DAINTY BABY CLOTHES.

FINE WHITE GARMENTS FOR THE NEW WHITE HOUSE PET.

Mrs. Cleveland's Handiwork — Many Pretty Creations in Lace, Silk and Flannel for the Newcomer—A Chapter of Special Interest to Mothers.

Here is something good and timely from yesterday's New York Herald: Mrs. Cleveland, the article runs, made nearly all the new baby's outfit. Notwithstanding the many social demands upon her time, Mrs. Cleveland has a great deal of leisure, and she likes to devote it to her children.

MRS. CLEVELAND PREFERS WHITE.

Like many another dainty woman Mrs. Cleveland's preference is for white. She says it shows at a glance whether it is clean or soiled, and, so, it is more sanitary than colored goods. Besides that it is the emblem of purity and is sweeter far for babyhood than colors can ever be.

SIX WHITE OUTING CLOAKS.

Mrs. Cleveland carries her preference for white further than most women do. The new baby has six outing cloaks, which are to duty all the spring and summer until it is time to wear a heavy cloak next autumn. These outing clocks are all white and they are of six different materials.

One is of white flannel, lined with white silk. It falls in gathers from the neck, and it has very full sleeves, which are furnished with a silk ruffle. The neck of the cloak has a silk ruffle around it high at the back of the neck and tapering to a very narrow frill under the chin. This is done out of regard to the comfort of baby's neck.

AS FLUFFY AND FINE AS DOWN.

The other white cloaks are respectively of corded silk, eiderdown, broadcloth, satin, and there is one of soft crepe cloth, lined with wool. They are all deliciously soft, and there is not one

MRS. CLEVELAND.

among them which weighs as heavy as the ordinary cloak which is in the outfit of every work-a-day child. You could take them all and roll them into a bundle small enough to fit in a lady's hand satchel. And the bundle would be as soft as a pillow of down.

This is one of Mrs. Cleveland's hobbies. She believes that a baby should be kept warm in clouds of soft, fleecy materials, with nothing hard to hurt baby's skin and nothing rough to crucify baby's nerves. Woolen and soft silk take the place of cambric and linen.

PRESENTS FOR THE BABY.

Abroad it is the custom to send the wife of the ruler of the country gifts before a baby is born. It is etiquette to do so. But in this country it is not so. When news of the Cleveland baby's advent, or the prospective advent, was received in Germany, England, France and Spain many presents were immediately sent to Mrs. Cleveland, with letters begging that she would accept them with best wishes for the new baby. Among these presents were useful articles of all kinds, including nearly a hundred yards of fine white silk to be made into little morning slips. But by far the greater number of the gifts consisted of baby shoes. There were five dozen pairs of closely-knitted ones made out of fine Berlin wool and Saxony.

CROCHET SHOES.

On the other side they have a way of knitting baby shoes so that they are warm. The meshes are small and close together. Mrs. Cleveland is partial to this kind of knitted shoes, but she does not like the kind that are made in this country. When American mothers crochet baby shoes they make them very loose and wholly unfit for baby to wear in cold weather. Mrs. Cleveland's experience with baby Ruth during the first winter of her interesting babyhood convinced her that the fifty pairs of crochet shoes, which had been sent by American friends, while they might be pretty to look at, were far from being the thing for a delicate child to wear.

SHOES OF CHAMOIS.

Baby Cleveland's shoes, and there are twenty pairs of them which have been made at home, are of fine white chamois skin, embroidered with white silk floss. The soles of the shoes are made like a little boa—upturned all around—and the tops are put on with a buttonhole stitching of the floss. For summer there are to be some silk ones, made after the same pattern and half a dozen pairs of "tennis shoes," or shoes of tennis flannel.

Mrs. Cleveland made most of baby's underclothes with her own hands, although she employed a fine seamstress to cut them out. They are very simple in design. The body of the petticoats is cut in the same piece as the skirts. Nearly all are made in the fashion described for the cloaks, being shirred at the neck and falling in one long sweep a yard below baby's pink toes.

EVERYDAY DRESSES.

