

We learn that three men and a boy were frozen to death within the past few days on board a schooner from the West Cape of this Island...

PAY UP.—We would once more request all our subscribers who have not yet paid up their subscriptions, to do so without delay. It is a matter of vital importance to us that they should do so within the next few weeks.

The Steamship China, from Liverpool, with European mails, reached Halifax on Monday last. The mails for this Island were brought over by the Steamer Princess of Wales last evening.

THE POPE'S GOVERNMENT.

As many persons, even Catholics, think that the Pope's government is entirely, if not very nearly so, composed of ecclesiastics, we shall give the real facts of the case thus from official documents:—The chief council of the Pope is composed of eight persons, but one of whom is an ecclesiastic.

ELOQUENT PASSAGE.

One of the finest things George D. Prentiss ever wrote is this inimitable passage:—"It cannot be that earth is man's only abiding place. It cannot be that our life is a bubble cast by the ocean of eternity to float a moment upon its waves and sink into nothingness."

Local Items.

DEPARTURE OF PART OF THE FALL FLEET.—On Wednesday morning last, at an early hour, some forty vessels left this port, laden with the products of this Island, a large number of them for Europe, and the remainder for different parts of this Continent.

VALUABLE LAND IN THE VICINITY OF CHARLOTTETOWN.—A plot of land, containing about 12 acres, situated in the vicinity of Brighton Brewery, divided into eleven lots, being part of the Estate of the late S. W. Mitchell, of this City, was sold by Auction, by N. Rankin, Esq., on Monday last, the 25th inst., and realized nearly £1,000.—15.

ANOTHER FIRE AT ST. ELEANOR'S.—A house owned by John Hazard, Esq., and occupied by a man named Cook, situated in the Village of St. Eleanor's, was destroyed by fire on Wednesday night last, the 27th inst. How the fire originated we have not yet learned.

We regret to hear that on the Melville Estate, Lot 29, the Landlord's bailiffs were, a few days ago, intimidated and driven off by demonstrations of physical force. This is a bad business for all concerned, and most assuredly it is not the way to effect an amicable settlement of the Land Question.—Pat.

All Sorts of Items.

The many thousand friends and admirers of the late Gen. Maecher will be glad to learn that his widow has been left handsomely and richly provided for, the mining and property interests of the deceased are, at present, not worth less than three or four hundred thousand dollars, though not capable, at least, not all of them—of being immediately realized.

A solution of the Roman and Italian difficulty has been suggested, which is—unite Rome to the rest of Italy, make one kingdom of it, pitch Victor Emmanuel, Garibaldi & Co. into the Adriatic, and make the Pope the independent head of united Italy.

The troops sent against Garibaldi consisted of 3000 Pontifical troops and 2000 French, acting as a support and turning on two flanks.—French loss 2 killed and 38 wounded. Pontifical loss 200 killed and 123 wounded. Garibaldi's loss 600 dead left on the field, wounded in proportion, 1600 prisoners taken to Rome and 700 sent to the frontier. The Chassepot rifle did wonders.

Gen. Doyle has ordered the discontinuance of Militia drill in Nova Scotia for one year.

THE SITUATION IN CANADA.—Some one has been bold enough to tell the truth to the Sultan. The Grand Vizier has just made his first report from Crete to Abdul Aziz, and he gives his sovereign a very different account from those which have preceded it. He says that the insurgents have still a strong position, that they reject all offers of arrangement with the most absolute refusal and contempt, and insist upon annexation to Greece. Ali Pasha is persuaded that there is now no alternative but a vigorous renewal of hostilities. A reinforcement of 6000 men has just been despatched to supply the place of the Egyptian troops whom the Viceroy of Egypt has recalled. Unless diplomacy manages to settle this vexed question very shortly, there will soon be fresh fighting.

CHARLOTTETOWN DEBATING CLUB.

The Debate on Friday evening last, on the English Reform Bill, was opened by Louis H. Davies, Esq. In his opening address he glanced at the Reform Bill of 1832, and the different places at which were brought forward at various times between that year and 1866, and showed that a Reform, and a great one, was necessary, since the Bill of '32 did not meet the wants of, or satisfy the under middle classes. While holding this opinion, however, he did not agree with the principles of the Bill lately passed, considering it to be too radical in its character, and fearing that injury to the best

interests of England as a manufacturing country would eventually result from it. He was followed by several speakers, some of whom were of opinion that the Bill was not more radical than was necessary.

