PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY.

TUESDAY, March 26.

Hon. Mr. Sullivan presented despatches from the Department of Justice, respecting bills passed last year, which had been found to be *ultra vires* in some respects.

Hon. Mr. Sullivan submitted a bill entitled, "An Act to amend the Charlottetown Incorporation Act." He explained that the Act passed last year for the consolidation of the statutes relating to the City had been objected to by the Minister of Justice as being *ultra vires* in respect to the harbor of Charlottetown and in respect to the jurisdiction of the Stipendiary Magistrate in civil cases. The Minister of Justice held that the Judge of the City Court should be appointed by the Governor-General in Council. The bill was submitted for the purpose of meeting the case. He said that the bills had been drawn and prepared by the law officers of the city and solicitors outside the legislature. The law clerk of the House had nothing to do with them.

Mr. Sinclair said that the House was accountable for its legislation, and most of all the Attorney-General.

Hon. Mr. Sullivan said that he had been told by the Minister of Justice that there was not a Province in the Dominion whose legislation was so regular as that of this Province.

The House then went into Committee to further consider the bill relating to evidence.

After some time in committee progress was reported and the House adjourned.

WEDNESDAY, March 27.

The bill relating to lunatics and the custody of lunatics was passed a stage.

House then went into Committee on the bill respecting witnesses in the Supreme Court, and it was, after some time, reported agreed to.

LETTERS TO THE EDITOR.

Hagarty's Wharf.

Sir,—Now that Premier Sullivan, in his place in Parliament, has declared that all the wharves in P. E. Island of importance, are the property of the Dominion Government, it behooves our representatives at Ottawa, if they can do anything in the matter, to urge the necessity of having them put in immediate and thorough repair. The wharf known as Hagarty's Wharf, East River, is of great importance to the eastern part of Fort Augustus, Dromore and Mount Road. In fact there is no other wharf in the East River that has such a large catch of country leading to it. The steamer also calls at it during the summer months, and there is a considerable shipping done at it spring and fall. The Local Government in their beneficence, have kept it in a passable state up to the present time. It now needs a thorough repairing, and it is a great disadvantage and injustice to the farmers of the section named if the Dominion Government don't take immediate control of it and keep it in safe and proper condition. Our local representatives will please note that the road leading to it from the Fort Augustus Road known as Hagarty's Road, should be macadamized in places, as it is much cut up and dangerous.

A FARMER.  
Fort Augustus, March 26, 1889.

Peddlers Abroad.

Sir,—In your issue of the 22nd there appeared a communication signed "Fort Augustus," in reply to which I beg to state that the farmers of Fort Augustus do not feel in any way thankful to this unscrupulous demagogue for his exaggerated statements concerning our peddlers, with whom we have been trading for the past few years, and with whom we intend to continue to trade.

FARMER.  
Fort Augustus, March 27, 1889.

The Condition of the Farmers in Dakota.

The deplorable state of affairs amongst the farmers of Dakota is shown by the Fargo Argus, which says: "It is a serious question where our farmers are to get suitable seed for their spring sowing. There is some wheat still in the hands of farmers, but the quantity is limited and the quality is generally very inferior, and entirely unsuitable for seed. The failure of the crop last season left many of our farmers in straitened circumstances. In many instances even the wheat usually reserved for bread, was sold to meet immediate and pressing emergencies. It is yet more than five months until harvest, and we are informed on authority that we deem most reliable, that it is not improbable that shipments will have to be made into North Dakota and Northern Minnesota to meet our bread wants prior to harvest time. The situation at best is a critical one, and our farmer friends, who have sufficient to bread them till after next harvest, should be induced by specious arguments to sell it in the hope of being able to replace it for a less figure later, as such experiments are likely to prove very costly to those who indulge them."  
Market reports show that while 90 cents is paid for wheat at Neche, Dakota, in Manitoba it brings from \$1 to \$1.08.

Seeding operations are going on throughout Manitoba.

The Mexican Government has taken steps to prevent the introduction of American lard, which has officially been announced to be deleterious.

Horse Notes.

The trotting stallion Pancoast is reported dead. The horse was struck by lightning last August and partial paralysis ensued. Pancoast was purchased at a cost of \$28,000 at the Glenview sale in 1886.

An exchange says: W. F. Todd, of St. Stephen, N. B., has been offered \$80,000 for his mares, the get of Emmeline, and has refused it. This offer has been made by parties in Kentucky. There are eight of the mares, and Mr. Todd gets at least \$3,000 for each of their offspring. Considering this, he sees more money in keeping them and raising good stock than in accepting what many people would consider a fortune in exchange for them.