All everyday dresses, the little afternoon gowns, the dress-up robes and the grand christening garments are of pure white silk. The difference in these is in the way they are made and not in the material. The afternoon dresses are finished at the hem with a scallop and a tracing of white silk. The fine dresses have a deep embroidery upon the skirt, and they are embroidered at the wrist and neck ruffles. The christening robe was a mass of soft silk embroidery, with a ruffle of embroidered chiffon veiling the skirt,

THE BABY'S PRETTY TAMS.

The caps which Baby Cleveland is to wear are the cunningest part of the outfit. They are made like Tam o'Shanters. The "Tam" part is not very large, but the rim which answers for a headpiece is big enough to fit down over baby's noble brow and cover up the back of baby's head. The cloak with its high ruffle comes up to meet the Tam o'Shanter. And there you are. The Washington spring may prove fickle and the winds at Gray Gables be ever so sharp, but they cannot hope to penetrate the silky softness of Baby Cleveland's hat or cloak nor get through the soft woolen stuff which is used to line everything.

The Doctor Passed Him.

GRAVENHURST, Sept. 18—About a year the newspapers contained of the curious case of Sam Murray, a railroad brakeman, of this place. He was paralyzed, as a consequence of an injury received while coupling cars, and for two years was unable to work. Several doctors, among them some Toronto specials, pronounced him incurable and his case hopeless. The Grand Trunk Railway Company paid him his full disability claim, and the Brotherhood of Railway Trainmen was about to pay a similar claim, when Murray astonished everybody by a return to health. It was proven at the time, beyond the possibility of a doubt, that Murray's recovery was due to Dodd's kidney pills. A few days ago Murray applied to a life insurance company to take out a policy on his life. Two physicians have just examined him, pronounced him a desirable risk, and recommended the company to issue a policy. That's the kind of work Dodd's kidney pills do.

A Comfort Sometimes.

USE SKODA'S DISCOVERY, the great blood and Nerve Remedy.

A Big Mistake.

The moulting season, or the season when the hens shed their feathers will soon be at an end. The process is one that in certain respects debilitates and prevents hens from laying. The reason of this is that the growing of new feathers requires all the nitrogen and phosphates contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the lime contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells. The formation of new feathers does not require any carbonaceous or fat producing food, consequently well fed hens get very fat during the moulting. Many farmers and poultry raisers not understanding all about these things kill off their old hens because they think they have stopped laying and are fat. This is a great mistake, because if the proper material be furnished them with their food to supply the increased demand for nitrogen and phosphates before mentioned the old hens will be through shedding feathers much sooner and will begin laying on the approach of cold weather and will continue to lay vigorously all winter, while the young pullets, reserved to take the place of the old hens, may not begin to lay until much later in the season. Very many people have learned from experience that Sheridan's Condition Powder mixed once daily with their food will supply the extra material needed to strengthen and invigorate their hens, enabling them to grow new plumage quickly and commence laying early. Those who commence now to use Sheridan's Powder, will find that their young pullets will commence to lay at from four to six months old, and will lay continuously through the winter. The Farmers' Poultry Raising Guide, published by I. S. Johnson & Co., at 22 Custom House Street, Boston, at 25 cents, contains a vast amount of information on this subject. Johnson & Co. will send, post paid, two 25 cent packs of powder and one Guide for 60 cents, or a 2½ lb. can of the powder, postage or express prepaid, for $1.20 and a guide free.

After Twenty Years.

Twenty years ago Thomas Simpson, of St. John, was restored to health from a condition of severe pains and great nervous prostration by Hawker's Nerve and Stomach Tonic. Doctors' medicine had failed. Mr. Simpson still treasures the first empty tonic bottle, and now whenever he is unwell his remedies are found in Hawker's Tonic and Hawker's Liver Pills, the latter is the best pill, he says, that he ever used.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet, sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Mr. James Shand, the well-known auctioneer, says: "Had considerable expectoration and disagreeable cough. Physician recommended Puttner's Emulsion. Took six bottles—cough vanished. Am convinced your preparation brought about my speedy convalescence."

THE GRODER DYSPEPSIA CURE CO.