At the close of the Debate the following Resolution was submitted by the opener: "Resolved that in the opinion of this Society a large measure of Reform in the Electoral Franchise of England was necessary and called for, but that the Bill passed was unjudiciously large and comprehensive.

Mr. South Shaw then moved an amendment that all after the word 'called for' be struck out, which amendment was carried by a majority of seven. The next debate will be held in Scott's Hall on Friday evening, Dec. 6. Subject: "Would the Legislation of this Island be rendered more effective and satisfactory by a reduction in the number of representatives in Parliament? To be opened by D. Laird, Esq. P. S. MACGOWAN, Sec'y. November 30, 1867.

A P. E. ISLANDER ABROAD.

The numerous friends and connections of Dr. Warburton will be gratified to learn that upon his first arrival in India, he was put upon the Medical Staff of the Military Department of the East India Forces, in the district of Lahore, with a salary of £340 stg. per annum; he has now—having scarcely served a year—been promoted to the rank of Civil Surgeon at Jullendore, in the district of Punjab, with a salary of £600 stg. annually.

Dr. Warburton, we are happy to hear, is fast recovering from a very severe attack of fever, which had greatly reduced his strength, and endangered his life, and we hope a long career of unceasing honor and usefulness may yet be before him in the land of his adoption, and that he may become a bright star of the noble profession he has chosen.

Dr. Warburton, as is generally known, is a native of Prince County. In him the youth of the country, and the Island generally, have a laudable example of what can be accomplished, under the blessing of God, by continual painstaking, and unremitting, faithful, persevering study. Ever remembering that there is no royal road leading to honor and emolument, let their motto be, "Go and do thou likewise."—[Com. to Sun. Journal.

News by Telegraph.

London, Sunday, Nov. 24.

The condemned Fenians, Allen, Larkin and Gould, suffered the extreme penalty of the law in Manchester, at 10 o'clock, Saturday forenoon. The precautions taken by the government to guard against outbreaks were efficient, notwithstanding the prevalence of a dense fog and rain. The crowd that witnessed the execution was very large. The city is now very quiet.

His Holiness the Pope who was first strictly averse to any conference whatever for the settlement of the Roman question, has at length withdrawn his objections and is now in full accordance with the propositions of Napoleon.

A prominent Fenian leader, named Colburke, was arrested here to-day. It is reported that he was the organizer of the secret expedition which threatened the taking of Chester Castle in February last.

Last despatch from Rome announces that the Holy Father, in accordance with advice of France, has ordered the release of the Garibaldians who were taken prisoners by the Pontifical forces, during the late campaign.

Transports have been ordered to sail on Monday from Toulon for Civita Vecchia where they will take on board one battalion of the French Expedition in Italy, and return to France.

It is reported that Garibaldi is sick at Vongara, and that his sons have hurried to his bed-side with medical aid.

London, Nov. 24, eve.

The Fenian demonstration of sympathy for the fate of those executed, took place to-day, noon; a funeral procession consisting of about 2000 persons formed and slowly marched to Hyde Park. One of the most conspicuous objects in the procession was a banner on which was inscribed the motto:—"Man's inhumanity to man makes countless thousands mourn." On the arrival of the mourners at Hyde Park a solemn meeting was held according to programme, previously announced. A similar meeting was held at a public hall in this city, which was largely attended by Irishmen.

Florence, Nov. 25.

The Ministers of war and justice in the new Cabinet have been chosen deputies to Parliament, after a closely contested election.

A bulletin from Vangina reports that Garibaldi is considered better by physicians this morning.

Paris, Nov. 25, p. m.

The Emperors of Russia and Austria have formally signified their intention of participation in the proposed Conference for the settlement of the Roman question, as suggested by the Emperor Napoleon; as have also nearly all the smaller powers of Europe. The course that Prussia will pursue in the matter is not officially known, but it is believed that she, too, will send representatives.

Liverpool, Nov. 25, (eve.)

It is reported that the prisoner Kelly, who was rescued from the Police authorities in Manchester, by his Fenian brethren, some time since, has been re-captured. Different stories as to his whereabouts have been in circulation for a considerable time. Some persons claimed that he was in Belgium, others again, that they had seen him in France. According to despatches received to-day, it seems that when the regular Inman Line Steamship City of Paris Capt. Kennedy, which sailed from this port on the 20th inst., reached Queens-town, some of the Police of that city quietly went on board and captured Kelly who had disguised himself, and taken passage from Liverpool for New York.

