Saint John Sale Stables.

M. A. CUMMING, Veterinary Surgeon, begs to intimate to parties having *HORSES* to dispose of, that he is about to open as a Sale Stable, those premises next the Catholic Chapel, head of King's Square, St. John; where Horses will be kept at livery, and bought or sold on commission.

There being no well-understood place in St. John where those *having* Horses, and those *wanting* Horses, know where to find each other, M. A. C. flatters himself that a HORSE-BAZAAR, or Sale Stable, properly conducted, may in some measure supply a want often felt by the public; while from the knowledge of horses derived from his profession, he may be able at times to give useful advice both to seller and purchaser.

N. B.—Two or three good young Harness Horses wanted; and a STRONG HEAVY PAIR, full mouthed for shipyard work.

Twelvetrees Brothers' Soap Powder
(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST—no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad Washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE.

ARCHIBALD SCOTT, Esq.

SIR,—As the Agent of various *Fire Insurance Companies*, I beg to bring under your notice my *PATENT ARTIFICIAL SLATE*. This composition has been upwards of, three years extensively used in New Brunswick, Newfoundland and Prince Edward Island, the Canadas and Nova Scotia, principally for covering shingled roofs, as you will perceive by the accompanying circulars of certificates. It has been severely tested, and proved most successfully its fire proof qualities under most extraordinary circumstances; so much so, that I am of opinion that Fire Insurance Companies should encourage its general application to all kinds of wood building (where the color would be no objection to its being used, such as the back walls of dwellings in the city, out houses, ware-houses, &c., as well as the roofs) by lowering the premium of insurance on such buildings as are covered.

I have the honor to be, sir,,
Your obedient servant,
J. W. ROSS.
Patentee and Manufacturer.

Halifax 14th July, 1853.

SIR,—In answer to your note of the 12th inst. I consider the use of your "Artificial Slate Paint" on shingled Roofs, as greatly diminishing the risk against Fire—I have frequently reduced the premiums on Buildings in the Country, upon its application,

I am, sir, your ob't servant.,
ARCH'D. SCOTT.
Insurance Agent.
