Tiresome Fence Mending Is A Necessary Chore

"Cook!" the Scampie dog wharped as I alighted at the sound of a truck in the silence, which comes in on Tuesday afternoon. "Go your change, road!" he barked. "It's the Fishman!" — see "There are no fish down along the road" — hilly.

Scampie had been in the yard, resting on his haunches, waiting about in the quiet. Rather lively, it seemed, nervous keeping watch on the house, the neighborhood. — He had checked with a warning yell, who some had come to gaze west-

fully between the rails of the orchard fence. He had receded a kiten on the branch of a tree, and chased a company of sparrows, whirring and chattering in the rowan tree in the border of the lawn. Odd times he had come to the gateway to look over the hilltop hanging to catch a glimpse of the lady, pawing the bushes, and then away on foot home from school. We saw him too come to look away to the fields where the farmers fenced.

That chore, it came to mind, would be resume if it were not for the satisfaction it would give. It would be satisfying to have the mangled patch fenced all about, rather than, as it had been before this, only in part, so as to provide more exten-

THE HILTON Cafe International atop the better Living Center at the New York World's Fair offers its guests glamorous surroundings and gourmet eating at reasonable prices.

The Cafe features five "moon kitchens," each representing a different world locale: North America, South America, Europe, the Mediterranean and the Orient.

Authentic Decor Each kitchen is unusual and authentic in decor, menu selections and native chefs, 200 of them brought to the Hilton Hotels around the world.

The five open kitchens are free to flame in action. Fire up a tray, then visit each, selecting hours d'ouevres of choice. To be guided to a table indoors on the terrace.

A pretty waitress, perhaps Oriental, will serve the appetizers. After this, study the menu and visit the open kitchens to select and pick up the main course, prepared by the native chef in charge.

Each kitchen a selection of desserts, brought to your table on a rolling wagon. The waiters bring coffee, tea, milk or whatever.

All in all an unparalleled opportunity to taste and test popular international foods authentically prepared. For a real fun, have the mangled patch fenced all about, rather than, as it had been before this, only in part, so as to provide more exten-

blowmen now against a white wall. It was among the lower chores of the farming, but most necessary, and it would be done, as becomes the good workmen.

Someone has reminded folks of any work, no matter how lowly, that may come to their hands. "The man who makes an honest job of work, is as honorable as the man who makes a poor one or a second."

"There were rainbows" Mack noted.

MENU Magic
from the FRESH KITCHEN

"Peachy", Either Way
Fresh Peach Shortcake anyone? Then stop right this way to scrumptious hot buttered biscuits layers, filled with fresh peach slices and whipped cream. Or — cut an angel cake into layers, then fill them with whipped cream or ice cream and sliced fresh peaches!

"Corny" Dishes
Probably like us, you find that nothing beats corn-on-the-cob "as is", with golden butter and salt. But for variety, try cutting those golden kernels off the cob to use in Corn Fritters, as a vegetable, or as a brunch course served with maple syrup. Or use in Corn Waffles, fresh Corn Chowder, or Corn Omelets.

Peaches, Alaska Style
In the glamor dessert department, Individual Fresh Peach Alaska rank high among September favorites. Wrap a bread board with aluminum foil and put on it the number of Marvann or tart shells desired. In the centre of each shell place a fresh peeled peach half, hollow side up, scooping the cream generously in each peach half. Now cover the ice cream completely with meringue—the same kind you use for pie-making—sure that all of the ice cream and fruit is covered. This insulates the ice cream so that you can bake these Alaskas in a hot oven till the meringue is golden brown about 8 minutes. Serve immediately, naturally!

Plum Good
How about a fresh-from-the-oven Plum Crisp for dessert tonight? Nice way to say "welcome home" to your family! Put together a dozen or more plum plums into a buttered baking dish. Cover with plum sauce. Bake 1 1/2 cup rolled oats. Bake at 375° F. until the fruit is tender, and the topping is golden brown, about an hour. Serve it warm, with chilled pouring cream.

What's Cooking?
Plenty, we expect, if you're kitchen is busy as ours! We've just finished taste-testing recipes for two brand new "Achievement Days" Cookbook with Cottage Cheese" and "Company Favorites with Dairy Sour Cream." If you like these two new leaflets to add to your collection, they're yours for the asking. And you may also wish to obtain copies of our other ten free dairy food recipe folders which feature milk, butter, ice cream, cheese, evaporated milk and skim milk powder. We'll look forward to hearing from you!

the book on wanton self-indulgence.

In that mood, and because of a sense of great camaraderie and affection for you in response to your loving dependency upon him, he never resolved absolutely, with the utmost conviction and sincerity, to be wholly faithful to you this once.

Something of the sort probably has transpired and is on record in your relationship. But even so, you still distrust his capacity to be true. Why? Because your common sense tells you that in all other respects he seems to be much the same man as he was before. So why would he be different, out of your intelligence asks you.

The answer, I think, is that is that unless and until he has chosen, for his own soul's sake, to become a new person altogether, living a new kind of life, religiously anchored, for the present, in your strength that are available in it, he probably won't be any more resistant to temptation in the future than he was in the past — that is, should temptations appear that appeal to him.

Now, as to how you can "have more faith" in your husband's ability despite your misgivings, my suggestion is: put your trust in God, not in your husband's character, to keep your marriage (or your life) on the beam of love, being and growth — in goodness.

Read "The Enemies of Love" (Kennedy Publishers); "The Art of Loving" (Harpers) by Erich Fromm; to get the picture of love, thinking about the challenge that confronts you. M.M.

May I have a 15 minute talk with you personally? I would like to interview, write her in care of care of the Guardian.
