

It suspected that the science in whose interest so many boys are allowed to shoot our song birds is the science of millinery—Boston Transcript.

Three thousand five hundred miles of railroad have been built in the United States so far this year, against 1,500 last year. The indications are that the total for the year will be greater than last year, when it was considered enormous.

A married lady declined to tell a maiden sister any of her trouble, saying, "When ignorance is bliss, 'tis folly to be wise." "Yes," replied the sister, "and I've come to the conclusion that when singleness is bliss, 'tis folly to be wive."

A western woman named her girl baby after a noted lady, and wrote to her about it. The lady sent a thick, heavily sealed envelope, "not to be opened until the babe's thirtieth birthday," it was a terrible revenge to take.—Philadelphia News.

Edward Rosner's wife deserted him five days after the marriage, at Farmington, Mo., drove him to suicide by her heartless perfidy, and married his rival one day after becoming a widow; yet she claims his entire estate, and will get it, there being no other heirs.

A woman who would keep her husband's love must be a good cook. She must be able to plan, prepare, and serve a dinner, however simple, in such excellent and appetizing style, that, if poetical, he may say— "Fate cannot harm me— I have dined to-day."

The Gothic style of handwriting, now so popular among young ladies, may have its disadvantages. It is said that a young man who recently received a specimen of it could not tell, for the life of him, whether it was "Yes, with pleasure," "No, thank you," or a sketch of a picket fence.—Indianapolis Herald.

Justice Mayes, of West Alexander, Pa., recently married his two thousandth couple. For sealing these happy bonds he has received the sum of \$6,262.14, or an average of \$3.12 per couple. The regular fee was originally \$2, and after 1865 it was \$3, although some couples paid nothing and others from \$5 to \$20. The lowest sum paid was ninety cents. Thirty couples have been colored, fifty of the men were named Smith, and fourteen women did not change their name. Business ranged from six couples a day to none.

LORNE HIGHLAND WHISKY ANALYTICAL SANITARY INSTITUTION 54, Holborn-viaduct, E. C., London, Aug. 8, '79

REPORT ON THE LORNE HIGHLAND WHISKY: "We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fine, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality."
