CORRESPONDENCE.

We do not hold ourselves responsible for the
opinions or statements of our correspondents.

A Fraud Exposed.

To the Editor of the Examiner.

SIR,—A local in yesterday's EXAMINER
announces that "it is expected that the
Royal Hand Bell Ringers of London, will
visit Charlottetown next month."

Our people having been repeatedly duped
by unprincipled men, who, considering it
required but the flimsy of a legitimate
name to draw a full house, I consider it
advisable to publish the following warning
received from the "Redpath Lyceum
Bureau."

Boston, Sept. 7, 1882.

A party calling themselves I. W. Baird's
Mammoth Minstrels, are fraudulently adver-
tising "The Royal Hand Bell Ringers" as a
part of their entertainment, and with intent
to deceive the public, are closely copying the
lithographs and bills of the original and only
Royal Hand Bell Ringers of London, England,
Duncan S. Miller, Conductor, for whom we
are the sole agents in America, and who are
not connected with any organization what-
ever. Managers of lecture courses and enter-
tainments who desire to secure their services
will please bear this in mind, and apply direct
to us.

THE REDPATH LYCEUM BUREAU,
Boston and Chicago.

I may here say that the "Royal Hand
Bell Ringers of London, England" are
billed ahead until the Spring of 1883, but I
shall endeavor to secure a visit from them to
Charlottetown early next season.

I am, etc.,
THEO. L. CHAPPELLE,
Agent for the Redpath Lyceum Bureau.

Lecture on Education.

To the Editor of the Examiner.

SIR,—A few days ago the Superintendent
of Education announced that he would
deliver a lecture in the Court House at
Abram's Village; and, notwithstanding that
the inclemency of the weather prevented
many from being notified, yet, when the
Superintendent arrived on Tuesday evening,
the 19th inst., he found the house well filled
with eager listeners, all waiting to avail
themselves of the benefits of such a highly
intellectual treat.

The lecturer in very appropriate terms
explained why he had chosen to address
them on the all important subject of Educa-
tion—it being a thing with which he was
so closely connected, and then proceeded
to take up the subject, which he discoursed
in such an eloquent and intelligible manner
that all, without exception, returned to
their homes, fully satisfied that they had
listened to the best lecture on the subject
ever delivered in their presence. The dis-
course was particularly directed to educa-
tion as in connection with our Public
Schools, and the lecturer exemplified many
of his remarks with such humorous and
appropriate anecdotes, that the audience
were not only instructed to the highest
degree, but amused to the utmost. In the
course of his remarks, the Superintendent
also took occasion to impress on the people
of Abram's Village, the necessity of having
a graded school in the district; and con-
cluded by saying that, if they wished the
rising generation to take their stand on the
stage of life, they would have to take every
means in their power to give them a good
education.

Complimentary remarks were then made
by several of the gentlemen present, all of
whom expressed a very high opinion of the
lecture, and promised that immediate steps
would be taken to have the school graded.
A vote of thanks was then tendered to the
learned lecturer; after which the people
betook themselves to their homes, and re-
sisted themselves to the care of Morpheus,
overjoyed with their evening's enjoyment,
and heartily agreeing with the "complimen-
ter" who said, "it is a credit to the
people of P. E. Island to have such an ex-
cellent and competent man as Mr. Mont-
gomery at the head of Education."

ONE WHO WAS PRESENT.
Abram's Village, Sept. 22nd, 1882.

Current Notes.

A Boston girl attracted a multitude by
having her shoes blacked, just like a man,
in front of the Revere House.

Commander Rawson, who was recently
promoted for his gallantry at Tel-el-Kebir,
has just died at Malta of his wounds.

The Bishop of Montreal has appointed
the 5th proximo as a day of thanksgiving
for the bountiful harvest in his diocese.

Captain Scott, R. N., of Halifax, has
been appointed by the Minister of Marine
to inquire into the recent Asia disaster.

