

We NEED TO WORK

In the Depression years, men and women with neither jobs nor hope lined up in desperation born of hunger to accept free soup and bread offered by charitable organizations such as the Salvation Army.

What does that have to do with 1985 and the UPEI Student Union?

Lack of jobs — that's the common denominator.

The federal government has chopped \$85 million from their youth job creation programs this year. In Prince Edward Island, that's about 600 less jobs with Summer Canada Works, and Summer Career Access Programs.

When you graduate, and if you are unemployed and ineligible for government assistance, you too may be standing in the soup lines in the 80's. And the 90's.

Come help us prevent that. Come to our free soup lunch on Friday, January 18 at 11:45 in the Robertson Library Lounge. We have chicken noodle soup and crackers for you.

And hope.

And ideas.

And a chance to change things.
