DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

OUR $2.75 WATCH, made by the Waterbury Watch Company, will not last as long as the more expensive Watch, but is just the thing for a boy attending school or for boating or fishing parties, saving the risk and yet doing the work of the better Watches.

OUR $4.50 WATCH, made by the same Company, only better quality, is short wind and jeweled.

OUR $7, $10, $15 AND $20 WATCHES are correspondingly better goods. You will be safer in trading with us than by sending to irresponsible parties at a distance, and who, if a mainspring breaks or anything goes wrong, are too far away to send to. We are here to guarantee and stand by every Watch we sell.

LETTERS TO THE EDITOR.

The Victory in King's.

SIR,—It is amusing to read in the columns of the Patriot (so-called) the letters from correspondents in King's County on the late election. They certainly are taking their defeat very hard. We notice in the Weekly Patriot of the 19th inst. the letter of "John Darlington, Elector" and "Protestant," also "Red Point's" letter in the Patriot of the 26th inst. They all have the same sorrowful tale to tell—but in their own mouths they are condemned. They with one voice are acknowledging the weakness of their party when they claim that the clergy, both Protestant and Catholic, and nine tenths of the merchants were against them. We claim, with reason very apparent, that this speaks well for the opinions of the noble 2,624 intelligent, independent and unbribed Liberal-Conservative voters who valiantly went forward on the 5th March and by their secret and unintimidated ballot votes voted confidence in the old flag, the old leader and the old policy, and rejected the two doctors who, with their traitorous allies, sought to deceive the independent electors with their sugar-coated free trade pill. We glory in the grand victory nobly won, by noble electors we have made the two Doctors step down and out, and give place to men of honor and business ability, who know the requirements of the people best, and have our welfare at heart. The charges against the store-keepers on the Liberal-Conservative side, intimidating voters by ledger influence, are false and groundless, and we consider it nothing less than base slanders on the merchants as well as on the electorate. We would here ask the 2,624 independent Liberal-Conservative electors to make a note of these foul charges against us, and when an opportunity offered let us again mete out to those grumblers their just desert. We must conclude that the parties making these charges are themselves not unacquainted with this plan of securing votes. Proof can be got if necessary to show that the Grit party in this County are guilty of the same base tactics, that they are falsely endeavoring to attribute to the Liberal-Conservative party. We may mention a case or two that are known to the writer,—one man who not long ago voted in opposition to his Grit employers, was discharged after the election. Another Conservative voter was asked by a Grit storekeeper for the payment of a small $2 or $3 account outside the polling booth immediately after polling his vote on the Liberal-Conservative ticket. These are specimens of many cases that might be cited, and go to show the inconsistency of the grumbling Grit writers. Why, we ask, do these men of the "Party of Purity," or the "Organized Hypocrisy" refer to such matters while their own garments are so corruptly contaminated by the same disease that they falsly charge others with.

From "Elector's" letter we are to conclude that only one out of every ten storekeepers in this County are Grits. We suppose we are to style these as merchants because they happened to be (un)intelligent enough to vote Grit, possibly merchant princes would please 'Elector' better: notably among them are men that can get clear of paying their honest debts by paying in some cases 12½ cents, some 11 cents, and some 3 cents to the dollar. These are examples of the great merchant princes that "Elector" would have us believe are in the Grit ranks. Well, they are welcome to them.

We may here remind the Grit grumblers that the next individual we are going to make walk the plank is the redoubtable Knight of the golden spectacles, whose long winded hashed-up stories in the late contest were as ineffectual as many blank cartridges, a big noise but no one hurt.

The charge of using rum and whiskey is in keeping with the other grit false statements, and such come with very bad grace from their side of the line. Do they forget the story of "The Black Ducks" and the "Custom of the Country;" also, the assistance that the southern doctor of railway fame sought from whiskey carried round by the cask in his canvassing career? They are about as consistant in this as their leader Louis, who pledged himself to work in favor of prohibition and at the same time was going to partly make up the loss of revenue resulting from unrestricted reciprocity by increased revenue from liquors either to make those who use liquor pay more or make more people drink—it was hard to say which. We can answer for this Lot that we not believe there was a drop of liquor used by the Liberal-Conservative party in the late contest, and we are quite satisfied that other places can give satisfactory answers to the charges.

There are some men of honor in the Liberal ranks who know how to take an honorable defeat in an honorable way, but the hot-headed overbearing, boiling-over grit grumblers, who would sell their country for a mess of pottage, all we can say for their comfort is that if they are not satisfied to be liberal enough to abide by the decision of the majority they are welcome to go to the land of the stars and stripes, and we would advise them not to stop until they arrive in New Orleans where they can have justice minus law, we would also remind them that we will not allow them to take this country with them. We will stand by our country and unitedly do all we can to advance our prosperity financial and national.

The charges against the clergy we will not attempt to reply to, as they are all gentlemen of honor and good judgment and can if necessary defend their own actions.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

By-Election.

MEETING AT KINGSBORO HALL, LOT 47.