William Redding, who has been engaged of late in shipping trotters to the Cuban market, will soon leave with the most valuable consignment that he has yet taken to Havana, among the lot being the four-year-old filly Besque Bonita, for which he paid \$10,000. It is said that in the case of this animal she will be taken to Cuba, and along in June shipped to France, it being the idea of her owner that more money is to be won there than anywhere else, and yet he does not care to ship across the Atlantic at this time of the year, although the voyage to Cuba can be made with comparative safety.

Gen. B. F. Tracy, who has been appointed Secretary of the Navy by President Harrison, has decided to sell at auction his breeding farm and all the horses he owns. General Tracy has been an earnest and enthusiastic student of the breeding problem, and long ago foresaw that from trotting sires and dams only can fast trotters be secured, and with this idea in mind he has followed in his breeding operations the families whose members have been successful on the turf. He was a great advocate of the Woodford Mambrino family—one reason of this, perhaps, being that in Mambrino Dudley he possessed one of the fastest sons of that horse.

The stallion Woodnut, which Mr. Robert Steel, of Philadelphia, paid \$16,000 for not long ago, has arrived at his new home, and it is said by horsemen who have seen him that he is better looking than anticipated, and the general impression is that he is one of the best of the Nutwood family, and as his record of 2.16 is the fastest of the grade of a Nutwood, it will be seen that the eastern men did a wise thing in securing him. Had Mr. Steel been successful in all his plans he would also have purchased Stamboul, having asked a price on that horse and been willing to give as high as \$40,000 for him. This, however, would not buy Stamboul, and his subsequent sale to a San Francisco gentleman for \$50,000 is now a matter of history. It is no wonder that Mr. Hobart, who never stops at prices, was willing to give this money for Stamboul, as twenty-two of his colts brought at auction in New York an average of \$4,000 each.

Mr. George E. Hughes, Charlottetown, owner of Apothecary, 6465, and proprietor of Greenview Farm, has issued a beautiful catalogue of his handsome and finely bred young horse. The *Agriculturist* says:—Apothecary, already well-known to most of our readers, is a son of Hernando, 2891, and Morena, daughter of Almont Mambrino, 761, son of Almont, 33. His granddam is Stump-the-World, by Parson's Abdallah, son of Abdallah, 15. Apothecary "traces three times to Hambletonian, 10, through Abdallah, 15, twice to Pilot, Jr., 12, four times to Mambrino Chief, 11, and twice to the great Almont. This in itself would make his pedigree gilt-edged," while it endows him with speed, size, style, finish, pure gait, stamina, and docility. Of Hernando, his sire, it is unnecessary to speak at length, as his name is familiar to every island horseman as that of a grandly-bred and individually splendid horse, whose progeny are famous wherever known. Morena is a handsome and stylish bay mare of 1100 pounds, that shows an admirable way of going, and, if handled for speed, would justify the prediction that she could easily enter the 2.30 list. Apothecary, now in his third year, is a rich bay with black points, 15 1/2 hands high, weighing 1100 pounds, and in every particular does credit to the grand trotting families of which he is a representative. With "a fair field and no favor," he will, we feel sure, demonstrate his ability to perpetuate, size, style, and speed, and this, with his excellent breeding, will make him a most desirable horse for this Province.

Personal.

Hon. J. A. Chapleau will reach home about April 8th.

Count Herbert Bismarck is arranging for the Emperor William to visit England.

Dr. R. P. Howard, Dean of the medical faculty of McGill College, Montreal, is dying.

The Rev. A. McWilliam, A. M., at one time minister of St. David's Church, Georgetown, passed away at Huntley, Scotland, on the 9th March, inst.

We are pleased to learn that Mr. Daniel McLean, of Mount Herbert, father of John McLean, M. P. P., who has been seriously ill for some time past, is now out of danger.

DIED.

At his residence, Georgetown Royalty, on the 21st inst., after five weeks of great suffering, Captain David Parker, in the 54th year of his age. He leaves a wife and three children to mourn the sad loss of a tender loving husband and father. He was a most agreeable neighbor, an honest and brave man, and died trusting in Christ his Redeemer.  
(Guardian please copy.)

WHAT IS A SKELETON.—One of the questions put to the school children of Cambridge, Mass., the other day was: "What is a skeleton?" Among the answers were these: "When anybody dies the flesh dries up to the bones and makes a skeleton;" "When you die the doctor can make a skeleton of you;" "When you grow into a skeleton you are sent to Harvard College to practice on."

Local and Other Items.

MASONIC TEMPLE.—Montreal is to build a Masonic Temple to cost \$100,000.

TERRIBLE SUFFERING.—Terrible suffering is reported among the Irish who recently emigrated to Buenos Ayres.

HIGH LICENSE.—Taunton, Mass., will try high license. The aldermen fixed the rate for innholders at \$2,000 and common victuallers at \$1,000.

A gray beard on a man under 50 makes him look older than he is. The best dye to color brown or black is Buckingham's Dye for the Whiskers.

