MRS. DUNDAS gave the pupils of the Bog School her usual New Year's entertainment at Government House on Tuesday evening last. After partaking of a substantial tea in the Dining Room, the youngsters, 62 in number, of all creeds and colors, amused themselves in the hall till 10 o'clock at plays and games of various kinds. Their behaviour during the evening, which was most orderly and becoming, reflects much credit upon their efficient and pains-taking teacher, Miss Harvie, who is doing a very good educational work in the west end of the city. Before the party broke up, Mrs. Dundas made each one of them a present of some article of winter clothing. To the boys she gave caps, shoes, jackets, pants, etc.; and to the girls frocks, hoods, boots, gloves, etc. Such acts of benevolence by the great ones of the land cannot be too highly praised, and we are sure that when the period of Mrs. Dundas' stay in P. E. Island comes to a termination, which we hope it will not do "yet a wee," no one will regret her departure from our shores more than the pupils of the Bog School, whose young hearts she has so often gladdened with her kindness and liberality.

Those deeds of charity which we have done Shall stay forever with us; and that death Which we have no bestow'd we only keep; The other is not ours.—Pat.

DISASTER AT SEA.—Capt. Brown, of the ship "L. C. Owen," belonging to the port of Charlottetown, under date Havre, France, Dec. 12, 1867, writes to Mr. A. W. Owen of this city, the following particulars:—"At 10 a. m. on the 24th of November, during a heavy gale, we fell in with a ship water-logged. We ran close to her, and saw that all hands were on the main and mizzen tops. We hove to under her lee, as there was a very heavy sea running. At 3 p. m. they got their boat out, and 10 of them entered it and came alongside the "L. C. Owen." We took them on board all right. With the heavy waves their boat got smashed against our ship, and as they had not another, and ours would not live in such a sea, we had to remain by the wreck all night. The next day we managed to lower our boats, and take the rest of them (15) off the wreck, making 25 in all. They had been three days and three nights without anything to eat or drink. As their ship had filled all at once, they saved nothing except the clothes they had on. Her name was the "Nord" of Newburyport, from Quebec, bound to Liverpool. We met her in Lat. 42° 7' N.; Long. 45° 43' W. Three days after we took the men on board we fell in with a barque, on board of which we put eight of them. After six days more we fell in with another barque, and put seven on board of her. The other ten we brought with us to this port.—Pat.

ST. DUNSTON'S DEBATING CLUB.—On Monday night last, Mr. M. P. Rochford opened the subject, "Whether the Maine Liquor Law could successfully be applied to this Island or not?" and after a lively discussion, the opinion of the meeting appeared to be, that in the present state of public opinion on the subject, it would be impossible to carry this law into successful operation. On Monday night next, the following subject will be discussed:—"Should imprisonment for Debt be abolished in this Island?" W. C. GRANT, Sec'y.

THE WEATHER.—We have had nearly two months of winter, and, according to the testimony of everybody, so severe a winter has not been experienced in this Island for very many years. The weather, though very cold, has been fine, and the roads excellent. This is something to be thankful for. We have, however, the prospect of very nearly four months of ice and snow before us.—Isl.

SUDDEN DEATH.—On Saturday morning last, about nine o'clock, the wife of Mr. Samuel Waugh, of Wilnot Creek, was seized with an apoplectic stroke, and dropped dead on the floor where she was standing, busily engaged in her household work. She leaves a husband and eight children to mourn the loss of a kind and affectionate wife and mother. Truly "in the midst of life we are in death."—S. J.

The Presbyterian Tea held in this place yesterday was a grand affair. A very large number of persons were present and took tea. FROM COLONIAL PAPERS.

LONDON, Jan. 2.—Last night, near Cork, a party of Fenians attacked the house of Mr. Charles Mathew, brother of the late Father Mathew. The family of Mr. Mathew was apprised of their danger in time to successfully repel the attack. Quite a large force was quickly gathered, and concealed in the mansion and on the premises, and when the marauders came up they were met with a galling fire, and fled. Several were wounded, but were carried off by their comrades. The motive for the assault, whether for murder or plunder, was unknown.

On New Year's Day all the ambassadors of Foreign Powers now in Paris were received in a body by the Emperor at the Palace of the Tuilleries. The Papal Nuncio, speaking for the diplomatic corps, assured the Emperor of their good wishes for himself and the Imperial family. The Emperor, in reply, said he was happy to again begin New Year as heretofore, surrounded by the Representatives of all the Great Powers, and to once more represent by this interchange of assurances the friendly relations which now existed between France and their respective Governments. The Archbishop of Paris, who was present, hoped that God would preserve the Emperor's health as a guarantee of peace and said the promotion of religious and moral ideas in France was the only safe basis of the throne. To this the emperor responded in these words:—"The wish deeply touches me; believe me, the interests of the religion of a country, and civilization, are inseparable." The "LeNord" also states that among the documents brought to light was one containing the details of a plot for destroying a portion of the British channel fleet by fire. Other papers of a similar character have been discovered, all of which have been placed in the hands of the British Government.

LONDON, 3rd (eve).—The examination of Desmond, Allen and others, alleged to be implicated in the Clerkenwell jail explosion, has resulted so far, in producing no satisfactory evidence as to their criminality, and leaves the affair almost as much a mystery as it was before the investigation took place. The magistrates adjourned the examination one week. It is thought that the conference on the Eastern question recently held in St. Petersburg by the leading diplomatists of Russia, has a warlike significance. Consols 92; 5-20's 72s.

Holloway's Ointment and Pills.—Shortness of Breath, Coughs.—Thousand of testimonials can be produced to prove the powers possessed by these curative remedies in asthma, incipient consumption, and all disorders of the chest and lungs. The Ointment, well rubbed upon the chest and back, penetrating the skin, is absorbed and carried directly to the lungs, where, in immediate contact with the whole mass of circulating blood, it neutralizes or expels any impurities which are the foundation of consumption, asthma, bronchitis, and pneumonia. Thus all pulmonary complaints are easily cured. The asthmaic chest, tightened to suffocation in foggy damp weather, is liberated by Holloway's Ointment and Pills, which also cure the short, dry, consumptive cough, and the heavy expectoration attending bronchitis.

ALL CURES MADE EASY BY HOLLOWAY'S OINTMENT

Bad Legs, Ulcerous Sores, Bad Breasts. No description of wound, sore or ulcer can resist the healing properties of this excellent Ointment. The worst case readily assume a healthy appearance whenever this medicinal agent is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested and a complete and permanent cure quickly follows the use of the ointment. Piles, Fistulas, and Internal Inflammation. These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain. Rheumatism, Gout and Neuralgia. Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Ruptures, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, if the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach consequently in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before, and which should be promoted; perseverance is necessary. On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions. Scrofula or King's Evil and Swelling of the Glands. This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more efficacious than any other remedy for all complaints of a scrofula nature. As the blood is impure, liver, stomach and bowels being much deranged, require purifying medicine to bring about a cure. Both the Ointment and Pills should be used in the following cases:—

- Bad Legs, Chillsains, Fistulas, Skin-itch
- Bad Breasts, Chiefo-foot, Gout, Sore-nipples
- Burns, Chapped Hands, Glandular, Sore-throats
- Ruptions, Corns (Soft), swellings, Scurvy
- Rites of Measles, Cancers, Lumbago, Sore-heads
- Chieftons and Contracted and Piles, Tumors
- Sand-lice, Stiff Joints, Rheumatism, Ulcers
- Coco-bay, Elephantiasis, Scalds, Yaws, Wounds
