

IN MEMORIAM

The death occurred suddenly on February 28th, 1957 at his late residence in Summerville of William E. Walsh in his 63rd year.

The deceased was born in Summerville the son of the late Patrick Walsh and Margaret Brothers and lived on the old homestead all his life with the exception of a few years spent in Western Canada.

Billy will be sadly missed by his neighbours and friends to whom he was a source of help in time of need.

He leaves to mourn his passing his wife, the former Eileen Morrison of Orwell Cove and one daughter, Carmilla, nurse in training at the Charlotte Town Hospital.

Survivors also survive: Margaret, Ida and Cecilia (Mrs. Ambrose Cairns) Boston, Mass. Clare and Annie (Mrs. Frank MacDonald) Toronto, Ont. Bertha (Mrs. John Ryan) New York and Josephine (Mrs. Charles Clays), White Rock, B.C.

Rev. Wilfred McCordie administered the last rites of the Roman Catholic Church of which the deceased was a faithful member.

The funeral, largely attended despite road and weather conditions was held from his late residence to St. Joachim's Church, Vernon River on Monday, March 4th where Requiem High Mass was celebrated by the pastor Rev. Urban Gillis.

Services at the grave were conducted by Rev. John Cash, pall bearers were: John Doyle, William Moar, Ira Stewart, Edward Walsh, Cecil Walsh and Reginald Henneberry, may his soul rest in peace.

CARD OF THANKS

The family of the late William E. Walsh wish to thank the Rev. Dr. Inman, the snow plough operators, their friends and neighbours also those who sent Mass Cards, Enrollments, Spiritual Bouquets, and Sympathy Cards in their recent sad bereavement.

Mark Birthplace Of Fathers Of Confederation

OTTAWA (CP)—A tablet will be placed in the post office building in Sherbrooke in honor of Sir Alexander Tilloch Galt, a father of Confederation.

The national historic sites division of the resources department said Thursday that affixing of the tablet is part of its plan to mark permanently the birthplaces or residences of the fathers of Confederation.

Sir Alexander, a native of England, came to Sherbrooke in 1835 with the British American Land Company.

Sealed Tenders

Sealed tenders addressed to the undersigned, and endorsed "TENDER FOR BREAKWATER, WHARF, COW HEAD, NFLD.", will be received in the office of the Secretary, until 3.00 p.m. (E.D.S.T.) WEDNESDAY, MAY 1, 1957.

Plans and specification can be seen and forms of tender obtained at the office of the Chief Engineer, Department of Public Works, Ottawa, Ontario, at the office of the District Engineer, Department of Public Works, Post Office Box H-29, Buckmaster's Field, St. John's, Nfld., and the District Engineer, Department of Public Works, Public Building, P.O. Box 875, Halifax, N.S., and at the Post Offices, at Corner Brook and Grand Falls, Nfld.

To be considered each tender must be accompanied by a security in the form of a certified cheque or Bonds as specified in the forms of tender and made on the printed forms supplied by the Department and in accordance with the conditions set forth therein.

The Department, through the Chief Engineer's office (H. and R.), or through the undersigned, or through the office of the District Engineer at St. John's, Nfld., and Halifax, N.S., will supply blue-prints and specification of the work on deposit of a sum of \$25.00 in the form of a CERTIFIED bank cheque or money-order payable to the order of the RECEIVER GENERAL OF CANADA. The deposit will be released on return of the blue-prints and specification in good condition within a month from the date of receipt of tenders. If not returned within that period the deposit will be forfeited.

The lowest or any tender not necessarily accepted.

ROBERT FORTIER, Chief of Administrative Services and Secretary, Department of Public Works, Ottawa, March 28, 1957.

NEW YORK STOCK Market Failed In Rally Effort

NEW YORK (AP) - The stock market almost woke up last week. It was a near miss. A series of technical rallies in mid-week perked up volume and it looked as if the market had a chance of breaking out of the narrow trading range which has confined it for a month and a half. But the week ended with profit-taking and a falling-off in volume.

The Associated Press average of 60 stocks was up 30 cents to \$174.20.

