NOTICE.

THE Charlottetown Gas Light Company
have imported a fresh supply of Bray's
Patent Burner's, especially made to consume
only three feet of Gas per hour with the tap
turned full on. These Burners are intended
for use in Halls, Bedrooms, Kitchens, and
other places where a light from a small con-
sumption of Gas only is required.

By regulating the tap, the Gas consumed
can be reduced to any desired quantity less
than three feet per hour.

These Burners are so scientifically made
that they will give a light equal to about ten
candles at a cost of three quarters of one cen
per hour.

The price of these Burners to consumers of
Gas will be ten cents each. (Ju 1000 pas)

Steam Accommodation.

To the Editor of the Examiner.
DEAR SIR,—The promoters of the Rail-
way were anxious that, as far as practicable,
it should bring a market to the door of the
farmers of this Island, which, for the pur-
poses of this letter, may be properly termed
one large arable farm.

With through rates for farm products
this, to a great extent, has been accom-
plished, as very few localities find them-
selves very far from a siding or a station.

Have we the same facilities for water car-
riage? I think not. When the steamer
"Westmorland" made her first trip from
Summerside her whole freight consisted of
two pairs of wild ducks! How different is
this now, when each day's steamer is loaded
to the guards with valuable products of our
industries. Take one item as illustrative
of the whole,—we shipped this past season,
so I am informed, some twelve hundred
horses from Summerside alone, which will
net close to one hundred thousand dollars.
How much more will the increase be when
we have more direct communication with
Boston and New York as referred to in my
former letter.

In any remarks which I make here, I
have not the most remote idea of saying a
word against our P. E. Island Steam
Navigation Company. But I think it must
be apparent to all that the great success of
their boats has been due, in a great
measure, to the fact that they have been
well officered. They have served a good
purpose for the past twenty years; but that
they are now equal to the wants of the ser-
vice, no well informed person will hazard
the opinion.

That being the case, it must be ac-
knowledged we cannot proceed in this
manner any longer—that, in a word, we
must have a re-arrangement for our daily
communications.

It may be properly asked here, what do
you propose to do about it. My suggestion
would be this: place steamers between Sum-
merside and Shediac, Charlottetown and
Picotou, to run during the opening of Naviga-
tion, subject to the orders of the Marine
and Fisheries Department as to time-table
and freight charges. These boats should,
in my opinion, be paddle boats with flush
sides, such as run between Saint John,
Portland and Boston. Such a service
ought to be satisfactorily performed for the
subsidy we at present pay of ten thousand
dollars. These with the Steam Ferry at
Cape Traverse ought to meet the wants of
the case.

Next in importance is the question of our
Atlantic Steamboat connection, which is so
necessary to the mercantile community to
carry off our cattle, oats, starch, canned
meats, etc.

It has been sometimes said that the sale
of the "Prince Edward" has proven the
fact that such a steamer, no matter how
important to us, cannot be made to pay with
the subsidy of \$1500.00 per trip which she
received from the Dominion Government.

I am of very different opinion, and a
recent conversation with the agent of the
"Prince Edward," Messrs. Peake Bros. &
Co., has only more fully established it.
The steamer which we require is one less
costly, and carrying more freight—in fact a
freight steamer instead of a combined
passenger boat, which was unsuitable for our
wants. Such a boat as I have mentioned
receiving \$1,500.00 per trip or \$7,500.00
subsidy for the season, could not fail to pay
a handsome dividend to her owners, or
guarantee any company in taking up the
service.

We have each year a very large and in-
creasing crop of potatoes—in fact it must
always increase under our system of farm-
ing and is one of the best paying crops, as
well as the most valuable to the farmer for
reasons which need not here be stated. To
move this crop and place it where it will be
the most valuable, is a matter of grave
importance to the farmer and the mer-
chant.

It is a current fact that all those who
have been engaged in the shipment of
potatoes for the past thirty years have lost
money.

If you were to ask those shippers the
reason, they would tell you it is from the
fact of their getting in bad order. But if
they could be placed in the markets in
about the same condition as they were
received from the hands of the farmer, all
would be well. Our seasons are short.
The farmer hurries his crop into the
market, the shipper into the vessel, and
then a long sea voyage at the end of which
is usually disaster!

The fact is apparent, we will have to
handle our potatoes by steam; and if it is
necessary to pay so much per trip to an
Atlantic steamer, there is no good reason
why we should not pay so much per trip to
a steamer or steamers which should make
occasional trips to Boston, New York,
Philadelphia, Baltimore, Bermuda, Barba-
does, Demerara, Havana, or other places
which the enterprise of our mercantile
community may warrant.

