## The Railway Readjustment.

THE King's County Advertiser has the following just remarks:—

"By the re-adjustment the employees on the Railway will receive upwards of nine thousand dollars less wages annually than formerly, which means a loss of that amount to the Island, as it was distributed among us in a general way. For our part we do not wish to see money spent unnecessarily or extravagantly, no matter where it happens to be spent; but we contend that if the running expenses of our Railway are to be shaved so closely, our employees are justly entitled to the same wages in every department as are paid in all other parts of the Dominion. This is the least we can expect. We want no sinecures on the road, but would wish to see our men well worked and well paid. It is generally believed that whatever arrangements will satisfy all parties will be made in due time, and that every Railway employee on this Island, will ere long receive the same wages as are paid elsewhere. If the authorities are prepared to adopt this system it is the duty of every Islander to assist and uphold them; but we were not at any time so very anxious to become confederated that we should now be considered subordinate, nor will we ever submit to such treatment. There is, we believe, enough independence in P. E. Islanders to resist at the outset, any innovation of this kind."

## A Peculiar People.

The Moncton Times says:—"The Grits are a peculiar people—in the ordinary, not in the theological, sense of the word. They are affected almost to tears by the discharge of eighty men from the Government workshops, representing a diminution of employment to the yearly value of say \$30,000. Yet they can look on with perfect unconcern and behold twice this amount of their own money sent annually to the United States employing operatives there to make goods that ought to be made here. We say, and we challenge contradiction, that the money sent to the United States for articles consumed in Moncton, and that could as well be made here, would employ more men than have recently been discharged from the shops here. Is this a fact? If so, is it not worthy of the consideration of our business men? And would it not be better for Grit and Tory to put their heads together and endeavor to stop this big leak while at the same time we seek by all legitimate means to secure an increase of Government work at this point?"

CHILI AND PERU'S WAR.—A telegram via Panama, April 28, says:—"The first naval encounter took place on the 15th, off River Loa, between the Chilean corvette Magallanes and the Peruvian vessels Union and Pilcomayo. Little damage occurred, the Chilean vessel withdrawing. The Chilean squadron destroyed the loading apparatus of the Guano Loading Company at several ports. These works cost a large amount and were owned by foreigners. General Daza, President of Bolivia, with 4,000 troops, is rapidly approaching the territory occupied by the Chileans.

Ch'town, May 10, 1879.

## Rum vs. Fairplay.

To the Editor of the Examiner.

DEAR SIR,—A community capable of self-government should not be a people to carelessly sanction class legislation; but if now a free people had an obnoxious sample of class legislation foisted on them, the citizens of Charlottetown have, by the adoption of the Scott Temperance Act, had it with a vengeance.

By the adoption of this extraordinary Act, one class is denied the use of malt or fermented liquors—whilst the wealthy or privileged class are permitted to import (ostensibly for their own use, as much wine, brandy, etc., as they choose to pay duties for. Now, what is to prevent this privileged class from importing a much larger stock than they really require, and afterwards selling a portion to their friends; yes, and at a reasonable profit, too. Under such a system every private cellar would contain liquor would require to be placed under Excise surveillance; but why was this clause inserted in the Act at all?—just to disarm the Opposition of the wealthy and influential class.

And there is also that very objectionable 10 gallon clause, which is nothing more or less than an encouragement for unprincipled dealers to carry on an illicit traffic in obscure holes and corners of the City which the law will be powerless to reach—even druggists should not, under any pretence, be allowed to import alcohol, let them import their tinctures such as rhubarb &c., in a prepared state, and alcohol as a necessity of their business may be dispensed with, for we all know if men are resolved to have drink, drink they will have, and wherever a store of liquor is kept, there are a favored few who will always be able to obtain it.

There is one only remedy for such an anomaly—the traders, moderate drinkers, and the unfortunates who, by the Provisions of this Act, are treated as pariahs, ought to combine with the temperance man, and demand the exclusion of the article. If liquor is to be prohibited let it be so, but let all classes fare alike.

Yours &c., SCRIBBLER.

May 10, 1879.

At Halifax, on Wednesday, a child, three months old, had the flesh eaten off it hands by a rat, which got into its crib during the night. The parents live on Graf ton street.

Sir Stephen Glover, Governor of Newfoundland, is shortly expected to visit Ottawa. He comes, it is said, to pay his respects to the Governor-General.

A splendid national theatre is projected in London, after the idea of the Grand Opera House in Paris, at a cost of about \$15,000,000.

## Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies such as Pneumonia, Hemorrhages and Lung troubles, when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Coughs, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.
