

A Startling Fact.

Life is sweet in old saying, and just as true as it is old. No one in his or her right senses counts deathly all wish to prolong life to the utmost limit, and yet in spite of this universal desire to live the allotted three score years and ten—and even longer—thousands upon thousands of people through carelessness and neglect, are hastening the time when they must stand face to face with the grim Reaper, and make the plunge alone into the dark valley of the shadow of death.

What Medical Science is Doing

The latter half of the 19th century will pass into history as one in which is crowded more inventions and discoveries for the benefit of mankind than in all the centuries that have preceded it. Among these discoveries none will take higher rank than those in medicine, calculated to relieve the ills that flesh is heir to, restore vitality and prolong life.
