \$57,000,000 for six capital goods projects in five countries. This compared with \$68,000,000 in 1964.

Two agreements were signed with Pakistan and one each with India, Mexico, Formosa and the United Arab Republic.

ONE LED THE WAY

The first Jewish kibbutz (co-operative farm) in Palestine was founded in 1909 at Deganla, near the Sea of Galilee.
