A Useful Oil.
Few people know how useful oil of peppermint is as a remedial agent. A little rubbed over a sensitive corn eliminates the soreness in a miraculous manner.
Two or three drops of oil of peppermint mixed with an equal amount of suet rubbed over a baby's chest gives instant relief in case of a cold on the lungs or a cough.

The public impression that the dark continent is no longer the "unexplored" area of the old maps is a mistake. What has been done is mostly to stake out territories along definite routes. Within these lines the country is generally as unknown as in the time of Mungo Park.

The extravagance of the Roman ladies of high rank was one of the prime causes of the fall of that mighty empire. Lolliu Poppon, who cut a wide swath in Nero's time, was the happy possessor of a gown said to have cost nearly \$1,000,000.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.

PROF. MELVILLE B. BUCKLEY,
Instructor Boston Dental College,
Boston Mass.

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced, and making as it does a rigid, light, clean, unobjectionable plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. E. BERL D. D. S.
Chicago Ill Dental School

The above quotations are from hundreds of eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of
Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate.

We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work.

Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

See our artificial teeth without plates.
