

The showing of Coronation Robes and Regalia which opened yesterday at Queen Charlotte High School was viewed by a large number of interested citizens and school children, and will be continued today and tomorrow. The showing, which has been arranged through the National Art Gallery of Canada and in this province by the Department of the Provincial Secretary, will include the Purple Robe of State, the Supertunica, the Duke of Edinburgh's Robe, the Canopy, the Falcon and the Homage Bible.

Replicas of the Regalia, and various chairs, hangings, carpets, table coverings and other historic items will also be in the exhibit. These items of specific interest were used in the centuries-old ceremony when Her Majesty Queen Elizabeth II was crowned in the famed Westminster Abbey. It is felt by authorities that the exhibition of these historic items will be of interest to all Canadians and particularly to the school children and those who feel that the ties of Crown and Commonwealth should be stressed and strengthened at all times.

## Montague Seeks Old PO Building

The town of Montague will make official application to Federal authorities for the purchase of the old post office building, it was decided at the regular meeting of the Town Council held last night. Mayor B. H. Yeo presided over the meeting at which Councillors Reynolds, Hessian, Nicholson, McGowan and Greene were in attendance. The council was informed that the old building had been turned over to the Crown Assets Corporation for disposal, and a formal application to purchase must be tendered. This is to be done immediately. Following the reading of the minutes and the bills, the correspondence was read. Pursuant to the correspondence it was moved that negotiations be undertaken by the Town of Montague for the establishing of a letter and parcel

disposal box to be placed on the south side of the bridge to serve this area. A committee of firemen were present at the meeting to express the appreciation of the fire brigade for fire helmets required by the firemen for protection while fighting fires. In further connection with the Fire Department it was proposed that plans be drawn up for the construction of a water dam at the Burnt Bridge to provide sufficient water for this north area in case of fire. Before the meeting concluded it was decided to hold future council meetings in the former R.C.M.P. office, which was located in the Town Hall and further to grant the room to the firemen for their monthly meeting on the third Monday of each month.

## Montague Jr. Trade Board Discusses Fire Insurance

A consideration of the fire insurance rates in the town of Montague was the major topic of discussion at the regular bi-monthly meeting of the Junior Board of Trade held in the Town Hall last night. The president, Mr. James Cudmore, presided, and there was a large number of members present. It was considered that the rates of fire insurance were high in view of the fire protection now available, and it was felt that the Underwriters Association should be approached to give consideration to the matter and possibly initiate adjustments.

The question of a letter and parcel mailing box to be located on the south side of the bridge was given considerable discussion, and it was proposed that the Montague Junior Board of Trade lend its support in its attainment with the realization that such a box was considered a necessity and would be of a not inconsiderable benefit to the area served. Following a discussion on a meeting room, the board accepted the invitation of Mr. Richard MacLean to meet at his home for the next meeting, and that of Mr. Cyril Johnston for the following meeting.

NEW IS OLD  
New College at Oxford University in England actually was founded in 1379.

HISTORIC GROUP  
The first chamber of commerce in the British Isles was founded in Jersey in 1768.

ANCIENT ASTRONOMERS  
It is not known when the stars of the Zodiac were first grouped into named constellations.
