Medical Warehouse,
Dalrymple's Corner, Aug. 6.

TO PARENTS AND TEACHERS
SCHOOL BOOKS

THE Subscriber has since his entering into the stationery and book business commenced by his father, endeavoured to furnish and keep up a supply of suitable School Books; and while he has kept in view the difficulty experienced by Teachers, in changing from one book to another, occasioned by a want of uniformity in the series of works in use, he has studied to improve those formerly used; and in adopting new ones, has been guided by the leading members of the Board of Education, and some of the best teachers who have given their sanction to his publications. Many of the books imported from the Mother* Country, being found to be too expensive, and the reprints from the neighbouring provinces, not only incorrect, but badly printed, it was thought than attempt to print some of them at home, might meet with success. In order to be able to sell the books at a price within the reach of the bulk of the people, a large number of each work has been printed of those books in general use. The Irish national series, imported by the Board of Education as one of the cheapest sets of books that could be procured, has been taken as the basis of the series of books now reprinting. They have been made applicable to the circumstances of the country by alterations only in such passages as have appeared to require them. In order to suit them to the locality of the Island a fuller and more correct abstract of the Geography of North America, has been substituted, and several slight errors in Spelling and Grammar amended.

The books already published are—
Murray's First Book,
Murray's Second do, with an appendix from Professor Sullivan's Spelling book,
Irish National Second, Third, and Fourth books,
Lennie's Grammar.

GEO. T. HASZARD.

ON NERVOUS AND GENERATIVE DISEASES.

New Edition with Forty-five Coloured Engravings, and containing
THE NEWLY-DISCOVERED PREVENTIVE LOTION.

Just Published, the 63d Thousand, price $1, in sealed envelope, or sent post-paid, by the author.

MANHOOD: the Causes of its Premature Decline, with Plain Directions for its perfect restoration. A Medical Review of every Form, Cause, and Cure of Nervous Debility, Impotency, Loss of Mental and Physical Capacity, whether resulting from Youthful Abuse, the Follies of Maturity; the Effects of Climate, or Infection, &c., addressed to the sufferer in Youth, Manhood and Old Age; with the Author's Observations on Marriage, its Duties and Disqualifications; the Prevention and Cure of Syphilis, Spermatorrhœa, and other Urino-Genital Diseases; as adopted in the new mode of Treatment by Deslandes, Lallemand, and Ricord, Surgeons to the Hospital Venerien, Paris.

By J. L. CURTIS, Surgeon, 15, Albemarle Street, Piccadilly, London.

With this NEW and ENLARGED EDITION of MANHOOD, *which is now translated into five languages*, will be given, the Author's Prescription of a Disinfecting Lotion for the *prevention* of all Secret Disorders.

At home for consultation daily, from 10 till 3, and 6 to 8.

REVIEWS OF THE WORK.

"MANHOOD, by J. L. CURTIS—We agree with the Author, that so far from works of this class being objectionable in the hands of youth, or difficulties being opposed, every facility should be given to their circulation; and to strengthen our opinion, we need but refer to the recent distressing events at our Military and Scholastic Academies at Carshalton and Woolwich."—*Naval and Military Gazette, Feb.* 1, 1851.

"We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful—whether such person hold the relation of a parent, preceptor, or a clergyman.—*Sun, Evening Paper.*

"CURTIS ON MANHOOD.—Fortunate for a country would it be, did its youth put into practice, the philanthropic and scientific maxims here laid down—one cause of matrimonial misery might then be banished from our land, and the race of the enervate, be succeeded by a renewal of the hardy, vigorous spirits of the olden time."—*Chronicle.*

Published by the AUTHOR; who begs to inform patients in the East and West Indies, the Mediterranean and the British Colonies, that their cases can be successfully treated by correspondence only, if the usual fee be enclosed, and the most inviolable secrecy may be relied on.

Opposite the Catholic Chapel,
Charlottetown, May 18, 1852.

PATENT ARTIFICIAL SLATE,
And Unchangeable Metallic Paints:
PROOF AGAINST FIRE & WATER!
Manufactured by the Patentee, in Colchester, Nova Scotia.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which converts the surface of materials covered, into a *Coating of Actual Slate—Proof* against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are useful, by rendering Wooden fabrics as durable as brick or Stone, and less pervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the *Slate*. As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either *Free Stone* or *Granite*. The oil must be evaporated by the action of the weather before it is *Fire* proof, which will take from nine to twelve months.

The METALLIC PAINTS, *Purple* and *Red*, are offered as *Weather and Water Proof solely*. Their base being Iron, secures them from Galvanic action so fatal to lead and other Paints on *Iron* work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Salt Water and Sulphureted hydrogen so prevalent in Sea Ports and Tidal Harbours. They surpass all Paints yet discovered in *Cheapness and Durability*, which render them pre-eminently adapted to the covering of all kinds of Iron work, such as *Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing*. The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate:—"As a permanent pigment, this mineral must rank with the most *indestructible and unchangeable* bases. For covering Metallic Ware, its composition shows that it is eminently fitted.

(Signed) AUGT. A. HAYS, *State Assayer*."

Directions.—Artificial Slate. Mix the powder with pure Boiled Linseed Oil and a little Spirits Turpentine to the consistency of very thick Paint, and apply with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two Coats.

If Shingles have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

FREDERICTON, N. B., Nov. 13, 1850.

Mr. J. W. IRISH.

DEAR SIR,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were burnt some of the roofs came down in one piece, and others were the means of saving the building, especially one roof alongside of the Bank B. N. A., which also was one means of saving the Bank.

Please see that it is on board of the first boat, as it might be neglected and stored.

Your obedient Servants,
STEWART & NEILL.

ST. JOHN, N. B., July 20, 1850.

JOHN ROSS, Esq., *Patentee of the Purple Metallic Iron Paint.*

SIR,—I have just painted a new Ship with your Metallic Iron Paint, and I have much pleasure in stating that I never painted a Ship with so small a quantity of Paint and Oil, and look so well. From its adhesive qualities and the manner it covers the wood, I have no doubt but it will be more durable and much cheaper than any other paint used for such purposes, and would recommend it to the public generally.

Yours, &c.
ROBERT G. MORAN.

ROSS' METALLIC PAINTS.—We have already called public attention to the high estimation in which the Metallic Paints, manufactured by John Ross, Esq., Truro, are held by those who have had occasion to use them. Certificates of a highly satisfactory character in praise of these articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by parties who have similarly applied them, we can safely endorse the opinions therein contained.—*Halifax Sun.*

☞ The METALLIC PAINTS are mixed and put on like an ordinary paint.

JOHN ROSS, Patentee.

Agents for Prince Edward Island, GEO. T. HASZARD, Queen Square, KENNETH M'KENZIE, Pownal Street.

Charlottetown, Oct. 8, 1851.

FARMS FOR SALE.

IN the Royalty, Two-and-a-half Miles from Town, and adjoining the Property of W. M'INTOSH, Esq., on the Princetown Road, a FARM of Thirty-six acres of LAND, of the first quality—all unde cultivation.
