DOCTOR HOOFLAND'S CELEBRATED
*GERMAN BITTERS,*
prepared by DR. C. M. JACKSON,
German Medicine Store,
*No. 120 Arch St, one door below Sixth Philada.*

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of Invalids. Possessing great virtues in the rectification of the liver and lesser glands, exercising the most searching power in weakness and affections of the digestive organs, they are withal safe, certain, and pleasant.

*Testimony from Maine.*

CAPT. DANIEL ABBOTT, Brooklyn, Maine, July 16, 1843, says: "I was taken sick one year ago, last April, upon my passage from Havanna to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of 'Hoofland's German Bitters' in it, I sent for some immediately, this was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me, that I had a good appetite for supper, and rested well that night, and the next day found me a well man. I have not been without your medicine since, having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea, and reside in this place, where you should have an agency, as you could sell large quantities of it."

JOS. B. HALL & Co., Presque Isle, Aroostook Co., Maine, April 24, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters, we think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer [illegible] I will state that my daughter, [illegible] in her side, [illegible] of a pain January last, [illegible] taken down and [illegible] bed. The pain in her side [illegible] being troubled with pains between [illegible] in her breast. From reading a number of cures performed by "Hoofland's German Bitters" I was induced to try it in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years. She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK, Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are ENTIRELY VEGETABLE, thereby possessing advantages over most of the preparations recommended for similar diseases.

## Elkington & Co's. Patent Electroplate.

HAS now been before the public since 1841, and after the most severe test of wear, in the vessels of the Royal Mail Steam Packet Company, the Peninsular and Oriental Company, the General Screw Steam Ship Company, the Pacific Steam Navigation Company, and numerous Club Houses, Hotels, and Private Houses, in every part of the world, continues to give the most unqualified satisfaction, supplying as it does all the advantages of silver in utility and beauty of effect; and it will be found that the interest of money upon the cost of silver Goods for a period of seven years, is alone sufficient to purchase Electro Plate, and this, with the now established fact of its extreme durability, makes it a matter of great importance to all purchasers of such articles. It must be evident that the wear of all articles depends on the thickness of the deposit, and the Patentees refer with great satisfaction to the award made by the Royal Commission of the Great Exhibition, 1851, OF THE FIRST CLASS OR COUNCIL MEDAL for these productions.

A large assortment of the above Goods has just arrived per Cicely, direct from the manufacturers, and is now ready for sale.

WILLIAM HEARD.

## Patent Lacteal or Artificial Breast.

THIS article is intended to take the place of the common Nursing Bottle, to which there are many objections, as mothers and nurses are well aware. With most children, there is usually great pifficulty in teaching them the use of the bottle, and with many it is altogether impracticable. The Lacteal, by its peculiar form and adaptation, enables the child to feel in the natural position, thus inducing it to think that it derives its nourishment from the mother. Besides being far preferable as to form and convenience of application, it combines the utitity of all kinds of nurse bottles now in use, for the mouth of the Lacteal can be fitted with a cork, and the common ivory or silver tube.

DE ROOS, from long practical experience in the most celebrated institutions of this country and the continent, has had, perhaps, unusual opportunities of observing the peculiarities relating to the physiology, pathology, and general treatment of the disorders referred to in the above work, and having devoted his studies almost exclusively to this class of diseases, he is enabled confidently to undertake their removal in as short a time as is consistent with safety.

PERSONS IN ANY PART OF THE WORLD, may be successfully treated by forwarding a correct detail of their case, with a remittance for Medicines, &c. which will be returned with the utmost despatch, and secure from observation.

## THE HYDROMAGEN,

OR WATERPROOF ANTI-CONSUMPTIVE

## CORK SOLES,

Manufactured by HARCOURT BRADLEY & Co., 38, Ann Street, N. Y., and at London and Manchester, England.

THE HYDROMAGEN is a valuable discovery for protecting the feet from damp or cold, and therefore a preventive of many Lung diseases, *without any doctoring whatever.* The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its *medicated* character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest or rainiest weather, as the foot cannot become wet, if the Hydromagen is inserted.

Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while consumption, so prevalent among the young of our country, may be thwarted by general adoption. They entirely *supersede over shoes*, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being merely a thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy.

To Children they are extremely valuable, as they may engage in exercise, with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides those who patronise them will find their *yearly doctor's bill much diminished thereby.*

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh, and Berlin, our sales reached the almost incredible number of 1,732,450 pairs of cork soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventive for COUGHS, COLDS, BRONCHITIS, ASTHMA, and CONSUMPTION.
