Canada's Proven Oil Reserves Up

CALGARY (CP) — The Canadian Petroleum Association says in a report that Canada's proven remaining reserves of liquid hydrocarbons increased by 1,436,000,000 barrels in 1964 to a record total of 7,065,000,000 barrels.

Hydrocarbons include crude oil and natural gas liquids.

The association said the increase included 108,000,000 barrels in new discoveries during 1964 and 1,640,000,000 barrels in extensions and revisions of previously known reserves.

Net liquid hydrocarbon production in 1964 was 312,000,000 barrels.

Alberta, leading province of Canada's liquid hydrocarbon producing areas, increased its liquid hydrocarbon reserves by 1,267,000,000 barrels in 1964.

TOTAL RESERVES UP

The association said Canada's proven remaining recoverable natural gas reserves increased by 6,431,000,000 barrels in 1964, pushing total reserves to 43,000,000 barrels.

Sulphur reserves rose 13,831,000 tons in 1964 to a total of 69,096,000 tons. Sulphur is a gas by-product.

Following is a CPA tabulation of estimated proven reserves of liquid hydrocarbons in Canada by areas. The first figure is the 1963 estimate, the second figure the 1964 estimate:

Alberta, 4,084,000,000 (6,011,000,000); Saskatchewan, 531,000,000 (610,000,000); British Columbia, 169,000,000 (248,000,000); Manitoba, 23,800,000 (33,600,000); Northwest Territories, 49,800,000 (49,200,000); Ontario 7,150,000 (9,300,000).

Electric Heat Suggested For Blast District

MONTREAL (CP) — A contractor who built 30 apartment units which house some 3,000 persons in suburban LaSalle, scene of an explosion March 1 which killed 27 persons, has applied for a government loan to convert the development from gas to electric heating.

A spokesman for the LaSalle Heights development said Tuesday the loan application to Central Mortgage and Housing Corporation was made during the weekend by Ain and Zakuta Limited. The amount of the loan was not released.

A fire marshal involved in the inquiry into the disaster has said natural gas "is being studied" as a possible cause of the blast, and many tenants in the apartment block demolished by the explosion said they smelled gas before the building was destroyed.

Meanwhile, Joseph Reeves, chairman of the LaSalle Heights Citizens Committee, said some 200 of the 700 families living in the development have already moved and that another 354 tenants have expressed hopes of breaking their leases.
