Among The Farmers

(Federation of Agriculture News)

"For if the trumpets speak"

The stage is evidently being set for what looks like a pitched battle on the question of butter prices and competition from the vegetable oil substitutes. The consumer can be pardoned for seeking cheap food, in fact the Canadian consumer has been nurtured both in fact and theory on a cheap food diet, and it can be argued with some justice that in a wide variety of products over a long period of years, that the farmer has been subsidizing the consumer inasmuch as the producer was rarely allowed to add into the selling price, depreciation, interest on investment and reasonable wages for his labour.

Recently an editorial writer suggests that the President of the National Dairy Council is being realistic. From the processor and consumer standpoint this statement is likely true, but the man who milks cows is the one who will face the hard, cold realities of producing dairy products in competition with low cost vegetable oil products.

Mr. Carlyle argues that his section of the dairy industry is fighting a battle with one hand tied behind its back and expresses the fear that butter in particular, is being priced out of the market. We do not believe that price-wise butter will ever compete with vegetable oil any more than a Cadillac can compete with a Baby Austin.

The lowering of price will possibly sell more butter, but any drastic lowering will discourage production of milk and lead to a butter scarcity which will give the substitute an advantage possibly equal to and even more dangerous than any present advantage it may have price-wise at the moment. It is suggested that the millions invested in the dairy industry is no defence for Government subsidy. However, the livelihood of thousands of Canadian workers and producers is associated with butter production. If their income is destroyed or impaired, the general effect upon the economy can well be of far reaching importance, important enough to make the difference between having a pay cheque to buy butter with, and no pay cheque to buy a substitute with.

Canadian agriculture has within the past few years, sustained a terrific loss of purchasing power, while at the same time average wages of workers in other callings has been increasing. To throw butter onto the open market and leave the producer to the whims of the law of supply and demand can have no other effect but to still further prejudice the farmer's position in relation to that of workers in other callings.

Ever since Confederation, Canadian industry has been encouraged and bolstered by tariffs, subsidies and subsidies of many different kinds, in many cases the Canadian farmer has underwritten a share of the cost in fostering and developing infant industries which have grown to maturity and are still enjoying subsidization. If it is realistic to suggest that Canadian economy can remain on an even keel with three corners of the structure supported and with the props knocked from under the fourth corner then our understanding of the world is completely at variance with that of others who use it.

SURPLUS BOGEY MAN
Much of the present interest in the butter situation centres on the fact that Canada is in the position of owning more than enough butter to cover current requirements. Such concern over a condition of this kind would be extremely puzzling to millions of people who are more concerned with the possibility of procuring one meal per day than they are with the embarrassment of an overflowing national larder.

QUEENS COUNTY
Bad travelling conditions and fog cut down attendance at the annual meeting of the Queens County Federation, nevertheless this meeting was, in our opinion, one of the best which this organization has held in recent years.

The meeting has been reported in detail in the press and we will confine our statement to dealing briefly with a number of matters which were dealt with by resolutions. The meeting was interested in a clarification of Government policy with respect to the Act which regulates time, either fast or slow. There was felt to be need of something definite in the Highway Traffic Act to cover the movement of livestock on our public roads and the meeting was strongly in favour of recommending to the Government that it enact a Financial Responsibility Law for the protection of the public against the financially irresponsible driver.

The racoon has established himself as the Number 1 predator and a higher bounty is being called down upon his head. The meeting felt that farm implement people were not fulfilling their responsibilities in supplying service for new equipment and suggested further that the parts department of implement agencies should be kept open Wednesday afternoons and Saturday evenings during the cropping and harvesting seasons. The 58c floor price for butter was endorsed and the necessity of floor prices on various farm products urged.

Three resolutions dealing with potato business were introduced covering a request to the Potato Board that it supply market information to the growers, that the

Friday, December 10, 1954

Potato Board be comprised entirely of growers and that the Government be asked to make an early statement of policy with respect to the Board.

OLEARY MEETING
Prince County interest in the Federation of Agriculture has always been strong and there has been no lack of good material for directors or of sound ideas for the advancement of agriculture in that area. Prince County farmers realize that many of their problems cannot be solved within their own line fences, but that the help of many farmers is needed in dealing with problems which are of provincial and national nature.

IN MEMORIAM

In fond and loving memory of our beloved Husband and Father, Mr. H. Lodge Birt of Peake Station, P. E. I., who passed away on December 10th, 1949.

Five years have passed since that sad day When one we loved was called away To be with God in Heaven above Where all is peace and joy and love.

Oh! how we miss his loving voice That always made our hearts rejoice But we humbly bow before Thy Throne And meekly say "Thy will be done."

No one knows the silent heartache Only those who have lost can tell Of the grief that is borne in silence Of the one we loved so well.

Always Remembered and Sadly Missed by Wife and Family.