ONTARIO EMIGRANTS.—An exchange reports that a thousand emigrants from Ontario arrived at Winnipeg on Friday last, making 2,500 in 11 days!

STABBING AFFRAY.—During a drunken row on Brussels Street, St. John, on Sunday morning last, a man named George Mullen was stabbed in the back with a knife. Charles Louden has been arrested for the stabbing.

For purifying the blood, stimulating the appetite, and invigorating the system in the Spring and early summer, Ayer's Sarsaparilla is unsurpassed. Be sure you get Ayer's Sarsaparilla and no other, else the result may be anything but satisfactory.

ANOTHER WARNING.—Here is another warning to cigarette smokers: A young man in Massachusetts who smoked fifteen cigarettes a day has fallen heir to his uncle's library, which contains nothing lighter in the way of mental pabulum than the works of Emerson.

No medicine has had greater success in checking consumption, in its early stages than Ayer's Cherry Pectoral. It stops coughing, soothes the throat and lungs, and induces much needed repose. Hundreds have testified to the remarkable virtues of this preparation.

PARNELL FUND.—The St. Patrick's Society of Fredericton, N. B., on Sunday last voted \$50 sterling to the Parnell defence fund. That will make about £900 sterling sent by the society to Ireland in the interest of the home rule cause during the past two years, which is certainly a splendid showing.

MORE ABOUT FERTILIZERS.—Eighty thousand pounds of bones formed part of the cargo of the steamer Wingate, from Alexandria, Egypt, which arrived at New York a day or two ago. These bones are to be used as a fertilizer. They were gathered from the deserts of Egypt. Some of them are human bones and some bones of camels and horses.

JOURNALISTIC ENTERPRISE.—Mr. Charles K. Osgood, a reporter on the Bideford, Me., Standard, and Miss Viola Cook, a Bideford young lady with no parents and an ample fortune, eloped to Dover, N. H., last Wednesday and were married. The young lady lived with an aunt who was opposed to the marriage.

IMAGINE THEIR FEELINGS.—While the Michigan Central express was passing Weldon, Ont., on the 22nd inst., at full speed, a little seven year old girl, who, with her parents, was a passenger on the train, stepped off to the ground. The distracted parents, who saw the terrible accident, became almost frantic, and appealed to the train men to stop the train, but they refused to do so. At the next station the father got off and walked back to the scene of the accident, where he found the child lying unconscious in a ditch. The family then went on to Suspension Bridge.

P. E. ISLAND HOSPITAL.—The Treasurer of the P. E. Island Hospital has received the following: \$8.50 from Powder Mill Co., proceeds of lecture by G. M. Harris, Esq.; \$5 from Wm. Nicholson, Esq., proceeds of a concert at Dundas; \$3 per Mrs. R. Johnson from a friend in New London—money saved by giving up the use of tobacco; \$1.50 from Capt. Wm. Gordon, Brudenell; \$30.95 from St. Paul's Church, hospital Sunday collection; \$8.50 from Montague Methodist Church; \$2.10 from Valleyfield Presbyterian Church; \$11.70 from Tryon and Bonshaw Presbyterian Churches.

ORGANS OUT OF PLACE.—Holyoke, Mass., presents a case which will set the medical fraternity all over the country in a discursive mood. There is a young girl there aged 12 years, who is in the enjoyment of the most perfect health, notwithstanding the fact that three of the most important organs of the human system are placed in her in direct opposition to all the laws of nature. Her heart, lungs and stomach are each in positions directly opposite to those which are occupied by those organs normally. The doctors claim that this country, and, mayhap, the world, does not present a parallel.

AGAINST CARD PLAYING.—Pastor McKinney, who has charge of a Baptist church in Ansonia, Conn., recently preached against card playing. He was decided in his opinion that a Christian ought not to play cards, even laid in, in which he could see no science, and laid down these five points: First—Christians should not play cards for amusement, because it is a waste of time. Second—They should not play cards because it dissipates the mind. Third—They should not play cards because the example to others is one that is injurious. Fourth—They should not play cards, because it leads to gambling. Fifth—They should not play cards because "Whist," the Christian game, as generally played to-day, is gambling.

ANOTHER LOVE TRAGEDY.—A young officer in the German navy, a son of Herr Goebel, a prominent railway magnate of Bavaria, recently became enamored of an opera singer in Hamburg, one Mlle. Langener. He persuaded her to abandon the stage and take up her abode with him. The girl consented and for some time they lived together in luxury, the young man spending 4,700 marks upon her within a few weeks. On Friday last Goebel gave a bad imitation of the last act of the Crown Prince Rudolph of Austria by shooting his sweetheart and himself in the head. He succeeded in killing himself, but the girl is still alive, though physicians attending her have slight hopes of saving her life.

Men's felt hats, three cases new styles just received—Harris & Stewart's.
