

THE DAILY EXAMINER.

JULY 3, 1886.

Editorial Notes.

Comparative statement of Customs Revenue collected at the port of Charlottetown, P. E. I., for the years ended June 30th, 1884-5 and 1885-6.

The fishing industry is one of the most important in the Dominion, and as an aid to its development there are twelve hatcheries, 1 in British Columbia, 4 in Quebec, 2 each in Ontario, New Brunswick and Nova Scotia, and 1 in P. E. Island.

Commenting upon the importance of our fisheries, the Moncton Times says that the Dominion Government generously provides for those engaged in fishing by its excellent system of bounties, which are more than an offset to the award under the Washington Treaty, which, it was claimed, rightfully belonged to the fishery interests.

Speaking of the recent victory the Halifax Herald says: "Reports from Prince Edward Island indicate a very decisive victory for the Government in the elections yesterday. The Sullivan-Ferguson Government have already been in power eight years. Their overwhelming success at the polls yesterday is therefore a most flattering certificate of their careful administration. Unlike the monkey combination who have charge of our provincial affairs in this Province, they resorted to no side issue, and raised no seditious cry, but simply appealed to the people on their record as faithful public stewards. The response they have met with is conclusive evidence that the people of Prince Edward Island know how to appreciate a good government when they have one."

Commenting upon the results of Wednesday's contest, the Moncton Times says: "This is a good year for governments. First, a peculiar combination in New Brunswick, virtually Grit, but kept alive by Liberal-Conservative votes obtained by hypocrisy, is sustained; next the Grit Government in Nova Scotia is sustained by appeals to old prejudices of the people against Confederation; and now the Liberal-Conservative Government in Prince Edward Island is sustained. In no case have the ruling powers lost ground, though in the Island Province, the Sullivan Government had the disadvantage of a term of eight years, while in New Brunswick and Nova Scotia, the Governments are comparatively young. The Island Government was the only one that appealed for support on its acts of administration; the Grits did all they could to defeat it because of preferences in Dominion politics, but they did not succeed, which is proof of the popularity of Liberal Conservative principles wherever the people are squarely appealed to."

Owing to the political contest and the consequent pressure upon our columns, at the time of the Public School examinations we could only refer to them in the briefest manner. The Editor of the Union, however, attended all the examinations and seems to have "sized them up" pretty fairly. He appears to have been particularly well pleased with the Queen Square School, and as the result of his observations, says editorially: "On Friday the examination of Queen Square School, of which Mr. Gaul is principal, took place. The attendance of the public was not so large as on the two preceding days, which was much to be regretted as the exercises were pleasing and eminently satisfactory. Judging from the examination we are of opinion that all the classes in this school are very efficiently conducted. The lady teachers who have charge of the smaller boys are evidently careful and painstaking with their pupils. The exercises in mental arithmetic which the latter went through would have done credit to much older scholars. The examination of the classes in English history, arithmetic and geometry, was creditable alike to teachers and pupils. We may observe in closing that the Charlottetown Public Schools are, in our judgment, a credit to the city, and we trust that the citizens will take an increasing interest in their welfare. The teachers are doing a noble work and are deserving of sympathy and support. Whatever curtailment in other branches of the public service may be made, we trust that nothing will ever be done to impair the efficiency of our public schools."

The Grand Jury yesterday visited the Hospital for the Insane and made the following report:

JULY 2ND, 1886.

The Grand Jury this day visited the Hospital for the Insane. Everything about the building was found in first-class order. There are 121 patients under treatment, who seem to be well cared for. The ventilation is good, and the cleanliness especially worthy of mention. They also examined the food, which they found of excellent quality, and their unanimous opinion is that the Hospital is well and judiciously managed.

Synod Notes.

The Island clergy and lay delegates attending the Diocesan Synod of the Church of England at Halifax, are: The Reverend Archdeacon Read, Revs. S. C. Smythe, Harper and Johnstone; Messrs. E. J. Hodgson, D. W. Palmer and Lawrence Watson.

Among visitors at the Synod is the Lord Bishop of Iowa.

In the Lord Bishop's address, touching allusion was made to the great loss, personal and diocesan, caused by the death of the late much-loved Priest Incumbent of St. Peter's Church. Similar mention was also made in the Report of the Executive Committee.

Matters relative to King's College occupied the first meeting of Synod, and it was decided to take steps for the providing of a Seminary for Ladies, under authority of the Synod.

Rev. Wm. E. King is expected to leave Halifax for Charlottetown on Saturday. He will take the usual services in St. Peter's Church, on Sunday next.

The "Worcester" Beats the Record.

The steamer Worcester, Capt. Allen, of the Boston, Halifax and P. E. I. line, arrived at her wharf in this city at 11 a. m., making the entire run from Boston here, including stops at all ports and coaling at Pictou, in the remarkably short time of 70 hours. This we believe to be the best time ever made between the two ports.

Cardinal Gibbons.