London, Nov. 25, p. m.

Despatches have been received here which state that the illness of Garibaldi is caused by harsh treatment of the Italian Prison Officials, who took that course with the view of driving him to the United States, or elsewhere out of the country.

Notice was given in the House of Commons this evening, that the Seward-Stanley letters relative to the Alabama case, would be called for on Friday.

London, Nov. 26.

Despatches received here from Shanghai announce that several vessels of the American squadron had departed from the Island of Formosa, to punish the perpetrators of the outrage on the crew of the American bark Rover. The United States Consul General at Amoy, was to have accompanied the expedition with a body of Imperial troops, which have been tendered him for the occasion.

London, No. 26, (eve.)

There was much excitement manifested among the Fenians yesterday, not only in the great cities of England, but those also of Ireland. The Sabbath being a day of leisure, large bodies of Irishmen congregated at the street corners in Manchester, Birmingham and Dublin, and freely canvassed the action of the Government in the recent execution of the Fenian convicts. While the demonstrations were intemperate, to say the least, there were no open riots or serious disturbance of the public peace. The Government is fully prepared to meet any outbreak.

Despatches from various parts of the country dated this morning, announce everything quiet.

London, Nov. 27.

In the House of Commons last night, the debate on the Abyssinian war became quite animated and was prolonged to a late hour. A disposition was shown in the discussion to press the Ministry on the ground that they had sent off a military and naval expedition to Abyssinia on the sole orders of General Robert Napier, its commander, without waiting to obtain the sanction of Parliament but the Government made a satisfactory defence of its action, and at the conclusion of the debate the supply of 2,000,000 pounds required by the Chancellor of the Exchequer to meet the expenses of the war was voted.

Despatches from the Abyssinian expedition say that large supplies of Volunteers from Mibra have been offered to the British Commander.

Baron Von Beust, Austrian Prime Minister, has issued a Diplomatic Note, in which he declares that Austria considers the temporal power of the Pope as necessary for the peace of Europe.

Prussia has agreed to the proposition for a general European Conference.

The latest European despatches are to the 30th ult, but contain no news of importance. An eruption of Mount Vesuvius is anticipated.—Italy has not yet consented to Napoleon's Congress.—In Cork and Manchester serious excitement existed with regard to the hanging of the Fenians, and an outbreak was anticipated. One of the armies in Cork was entered on the night of the 28th by Fenians, who carried off 12 revolvers, and ten Snider rifles.—Weston, the pedestrian, who started from Portland on the 28th October to walk to Chicago, (1230 miles) in 30 days, accomplished his task, and won the wager of \$10,000. He received a perfect ovation from about 50,000 citizens of Chicago on his arrival.—The Dowager Marchioness of Queensbury, donated £300 for the support of the wife and children of the condemned Fenian Larkin.—A mob in Manchester attacked a Roman Catholic Chapel and a Convent with the view of robbing them, but were defeated in their design by the energy and pluck of the police. The Boaphonia, one of the Abyssinian transports, proceeding to Bombay, has been lost.—The news by the China is to the 23rd ult.

News from Brazil reports the utter defeat of the Paraguaians in a recent battle with the Allies.—Lopez losing 10,000 in killed and wounded. The French Minister for Foreign Affairs stated in the Senate that the stay of the French forces in the Papal States, will be of short duration. Funeral obsequies of the executed Fenians were held in Manchester and Cork on the evening of the 1st inst. Funeral processions, attended by a numerous concourse of people, formed part of the ceremonies.

MEMORANDA.

We learn that the Schooner Isabel, which sailed from this port on the 19th, for Boston, with produce and poultry, has become a total wreck.—S. Journal.

Holloway's Ointment.—Ulcerous sores and scrofulous eruptions of the worst kind, and for which all sorts of 'established' medicines have been tried in vain, have been thoroughly cured, and in an incredibly short time, by Holloway's searching and healing Ointment. The applications generally applied are more palliatives; but this unrivalled unguent penetrates the source of the evil, destroys the secret virus, and gets rid of the disease for ever. In ordinary cases the Ointment should be briskly rubbed into the parts affected; but if they are too tender or irritable for this process, they should be gently anointed with it at least twice a day. The most inveterate external disease will yield to this Ointment if persevered in for some time.