The five most active issues last week on the American Stock Exchange were:

Devon-Plmer Oil, up 9-16 at 2

Bethlehem Steel, up 1/4 at 42 1/2

THE New York Stock Exchange

Bethlehem Steel, up 1/4 at 42 1/2

off 1/2 at 33 1/2; General Motors 4 1/2 at 62 1/2; Luffman Machin- 4 1/2 at 10 1/2 and Shell Trans- port and Trading, up 1/2 at 23 1/2.

Among Canadian issues on the New York exchange, Aluminum Ltd. fell 1/4 at 12 1/2 while Canadian Pacific rose 1/4 to 33 1/2. Hudson Bay rose 2 to 8 1/2 and International Nickel rose 1/4 to 10 1/2.

Sealed Tenders

Sealed tenders addressed to the undersigned, and endorsed "TENDER FOR WHARF REPAIRS AND IMPROVEMENTS, POINT DU CHENE, WESTMORLAND COUNTY, N.B.", will be received in the office of the Secretary, until 3.00 p.m. (E.D.S.T.) WEDNESDAY, MAY 1st, 1957.

Plans and specification can be seen and forms of tender obtained at the office of the Chief Engineer, Department of Public Works, Ottawa, Ontario, at the office of the District Engineer, Department of Public Works, Public Building, P.O. Box 875, Halifax, N.S., and at the Post Offices, at Lunenburg, Bridgewater and Liverpool, N.S.

To be considered each tender must be accompanied by a security in the form of a certified cheque or Bonds as specified in the forms of tender and made on the printed forms supplied by the Department and in accordance with the conditions set forth therein.

The Department, through the Chief Engineer's office (H. and R.), or through the undersigned, or through the office of the District Engineer at Lunenburg, N.S., will supply blue-prints and specification of the work on deposit of a sum of \$20.00 in the form of a CERTIFIED bank cheque or money-order payable to the order of the RECEIVER GENERAL OF CANADA. The deposit will be released on return of the blue-prints and specification in good condition within a month from the date of receipt of tenders. If not returned within that period the deposit will be forfeited.

The lowest or any tender not necessarily accepted.

ROBERT FORTIER, Chief of Administrative Services and Secretary, Department of Public Works, Ottawa, March 28, 1957.

U.S. Steel Output Above Predictions

(CLEVELAND AP) - United States mills produced 31,600,000 tons of steel in the first three months of 1957, Steel Magazine said Sunday.

That was 94.7 per cent of capacity and considerably above predictions, the trade weekly said.

If production continues at that rate the annual output will be 126,400,000 tons, more than 22,000,000 tons more than the 1955 record.

In 1956, production dropped to 100,900,000 tons, the magazine said, but earnings were slightly higher than in 1955.

In its annual financial analysis of the steel industry, the magazine totalled performance of 1956 as representing 94 per cent of U.S. ingot capacity.

Earnings in 1956 were \$1,140,000,000, \$20,000,000 higher than the 1955 record. The increase resulted largely from higher prices and greater efficiency, the magazine said. Sales last year amounted to \$14,500,000,000 compared with \$13,400,000,000 in 1955, but profit per sales dollar fell from 7.82 per cent to 7.28 per cent.

The average number of persons employed by the 33 firms rose from 783,662 in 1955 to 804,571 last year, and payrolls jumped about \$450,000,000 to \$4,946,469,407.

The magazine reported mill operations last week were at 93 per cent of capacity, down one point from the preceding week. Its price composite on finished steel remained at \$139.71 a net ton, while the price of steelmaking scrap fell from \$48.83 to \$47.67 a gross ton.

ROBERT FORTIER, Chief of Administrative Services and Secretary, Department of Public Works, Ottawa, March 28, 1957.

Safety Conference Probably Is The Largest Convention

By FORBES RHUDE Canadian Press Business Editor

More than 4,000 delegates are expected to attend the safety conference in Toronto April 8-9 of the Industrial Accident Prevention Association.

The heavy attendance at this annual get-together probably makes it Canada's biggest two-day convention.

The organization operates only in Ontario, but delegates will attend from all provinces and from some 15 states. Quebec is expected to send 150 delegates and other provinces from three or four delegates to a dozen or so.

The national and international interest arise from the fact that the meeting provides a forum for demonstration of the latest in protection equipment and for hearing speakers on technical subjects.

The organization, which serves all manufacturing industries in Ontario except pulp and paper, and also the steel erection trade, is a federation of 10 other trade safety organizations.

