REVIEWS CHURCH WORK IN INDIA

The church of India is very young, but live and growing, to the extent that it is no longer a mission," said Rev. Tom M. Dusan, D.D., principal of the Anglican school, Palampur, India, in addressing a large audience at the Saint Peter's Anglican Church Hall in Charlottetown last evening.

"Canadians," he added, "have shared in the life of the church of India and the people of India appreciate it. However, even though the church is growing, there is still need of missionaries, especially from Canada, as long as the doors of India are open." The

Missionary has been in that country for ten years. He also spoke of the work of the school and showed slides which gave the audience a brief view of many parts of India.

In the above picture, left to

right are: Canon G.E. Moffatt, of St. Peter's Anglican Church; Rev. Dr. Dusan; Miss Audrey DeBlais former missionary to India; Canon J.T. Ibbott, St. Paul's Church; and Rev. Canon E.M. Malone.

Inquest Held Last Night In Death Of Walter G. MacKenzie

"We, the Jury, from evidence submitted, find that deceased, Walter Grant MacKenzie, came to his death at the P.E.I. Hospital in p.m. October 21st, from resultant complication of injuries received in the collision of two vehicles at Brookfield Corner the p.m. of October 11th. The said accident in our opinion caused by a combination of poor visibility, lack of proper road markings, at least one of which was the driver of the vehicle involved. We strongly recommend that the Provincial government take immediate steps to clearly and visibly mark this particular highway point by a signal light, or some such safety device, to ensure against the recurrence of a similar fatality."

Such was the verdict of the Jury at the inquest which was

held at City Hall Thursday night. Coroner Dr. L.E. Prowse presided. Mr. J.P. Nicholson represented the Crown. In all eight witnesses were called.

Dr. Neil Boyd, Provincial Pathologist, who performed a post-mortem examination of the deceased outlined the various medical conditions he had discovered, in particular: the evidence of "blood clots" in the chest, some of which had blocked the flow of blood to the lower half of the right lung; another which prevented the flow of blood from the main office of the heart to the lungs. In his opinion death was due to this latter condition. He explained to the jury how such "clots" were formed, their usual cause being some injury to the blood vessels.

Dr. J.L.F. Budge stated that he had attended the deceased subsequent to the accident. He described the deceased's condition on admission to hospital and his later lack of progress, which prompted him to consult with other physicians. He described the various tests and examinations carried out, all of which proved to be negative.

Questioned by the Coroner he asserted that he did not believe the deceased would have died solely as a result of his injuries. He agreed with Dr. Boyd as to the probable cause of death.

Dr. Lloyd Cox, one of the physicians whom Dr. Budge had called into consultation described the examinations he had carried out on the deceased, noting in particular that there was no visible evidence of "clotting". For the benefit of the jury he explained that preventive treatment for this condition was "not feasible" in this case since it was suspected that bleeding still continued in certain areas.