We have good harbors at Summerside,
Charlottetown, Souris and Georgetown,
where coal and disbursements are not ex-
pensive. These with fair freights are very
attractive to ship owners, and proper adver-
tising would soon find suitable tonnage.

With an improved edition of the
"Northern Light," having more freight ac-
commodation, and the freight boats as
above alluded to, I think our communica-
tion would be very much improved and
leave us little cause for complaint.

In conclusion, Mr. Editor, I merely say
it rests with the people of this Island to say
whether these things are necessary, and
when they shall be accomplished. If no
public expression of opinion is given, the
Dominion Government may take it for

granted that we are satisfied, and that
nothing more is needed than the inadequate
accommodation we at present enjoy.
I am, yours truly,
GEORGE W. HOWLAN.

The mild splendors of the rising sun, the
ruddy, glowing tints of the evening, the
moon's calm radiance in a serene night—all
these swell our bosoms with pleasure; but
sweeter, still sweeter, my son, is the
recollection of a benevolent deed.

It is surmised that Count Andrassy will
shortly be recalled to the Austrian Mini-
stry of Foreign Affairs, the ground for the
supposition being the fact that the veteran
statesman recently had a long interview
with the Emperor Francis Joseph.

Mr. G. A. Kirkpatrick and Hon. S. H.
Blake are candidates for the Chancellorship
of Queen's College, Kingston. The position
will become vacant in January, as the term
for which the present Chancellor, Mr. San-
ford Fleming, C. E., C. M. G., was elected
will expire on the tenth of that month.

The Sun's Washington special says it is
positively alleged to Gen. Sherman has re-
cently been received in the Catholic Church,
the ceremonies on the occasion being rather
private. Mrs. Sherman has long been a
Catholic, but the General has always been a
Freethinker. The allegation is, however,
denied.

The Archbishop of York is said to date
the red-letter days of his career after the
fashion of Mrs. Nickleby. Chatting re-
cently with some brother bishops he said:—
"My first preferment came to me at the
birth of my first child; a bishopric on the
birth of my second, and my archbishopric
on the birth of a third." "What," said
Bishop Wilberforce, with a twinkling eye
and bland tone, "we must hope that Mrs.
Thomas will not put you in the way of any
more promotion at present, for there are
but two more translations open to you—
Canterbury and Heaven—and you are not
yet fit for either, I fear."

Bold as he could be when the game was
worth the candle, Lord Beaconsfield would
never have been tempted to risk much on
the cards; for, knowing the weakness of his
play, he carefully eschewed anything like
high stakes. One evening, at the time
when Parliament was agitating itself about
the Empressship of India, Lord Beacons-
field sat down to whist with the Prince of
Wales, and asked the latter, "What points,
sir?" "Oh, a sovereign, if you please," was
the answer. Seeing the Premier's look of
annoyance, Mr. Bernal Osborne observed:
"I think, sir, the Premier would rather
have crown points." The Prince, taking
the joke and the hint, altered the stakes
accordingly.

It has generally been supposed that Mr.
Gladstone's war policy was strongly sup-
ported by the British workman irrespective
of politics. War is always believed to be
popular with the proletariat on general
principles, and it is asserted that in the
late Egyptian struggle Liberal workmen
as a class sided with the Jingoism in
their enthusiasm for a vigorous foreign
policy. Mr. Thomas Burt, M. P., is of a
different opinion. In an article published
in the *Fortnightly* on "Working Men and
War," he contends that industrialism and
militarism are essentially antagonistic, and
that in the late war a large section of the
Liberal workmen were opposed to the
war. Many others who approved or
acquiesced did so because they did not
know how far Arabi was accepted as a
real national leader, and having great faith
in Mr. Gladstone's unaggressiveness did
not believe that he would rush into a need-
less war. Mr. Burt says that the Radical
masses are opposed to aggrandizement, and
are anxious that England should withdraw
from Egypt as soon as possible. He pre-
dicts that in the future the Democracy
will be non-aggressive and opposed to large
armaments, devoting their most serious
attention to social amelioration.

vigorating and giving tone to the Generative Organs,
two pills should be taken twice daily, or in very en-
feebled conditions, one pill three times a day. To effect
cures in chronic cases it will be necessary to continue

insure its being taken until a permanent cure is ef-
fected.
