(*Continued from first page.*)

'Return with the first streak of dawn, and tell Captain Drake that a delay will be dangerous. The Tory Patroon is malicious and vindictive, and he thirsts for the young man's blood.'

The Blue Brothers promised dilligence, and the soldier returned to the waiting of Carl

'Now we will return' he said; 'my business is completed. If your master only defers his proceedings for a few days, your friend Bryan Blunday will be saved.'

'May the Lord grant it.'

And he landed his friend in safety, at the bottom of Peter's garden.

Peter was alone in his bar-room waiting the arrival of his guest. He listened to the recital of the arrangements that had been made, with a pleased countenance, and retired to his bed, fully determined to see Bryan, when he was removed to the castle for examination.

In this intention the worthy innkeeper was disappointed, as we have already seen.

The Blue Brother continued to abide at the inn, without exciting suspicion. He feigned a sort of comfortable illness as a reason for defering his journey, though it must be confessed, that his tell form and ruddy visage rendered the nature of his distemper somewhat doubtful.

He sauntered through the settlement frequently. With a keen and critical eye he examined the prison, noted its form, its probable strength, and the number of its guards, and their appointments.

He had frequent interviews with Carl Kupper. The worthy servant had already selected a tree, and collected combustibles for the answering signal, in case it should be necessary to use one, and beside, he had consented to go to the lurking-place of the Brotherhood, when they arrived and conduct them across the ford to the settlement.

He had also rendered himself useful in collecting all the information possible to be secured, regarding the determination of Hans his master, and the consequent fate of Bryan.

'On the day of the interview of Viola with the Patroon, the distressed female sent for Carl. The faithful Sarah Fielding was the bearer of the message, and she conducted the surprised menial to her mistress.

When Carl was in the room she withdrew.

'Carl, my trusty friend, said Viola, 'are you yet true to the interests of Bryan, or have your feelings cooled, now that he is a prisoner, and in distress?'

There was a strong expression of scorn on the Dutchman's features as he answered.

'Carl Knipper is poor and humble, but he is no traitor. A poor man's bosom can contain a true heart.

Viola saw that the servant was sincere, and she hastened to soothe his feelings.

'I did not doubt you, Carl, yet many that seemed to befriend him in former days will stand aloof from him now that adversity has him within its grasp.'

'I am but a poor adviser,' said Carl, 'but such as I am, I am at your service.'

'Is there no way, Carl by which we can liberate Bryan—can set him free again?'

There was a touching earnestness in the tones of the fair girl, that at once reached the heart of the servant.

He shook his head doubtingly.

'I fear not,' he answered.

'Cannot we bribe the jailor—cannot we enter the prison and remove him in disguise.'

Carl shook his head.

Viola could not restrain her tears.

'His friends, Carl,' she continued. 'Has he no friends?'

'Many.'

'And are they idle in this awful time. Are they making no efforts for his release?'

Carl was placed in a delicate and painful situation. He had promised the most faithful and honorable secrecy with the Blue Brother and he dared divulge nothing. On the other hand, he was sorely distressed at the exhibition of Viola's profound grief.

He evaded a direct reply.

'Undoubtedly they will do all in their power. I am not without hope that they will save his life.'

'Indeed!' cried Viola, eagerly catching at this consolation, feeble as it was.

'I do hope they will,' Carl repeated.

'Tell me why you hope so, Carl?'

This was a perplexing question.

'I know the interest they take in his welfare. I know they are devoted to him, and are not the men to give him up tamely.'

'Would they fight for him, Carl?'

'If it was necessary.'

'But they are few, and could not withstand the forces of my cousin Hans.'

'Remember,' replied Carl, 'that the battle is not always to the strong, or the race to the swift.'

'True enough, but in this matter, Carl, the heart desires the consolation of certainties.'

Viola felt that she must abide the course of events, that she could resort to no schmes by which to frustrate the intentions of Hans She dismissed Carl, enjoining secrecy upon him—a precaution, by the way, altogether needless.

When he had departed, she again gave herself up to grief, and gloomy forbodings.

The time when she was to give a final answer to Hans, regarding his proposition, was rapidly approaching. As the moments flew past the agitation and perplexity increased, and she felt that the pains of the rack, or the torments of Pandemonium, would be a relief to her agony.

If she refused to marry Hans, Bryan would doubtless die. If she *did* wed, would not her discretion prove equally fatal to her lover? It was truly a desperate and awful alternative.

SIMPLICITY A PROOF OF PERFECTION.