Baltimore despatches say that at the ceremonies of conferring the scarlet biretta, betokening the rank of a Cardinal-Prince of the Roman Catholic Church, there was in attendance a large assemblage of the most prominent prelates in the United States and Canada. Amongst those present were Archbishop Corrigan, of New York, Lynch, of Toronto, Fabre, of Montreal, Bishop Rogers, of Chatham, N. B., and Vicar-General Rooney, of Toronto. During the Mass Archbishop Ryan, of Philadelphia, made an address on the life of the new Cardinal and the Church in its relation to Government. Rev. Mr. Brandi, Secretary to Mgr. Straneiro, the Papal Delegate, presented to Archbishop Kenrick, the Legate appointed by the Pope, the orders from Rome conferring upon him the authority to invest Archbishop Gibbons with the biretta.

The Sad Effects of a Strike.

The Grape Creek, Ill., miners who went on a strike on May 1 are now being turned out like so many cattle into the woods. They offered to arbitrate, but the company declined to permit outside interference with its business, and placing a strong guard over its property, notified the strikers to vacate the houses they occupied. The men sought relief in law, but the court decided that the leases were invalid and the houses must be vacated. The men were given until June 21 to move out, but failing to comply with this requirement the work of forcible eviction was begun last week. The strikers, with their families, are camped in the woods and subsist on the pitance doled out to them by the union. They number about one thousand persons, and their condition is deplorable.

A Socialistic Policeman.

Berlin despatches report that last autumn a police officer named Thring, was ordered to watch the Workingmen's Society and became a member under guise of a machinist. After several months his character was discovered, and he was violently expelled. He had, however, gained valuable information concerning the Socialist movements. Deputy Singer made a formal complaint in the Reichstag, accusing Thring of having incited the Socialists to commit political crime. Singer's informants, Berndt and Christiansen, were prosecuted. Witnesses were called to prove the truth of the men's statements, and in the endeavor to convict Thring of treason, Thring denied the charges and contended that Berndt acted as his agent, revealing the Society's secrets for money. Thring was acquitted, and the others were sentenced to six months' imprisonment.

TELEGRAPHIC NEWS.

[SPECIAL DESPATCHES TO THE EXAMINER.]

The English Election.

LONDON, July 3.

Great excitement prevails over the elections of yesterday. Polling was held in seventy-five constituencies. The most noticeable features were the exceeding closeness of the vote and the abstention of many on both sides from voting.

The Gladstonians have captured seats in East Leeds, North and South-west Manchester, and the Exchange Division of Liverpool, while the Tories won South Salford, Hereford, Hastings, Falmouth and South Bristol.

Jacob Bright was successful in Manchester, but Sir Thomas Brassey was defeated in Liverpool.

The latest returns show that, so far, 116 Tories and anti-Gladstone Liberals and 39 Gladstonians and Home Rulers have been returned, the former having a great many returned unopposed where opposition would have been useless.

The great cities of Manchester, Leeds, Bristol and Liverpool are pretty evenly divided between the two parties.

The only contest in a Scottish constituency was in Perth, where a Gladstonian was returned.

In Salford Armitage, a Gladstonian, has a majority of only five votes, while in Central Leeds Balfour, a Tory, has a majority of only thirteen, out of nine thousand votes polled.

George Kynock, a member of a large rifle firm in Birmingham and the Tory candidate for Aston-Manor, in a speech, said that if the Loyalists of Ireland were obliged to appeal to arms, he would be prepared to contribute one thousand rifles and two million cartridges.

Lively News from the Fisheries.

HALIFAX, July 3.

The officials charged with the protection of the fisheries, have completely turned the joke upon the captain of the Portland, Me., fishing schooner "City Point," which, as mentioned in your despatches of yesterday, had put into Shelburne, N. S., for the purpose of surreptitiously obtaining bait, under the pretence that she wanted to get her decks caulked.

Previous to the placing of an armed guard from the "Terror" on board, the "City Point" had landed two men passengers, with their baggage, without reporting at the Custom House, and for this violation she has been formally seized and held.

Yesterday, another Portland schooner put into Cape Sable Island for the purpose of shipping some men. She was warned off and given twenty-four hours to get outside the limits. She left!

It is reported that two American schooners succeeded in obtaining bait at Arichat yesterday.

The Portland mackereling steamer Novely, arrived at Pictou yesterday and attempted to obtain a supply of coal. As the treaty mentions "wood" but not "coal" she was prohibited from obtaining any, and left for Charlottetown, P. E. I., to try her luck.

A Small Baby.

A "Baby Bunting" that could very readily be wrapped in a rabbit skin of nursery lore has been born to a farmer's wife in the little settlement of Bell Komp, Chester Co., Pa., which is about eight miles from Oxford. The infant is a most wonderful freak of nature. When ushered into existence two weeks ago it was barely ten inches in length, and it failed to get the better of a four pound weight when placed in the other end of an ordinary pair of scales in a village grocery store. The father is a fine, hearty farmer, rather above than below medium height, named Nelson Bunting. He is 45 years old, and his wife, Julia, who is not over 2 or 3 years his junior, is quite a large woman. They are the parents of half a dozen girls and boys fully as large as children of their respective ages usually are, and they can offer no explanation of this apparent phenomenon. Since her birth "Baby" Bunting has not grown in any perceptible degree, but she is by no means weak or puny despite her diminutive size, and her voice is as powerful as that of the largest infant born. She is well-proportioned and pretty, and is generally considered a fair specimen of a mid-got. Her father's Sunday silk hat is plenty large enough to hide her completely, and when put into a half-gallon measure her head does not come within several inches of the top.—Philadelphia Cor.