A Japanese custom is to give baby girls
the names of delicate and lovely plants or
flowers, while the boys are simply number-
ed, and are known as First boy, Second
boy, and so on.

By the use of a magnetic rod a mine lo-
cator has found off the harbor of Erie, Pr.,
the wreck of the schooner "Vermillion,"
which was sunk nearly half a century ago,
with 350 tons of copper on board, valued at
\$150,000.

A black Derby hat was found on the wharf
at the foot of Fifth street, Hoboken, the
other morning. Pinned in the inside was
a small piece of note paper, on which was
written "I hereby notify the public that I
have drowned myself." H. Smyth.

The Canada Educational Monthly states
that the Bystander will likely be issued
quarterly hereafter, beginning with the
first of the year; and also states that a
new volume of much interest may also be
looked for at an early date from Professor
Smith's pen.

Dr. Lewis Swift, Director of the Warner
Observatory, has been receiving messages
from all parts of America, claiming the
discovery of a large naked-eye comet, now
visible near the sun. To set all enquiries
at rest he states that it is the same comet
recently discovered in South America,
and is not identical with any known comet.

A young Canadian, named Arthur Mc-
Arthur, employed in a saw-mill, at Detroit,
N. S., was killed by the cars north of Ash-
ton, on the night of the 16th. He was
seen lying upon the track when the cars
were close upon him. The poor fellow,
who was known to have been the worse of
liquor, was horribly mangled.

The Newfoundland bank fishing season is
now about over. The St. John's Mercury
says: "The discrepancy in the fares of
our Newfoundland bankers this season is
very considerable, and ranges from a
thousand to over two thousand quintals.
But the net proceeds will doubtless show
as good a dividend for the owners as for
the men."

The Vicar of Heighington, England, has
raised money for a chime of bells by an ex-
hibition game of chess. The board was
marked out on the turf, and the pieces
were human. The costumes were of the
fifteenth century, the pawns being pretty
girls dressed as pages, and it is said to have
been no wonder that the spectators will-
ingly paid a dollar admission fee.

The Albanian League, which was sup-
posed to have been dissolved some two or
three years ago, is again giving trouble. A
plot recently came to light for the mas-
sacre of all the richest Christians at Scutari,
including the British; consul and the tra-
gedy was only averted by the prompt
action of two of the ill tribes, who march-
ed to the scene to protect their co-religion-
ists.

A measure is in contemplation, says an
English exchange, if it has not been ac-
tually authorized, by the Government of
India, which will have the effect of
strengthening the Indian army in one of
its most important and valuable elements.
The province of Assam is garrisoned by
three regiments properly known as Assam
regiments. These have hitherto been re-
cruited from Sikhs, Hindostanis, and Goor-
has indiscriminately. It is now proposed
that these should be turned into pure
Goorha regiments. The Goorkhas are
hard fighters, and in such a campaign as
that of Egypt would be useful auxiliaries.

"TWENTY-FOUR YEARS' EXPERIENCE," says
an eminent physician, convinces me that the
only cure for "Nervous Exhaustion" and
weakness of the generative organs is to repair
the waste by giving Brain and Nerve Foods,
and of all the remedies I have used, Mack's
Magnetic Medicine is the best. This remedy
is now sold by all our Druggists at 50 cents
per box, or 6 for \$2.50, and on receipt of an
order for 12 boxes, accompanied with \$5.00,
addressed to Mack's Magnetic Medicine Co.,
Windsor, Ont., they will forward the goods
free by mail, and send their "written guaran-
tee" to refund the money, if the treatment
does not effect a cure. See advt. in another
column.

Goethe was a far-sighted man. In the
year 1827 he said the following in conver-
sation with his friend Eckermann:

"It is a necessity for the United States
that American merchantmen and men-of-
war should be able to sail straight into the
Pacific from the Bay of Mexico, and I feel
sure that
