These Red prisoners, part of the more than 120,000 held by the UN, would be among those the UN wants to trade, man-for-man, for UN prisoners held by the Communists. Under the UN plan, each prisoner would be repatriated only if he specifically requests it.

Stockade (Insmith, left, above) plies his trade from GI prison tent. His line includes a wide assortment of toys and household items, including a make-shift stove.

It's a basket for the young Red POW, right above, who takes readily to the American game of basketball. Note landscaping and neat buildings in background.