AN ARGUMENT ADDRESSED TO THE WORLD'S INTELLIGENCE

The progress of a great discovery resembles the swelling of the tides; a mere ripple on the surface at first, it gradually embraces a wider sweep and is felt upon the shores of distant continents. Five and-twenty years ago the name of Thomas Holloway was but little known; many had faith in his genius, and predicted for him a mighty future. Today we may search through all lands and continents, kingdoms, empires, and republics, and fail to find a spot, however remote, or a people, however savage, where the fame of that self same Thomas Holloway is not a household word at every hearth, a theme of grateful praise on every tongue.

The very simplicity of his system is a proof of its perfection. While others busied themselves to no purpose about the diagnostics of particular forms of malady, Thomas Holloway divided the family of disease into the two essential branches of external and internal ailments. For these he devised two corresponding remedies; and in his Pills and Ointment we have now a condensation of healing virtues, which, if applied in time can never fail to make a permanent and rapid cure.

Sustained by the approval of the wise and learned, encouraged and aided by the grateful munificence of many of the crowned heads of Europe, and prompted by his own enlightened and comprehensive philanthropy, he has established a system of agency for these medicines which embraces every portion of the inhabited globe. He has brought home the means of health to the doors of all tribes and nations of the earth; and if we neglect to profit by these remedies, it must henceforth be ourselves, and not Providence, we should blame for the evils under which we groan. Professor Holloway has done all and more than all, his duty: he has placed his external and internal remedies in every country, and we have only to stretch out our hands to them and be cured. There is eternal wisdom in that Spanish proverb that says, *Al que madruga, Dios le ayuda*, and the man who does not aid himself when certain aid is within his reach, has surely no right to expect that a miracle will be wrought in his favour!

From none of the European Courts did this great restorer of health receive more liberal encouragement than from that of Spain With Louis Philippe of France he may have been on terms of more intimate personal regard; but when the Spanish Government repealed a section of the Customs laws *exclusively in favor of his medicines*, and allowed them to be imported almost duty free, it gave an official recognition of the national indebtedness which was truly worthy of the obligation and the cause. It was good policy, too; for the necessaries of life are the last things that should be subject to taxation.

Wonderful as the properties of the Pills are; their healing potency—working invisibly and imperceptibly in the blood—does not strike the casual observer with the same astonishment which the magical effects of the Ointment must produce. The cures of this latter remedy we can *see* as well as feel: we can *see* skin diseases which have rioted in the system for years give way to a few applications; we can see the white scales of leprosy peel off and the pink flesh reappearing "like the flesh of a young child:" and we can see the worst external indications of scrofula removed by the Ointment, while the Pills eradicate from the blood the original virus of the malady and secure immunity for the future.

THE ORIGINAL "WEED" SEWING MACHINE

With all the Latest Improvements,

Made by the

North American Manufacturing Company.

THE "WEED" was awarded the HIGHEST PRIZE at the "Paris Exposition," as well as at other Exhibitions for a Sewing Machine, as such, and is becoming deservedly popular, adapted to ALL KINDS OF SEWING in families and manufactories. Lock-stitch, Shuttle, Straight Needle. Exceedingly simple in construction.

Each Machine warranted and kept in order free of charge, and the Factory being in St. John, N. B., much time, expense and trouble, attending American Machines, are avoided.

The Most Reliable Friend

Holloway's Ointment

Its Searching & Healing Properties are known and recognized throughout the World.

The number of years this invaluable Ointment has stood the test of public opinion, (and the longer known the better appreciated) is a testimony of itself more convincing than anything that could be written in praise of its truly wonderful healing properties In the cure of bad legs, bad breasts, sores, wounds, and ulcers, its effect is marvellous For ring-worm, scald-head, scrofula, and diseases of the scalp generally, there is no remedy to be compared to it When assiduously rubbed upon the skin (previously well bathed in warm water this Ointment is quickly absorbed into the system and cleanses, in its passage, every part to which it is applied

Glandular Swellings, Mumps Bronchitis, Quinsey, Sore Throats and Diptheria.

In any of the above diseases, immediate and permanent relief is obtained by effectually rubbing this detergent Ointment, twice a day, upon the neck, chest and back Its acts upon the very mainsprings of life; for through the glands pass all new matter required for the body's reparation and all old particles detrimental to its preservation The Ointment, used conjointly with Holloway's Pills, will act so searchingly and certainly as to effect cures in the most hopeless cases

Rheumatism, Lumbago, Contracted and Stiff Joints.

Many thousands of martyrs from the above complaints have found life almost unsupportable; yet if Holloway's Ointment be briskly and perseveringly rubbed upon the parts affected, ease may be safely guaranteed, especially if the pores of the skin be previously opened by fomentations with warm water The gross humors require expulsion from the system; it is therefore necessary to have recourse to Holloway's admirable Pills, which, by purifying and