R. G. D. Anderson, association general manager, says in 1956 more than 250,000 industrial accidents were reported in Ontario, of which 70,000 involved payment of compensation for lost wages. About 30 per cent of the accidents occurred in the handling of materials.

The Automotive Parts Manufacturers' Association (Canada) will hold its annual meeting in Toronto April 11.

Ian N. MacKay, in charge of the design of the atomic power plant being built at Des Joachim near Chalk River, will speak on Peaceful Uses of Atomic Power.

William F. Bull, former deputy minister of trade and commerce, who has been appointed ambas-

sador to Japan, will be guest of honor at a dinner to be given by the Canadian Exporters' Association at the Rideau Club, Ottawa, April 10.

J. S. Vanderploeg of Toronto, association president, said the banquet is being given "as a token of the esteem in which Mr. Bull is held by the exporting fraternity."

Karel Stopka, general manager of the Montreal International Trade Fair which opens May 20, says government and private interests in 13 countries have so far contracted for space.

Mr. Stopka says those exhibitions will include steel and publishing industries from France; rattan furniture and clothing from Hong Kong; Tobacco products from Holland; Handicrafts and industrial and agricultural products from Egypt; Italian office furniture and candies; German garden furniture, adding machines and machinery; the beeswax industry of India and various products from Belgium, United States, Britain, Japan and Poland.

Canadian industries will exhibit aircraft parts and engines, transportation and communication equipment, office furniture and a variety of industrial machinery.

Canadians bought new life insurance totaling \$408,700,000 in February compared with \$300,900,000 in February last year, says a compilation of the Life Insurance Agency Management Association.

OTTAWA (CP)—Canadians consumed a record 2,437,000,000 pounds of meat in 1956, averaging 154.1 pounds a person. This was a rise of 76,000,000 pounds from 1955 when the average was 151.4, the bureau of statistics reported Friday.

The captain of the vessel has told his Halifax office that attempts were being made to rig an emergency rudder for the vessel.

At the time of the mishap 3,400 seals were being killed but the number taken aboard ship is not known. The Arctic Provier took part in the 1956 seal hunt and landed 30,000 seals.

Says Lack Of Education And Unemployment Are Related

OTTAWA (CP) - A special federal government survey released here today says lack of education and unemployment are directly related.

The survey, first of its kind in Canada, was made by the National Employment Service of the labor department for the national employment committee, an advisory body to the Unemployment Insurance Commission.

The question asked was: "Does poor education have anything to do with becoming employed?" The conclusion: "Yes, both directly and indirectly."

The finding was based on an examination of 245,169 persons registered for employment at 200 local offices of NES at Nov. 24, 1955. Of the total 173,621 were male and 72,548 female.

Declares Britain Not Lacking In Present-Day Achievements

By FORBES RHUDE Canadian Press Business Editor

Britain's industries, scientists and adventurers today can take their stand with their forefathers.

The quote is from Halford Reddish, who heads a delegation from the United Kingdom Dollar Exports Council which is now in Canada to look into possibilities for British sales to the Canadian construction industry.

He spoke at a luncheon given to the delegation and a group of Canadian business men by John S. Proctor, president of the Imperial Bank of Canada.

Mr. Reddish, chairman of Rugby Portland Cement Co. Ltd., said some had "sold British shod in the past and got their fingers burned, and those who sold British shod today would get their fingers burned too.

He would, he added, be the first to agree that the past is not necessarily a guide for the future. However, here were some recent British achievements:

"We hold the world speed records on land, on water and in the air. Radar and television are British inventions. We led in the development of synthetic fibres and plastics. In the chemical field antibiotics and sulphonamides were born in British laboratories.

"The jet engine, which is revolutionizing aviation, stands to British credit. Splitting the atom was a British achievement and we lead the world today in the peaceful application of nuclear energy."

However, Britain may have been spending too large a portion of national income on defence. Apart from the United States and Russia—both countries with large home populations and huge natural resources—she had been spending a far greater proportion of national income in this way than any other country—nearly double, in fact.

"If you over-do precautions in one direction," said Mr. Reddish, "you may quite easily walk into trouble in another; and perhaps that is what we have been doing in overstraining our available resources in defence and the defence overhead now going on in Britain might mean at least the same, if not a stronger, effort at less actual cost. Also, an
