HALIFAX will give the Marquis of Lorne a grand reception.

THE change of timetable on P. E. I. Railway takes place on Monday next.

THE Hon. Edward Blake is in Paris, and is said to be much improved in health after his tour through Switzerland.

THE brigantine *Lady Milton* arrived at this port yesterday after quite a lengthy passage from Liverpool—43 days.

MESSRS. GEORGE DAVIES & Co., of the LONDON HOUSE, take Merchants' Bank notes at their face in exchange for goods.

SIR WILLIAM B. RICHARDS, Chief Justice of Canada, is at present in Germany. He has been granted an extension of six months leave.

WE are glad to see our old friend Richard Wright, Esq., quite recovered from the effects of his recent accident and able to move among his friends again.

A letter received here states that Mr. W. Price, M.P.P., for Chicoutimi, has given in his resignation as a member of the Provincial Legislature of Quebec.

INASMUCH as it took Mr. Mackenzie over three weeks to make up his mind to get out the organs should give Sir John Macdonald at least a week to get in.—*Mail*.

THE Manitoba government has been reorganized. Mr. Davies retires from public life, Mr. Morquay becoming Premier. The Cabinet is composed of three English and two French members.

IN the 2:50 trotting race at Moosepath, St. John, on Friday, Mr. A. Holme's horse Lookout took third money—\$20. S. McNeill's horse, French Sporter, trotted in the 2:45 race, but got no prize.

A despatch from Montague to Mr. M. A. Cameron, insurance agent, of this city, reports that the store of Mr. James Johnston of Annandale was destroyed by fire on Sunday night. Mr. Johnston's premises are insured in the Canada Fire and Marine for \$2,000.

IT is understood that Chief Justice Harrison [Richards] who has got six months' leave of absence, will not resume his seat on the bench. His most likely successor will be Sir John A. McDonald. It is surprising that Sir John assumes the very laborious department of Minister of the Interior.—*St. John Tel.*

WE learn that the Dominion Telegraph Company have completed the erection of their poles in Nova Scotia and New Brunswick, and that in about a month they will have the lines there in operation. The wire is expected by the next steamer, and will be at once strung, so that in a very short time there will be an independent connection with the Upper Provinces.

THE new St. James' Church was formally opened yesterday. During the services the church was crowded to its utmost capacity. In the forenoon the Rev. D. McRae, of St. John, N. B., preached an eloquent sermon specially adapted for the occasion. In the afternoon and evening the services were most interesting. Eloquent sermons were delivered by Rev. John Lathern, of Prince Street Methodist Church, and Rev. Principal Knight, of Theological Hall, Halifax.

IN distributing the prizes recently at a public school, the Bishop of Manchester said that he differed from Mr. Forster as to the advisability of young people terminating their school education at an early age. Instead of curtailing the period of age, he thought that, if parents could afford the delay, twenty-one was not too late a time of life to start in business. Quality, he added, rather than quantity should be the object of the teacher. He was in favor of political economy being taught in schools, and instanced the recent strike in northeast Lancashire as showing the necessity of such knowledge among our operatives.

ON Saturday morning a fisherman who had just arrived in this city after an unsuccessful season's fishing on the Labrador, entered our office and informed us that he had lost his purse containing \$30, between Pownal Street and the Railway Station. When he discovered that he had lost the purse he walked slowly back to the house from which he started, and scrutinized every foot of the ground which he had previously covered; but could see no traces of the money. From this we infer that the money was found immediately after it was lost. An advertisement was inserted, but up to the present, the purse has not been returned. We do not wish to burden the conscience of the finder when we state that the loser is a very poor man, who has a large family, and that the money lost is the meagre result of an unsuccessful season's fishing at the Labrador.

A COLORED WOMAN TURNING WHITE.—A physiological phenomenon that is puzzling the doctors has just been discovered in this city by one of the District Physicians. It is nothing less than a colored woman turning white. Luella Smith, aged thirty years, who is living at No. 60 Gano Alley, is not a mulatto. She is as black as your hat—in the face, but her body is gradually beginning to turn white as any Caucasian. This changing process began about five years ago, and now her body is fully two-fifths white; on her breast there is a white spot about eight inches long and six inches wide. Her limbs, too, present the same singular appearance, and if the change keeps on she will, in a few years, be as white as anybody. At present she is being treated for consumption. The only white spots about her face are directly behind either ear and inside the ears. The doctors call this transformation 'absorption of pigment,' but whatever it is, it is extraordinary and will elicit a good deal of attention from the medical profession.—*Cincinnati Enquirer.*

**TELEGRAPHIC.**

**Recent Appointments.**

THE recent appointments made by the Government on or about the 7th or 8th of October, immediately after a visit paid by Mr. Donald A. Smith, M. P., to Ottawa, are significant. For instance, Sheriff St. John, who was in the Northwest Territories, and who worked and spoke in favor of Mr. D. A. Smith, has been rewarded by an appointment as Indian Commissioner, vice M. Provencher, thus making room for M. Richard, ex-M. P. for Megantic, who has become Sheriff of the Northwest. Mr. Thomas Howard, who also worked indefatigably in the interest of Mr. D. A. Smith, has been appointed Assistant Receiver General for Manitoba, vice Mr. McMicken. The appointments are certainly very questionable as they are seemingly the direct result of a corrupt understanding between Mr. Smith and the gentlemen who received them. We do not question the efficiency of appointees, but we do question the sincerity of Mr. McKenzie, who denounced a preceding Government for making appointments even before they lost the confidence of Parliament, and now makes appointments which he must have known were bargained away for political support.

ACCORDING to harvest reports lately published by Mr. Barthelemy Etienne, of Marcellles, the grain crop of this year will be considerably below the average. The yield is given as very good in only two departments, good in twelve, fair in twenty-three, and bad in forty-six. The grain crop of Great Britain is this year much better than it was last, and instead of demanding 3,000,000 tons of grain to make good shortcomings, as was done during the harvest year that has just passed, the British importers will need to supply home consumption, only 2,500,000 tons of foreign wheat.