GENTLEMEN:—I am 71 years of age. Have been afflicted with sick headache most all my life, which developed into Dyspepsia of a mild type about twenty years ago, and has continued to grow worse until during the past seven or eight years I have not been able to take a drink of cold water or milk, as they would produce severe pains and sometimes vomiting. I have been subject to severe pains in the chest, with dizziness, which have been more frequent during the past three or four years. My mouth was furred up in the mornings, accompanied with bad breath. My case was yearly growing worse.

During all this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any improvment.

In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it and now I can drink cold water or milk without any inconvenience. Those dizzy pains are all gone and my mouth is as sweet as a baby's. In short, your medicine has cured me and I am sure that all Dyspeptics can be cured by its use.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Many mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

Castoria.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consult the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ar.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Change of Business!

For nearly fourteen years we have conducted business in this city in the lines of SEEDS and GROCERIES to the satisfaction of our patrons, as is evidenced by the fact that a large proportion of our present customers have dealt with us regularly from the start. For several years past we have foreseen that the development of our Seed business—now the largest in that line in the Maritime Provinces—would eventually make it advisable to give up the sale of Groceries altogether. That time has arrived, and we now RETIRE FROM THE GROCERY BUSINESS, not because of any want of success in that line or want of confidence in our ability to continue to compete for a fair share of patronage, but for the reason that we have plans for the future which, properly carried out, will, apart from the Grocery business, take up all our time and employ all our capital.

We propose to further develop and extend our Seed trade, improve wherever possible the quality of the Seeds we sell, and increase our facilities for conducting the business; to enter more largely into the growing of Seeds for our own trade in such lines as this can be profitably done, and in connection with the Seed business conduct

in which the sale of Agricultural Literature will be made a specialty.

Our former Store in MONAGHAN'S BRICK BUILDING, on QUEEN STREET is now being completely refitted and prepared for the proper carrying out of the above named plans. This Store will be open for business as soon as possible, and due notice will be given of the date. In the meantime our office remains where it is at present and we respectfully request prompt payment of all due and overdue accounts.

We have now to cordially tender our sincere thanks to our many friends and customers in both the city and country for their liberal patronage, and beg to inform them that we have sold out our STOCK OF GROCERIES and the good will of our Grocery business to MESSRS. BEER & GOFF of this city, and we bespeak for them the patronage of our customers in the Grocery line, and we feel confident that MESSRS. BEER & GOFF will endeavor to please all our old customers by giving them GOOD GROCERIES AT LOW PRICES and prompt attention, such as we have ever tried to do.

GEO. CARTER & CO.

Referring to the above, we shall make every effort to give Messrs. Geo. Carter & Co's. former Grocery customers, who may favor us with their patronage, the attention and satisfaction which we are sure they have received in the past, and thus prove that we merited their confidence in recommending their customers to deal with us.

Cured by Using
HAWKER'S NERVE & STOMACH TONIC.

A LADY'S EXPERIENCE.

Mr. Wm. Thompson of Musquash, N. B., says: "For 2 years past my wife has suffered with *Acute Dyspepsia* accompanied with complete *nervous prostration* and a *smothering sensation about the heart* which frequently produced an attack of faintness. She became weak and nervous, lost all energy, and had a constant *feeling of dread*. She suffered with *intense pain in the stomach* after eating, which was usually followed by the smothering sensation about the heart and *fainting spells*. She tried a great many remedies and was treated by the doctors for some time, but obtained no relief. She became so discouraged that she gave up all hope of ever getting better, when our pastor suggested that she try HAWKER'S NERVE AND STOMACH TONIC and LIVER PILLS, *which had produced remarkable cures in several cases he knew of*. We did so and she obtained immediate relief from the distress after taking the second dose, and has continued to improve ever since until today she is as well as ever, and can enjoy her food without fear of suffering. I cannot speak too highly of these valuable medicines which have restored my wife to health and strength and saved much suffering and expense."

Rev. Henry M. Spike, Rector of Musquash, N. B., says: "I am personally acquainted with Mrs. Tompson's case, and am greatly pleased that the medicine which I recommended to her produced such remarkable results."