Pursuant to notice a large and representative meeting was held at Kingsboro Hall on Tuesday afternoon last, commencing at 4 p. m., to consider the local political situation.

William McLean was called to the chair, and the undersigned was appointed Secretary.

The both candidates, Messrs. J. G. Sterns and Alexander Robertson were present, and also John McLean, member-elect for the Commons, Dr. Muttart, Archibald Currie and George B. McEachern, of Souris

Mr. Sterns, the Conservative candidate, first addressed the meeting. He declared himself in favor of the present Government. He was opposed to direct taxation, which he would not support without having first consulted his constituents. He entered fully into the details of the political situation and made a good impression as a candidate for the suffrages of the people

Mr. Alexander Robertson, the Liberal candidate, followed and spoke with much effect. He thought no Government on this Island could carry on our public business without taxation. He maintained that the Opposition, should they come into power, would carry on the business of the country in a more economical way than was done by the present Government, but laid down no plan or scheme by which they proposed to do so.

Dr. Muttart, John McLean, A. W Bruce, Alex Scott, Sr., and Daniel G. Mann generally spoke in support of the Government, and Lauchlan McDonald, P. Hill, George B. McEachern and Archibald Currie favored the Opposition. The applause from the audience strongly indicated a feeling in favor of the Government. The meeting was one of the most enthusiastic ever held in this part of the country. A vote of thanks to the chairman closed the meeting at 9.30 o'clock.

WILLIAM MCVANE,
Secretary.

Information Wanted.

SIR,—In company with many other farmers I attended the contemplated meeting advertised to be held at Cardigan on the 8th Feb'y. last, to hear Professor Shuttleworth lecture on "Scientific Agriculture," and to elicit information on the most important question affecting the interest of seven-tenths of the population of this Dominion of ours.

Previous to the hour of the meeting we were informed that the Professor was indisposed, and, consequently would not attend; and as no further meeting for this purpose was announced, I will take the liberty, through the medium of your journal, of requesting the Professor to answer the following questions intended for information at the conclusion of the lecture at Cardigan:

1. Will two crops of oats in succession exhaust the soil more than two crops of timothy hay?

2. Does summer fallowing (old sod land) improve, or exhaust the land for future crops?—a common practice in P. E. Island

3. What percentage of ash do potato tops draw from the soil; also are the tops of any manurial value if left in the field, and ploughed under?

4. Why is it that a plot of land selected for root growing, and manured every year becomes infested with weeds, grubs and insects of various kinds, so that root growing there becomes a failure?

5. Why does a wheat crop fail to ripen or mature on sod land (spring ploughed) though the land is rich, and pastured by cattle and sheep, for two or three years?

6. Why does early sowing invariably mature the best grain? This question has been well tested on the experimental farm last season.

7. Will the Professor define the difference in the value of stable manure carefully housed (liquid and solid) and well trodden down by young cattle fed over it, so as to prevent too much fermentation, and manure from the same kind of animals thrown out in the open yard without any protection from inclemency of the weather from October to the June following? The latter (manure) is frequently removed from the open yard in mid-winter to an adjoining field, and then piled up to go through another process of leaching and evaporation before it is finally spread on the land for plant food.

By answering the foregoing questions Professor Shuttleworth will oblige me and many others.

JAMES D. DEWAR.

Brudenell, March 31, 1891.

A Serious Battle.

The political battle is over, but the battle with disease must be constantly and unceasingly waged else the grim reaper will come out victorious, and loved ones will be gathered to their long home. On all sides may be seen pale and listless girls who should be enjoying the health and glow of rosy youth. Everywhere we are met with women young in years, yet prematurely old, who suffer in silence almost untold agonies, the result of those ailments peculiar to the female system. To all such, Dr. Williams' Pink Pills come as a blessing. They restore wasted vitality, build up the nervous system, enrich the blood, and transform pale and sallow complexions into glowing, rosy cheeks that alone follow perfect health. In a word they are a certain cure for all these distressing complaints to which women and girls are peculiarly liable. A trial of these pills will convince the most sceptical of their wonderful merit. For suffering men Dr. Williams' Pink Pills are equally efficacious. For overwork, mental strain, loss of sleep, nervous debility, and all those diseases that lead to broken-down manhood, they are a certain specific, stimulating the brain, reinforcing the exhausted system and restoring shattered vitality. Dr William's Pink Pills are nature's restorative and should be used by every weak and debilitated person. For sale by all dealers or sent post paid on receipt of price (50 cents a box) by addressing the Dr Williams Medicine Co, Brockville, Ont.

Alex. Robertson, proposed by Cyrus Stewart, Red Point, and seconded by Jos. McRae, of the same place.

The Election.

GRIT REASONS FOR GRIT DEFEAT IN KING'S:

Because the Protestant clergymen were against them.

Because the Catholic clergymen were against them.

Because nine-tenths of the merchants were against them.

Finally, because the grits were too scarce on election day.

CONSERVATIVE REASONS FOR GRIT DEFEAT IN KING'S:

Because 2,624 Conservatives voted them out of sight.
