FORECAST IS \$55 MILLION

C.N.R. Deficit Is Still Big Despite \$15 Million Chop

OTTAWA (CP) — The federal government has chopped \$15,000,000 off the C.N.R.'s prospective 1958 expenses, but a publicly-owned system Monday stuck with its original forecast of a \$55,000,000 deficit.
In a revised budget tabled in the Commons, the company forecast a drop in revenues to \$700,000,000 from the \$730,000,000 it predicted in an original budget June 2. Some decreases in expenses — evidently based mainly on lowered traffic volume — brought the deficit out to the original figure.
President Donald Gordon told the Commons railway committee Monday that the rewritten budget was necessitated by the government's disallowance of a \$7,500,000 allowance for each of the years 1957 and 1958 which the company proposed to charge to operating expenses as special depreciation for stepped-up obsolescence of steam locomotives.
The C.N.R.'s 1957 accounts called it a supplementary depreciation aimed at partly restoring a deficiency in depreciation reserves arising from early retirement of steam engines due to use of diesel.
With the government's disallowance, the new C.N.R. budget will take up the 1957 overcharge and eliminate the originally-proposed figure for 1958, making a difference of \$15,000,000 for this year. The charge for equipment maintenance is reduced by this amount.
No detailed explanation was given immediately for the disallowance of the depreciation figure, but it was understood the finance department disapproved of it.
As the House railway committee

Close A.Y.P.A. At Milton

On July 5th St. John's A.Y.P.A. Milton, held a wienery-fry at Brackley Beach to close the A.Y. for the summer months.
It was decided that the following A.Y.P.A. members were to supply flowers for the church each Sunday in this order: Marion Rodd, Nancy Thompson, Elizabeth Matheson, Enid and Myrna Coles, Diana Rodd, Leslie Poole, Allison Coles.
At the close of the evening square dancing was enjoyed by everyone.

Five Plans

(Continued from Page One) of 1,200 feet.
(e), split the combination system at the head of Government Pond, continue surface drainage in 60-inch pipe to a point 300 feet from the present seawall, and carry sanitary wastes in 18-inch pipe to outfall beyond Connolly wharf as in (d) above.
Costs of each of the above plans were estimated by Mr. Crandall as follows: plan (a), \$15,000; plan (b), \$30,000; plan (c), \$51,750; plan (d), \$100,000; and plan (e), \$66,750.

RECOMMENDED PLAN E

Mr. Crandall said that he favored plan (e), noting that, though its cost was second lowest of the five estimates, it would operate with 95 per cent of the efficiency of plan (a), the most expensive envisaged.
In addition, the West Street sewer would give better service to the new naval barracks and the new buildings being constructed by the City Hospital he said.
Adoption of this route was favored by Department of Public Works engineers who planned an extension of the breastwork in that area, he added.
Questioned by Councillor O'Neill the Moncton expert stated that this plan would require the erection of a new lift station near the Connolly wharf area. It would replace the present pumping station near Government Pond he said.

SHOOTS SON AND SELF HONOLULU (AP) — A mother who could not endure seeing her son committed to a mental patient killed him with a .32-calibre bullet through his chest Wednesday and then shot herself. Mrs. Eleanor Mahi, 38, left a note saying, "it was a hard decision to make but I don't want to see my son suffer." Her boy, Thomas, 14, was about to be committed to the territorial mental hospital.

CONTAMINATION NEGLIGIBLE

The contamination threat posed by the surface drainage outfall located 300 feet from the sea wall was negligible, he stated, being only one part in ten thousand.
Questioned by Mayor Johnston, the City Health Officer said that, provided the pipes went out well below low tide, he did not think that there would be any marked degree of contamination resulting.
However Dr. MacDonald pointed out that he was seriously disturbed by the overall coverage picture, particularly in the area East of Hillsboro Bridge, which received sewerage from the Mt. Herbert Orphanage, Riverside Hospital, and Parkdale.

Canadians Are Getting Younger

OTTAWA (CP)—Average age of Canadians dropped to 29.8 from 30.4 in the 15-year period between 1941 and 1956, the bureau of statistics reported Monday.
In an analysis of 1956 census figures, the bureau also said the proportion of population under 15 and over 64 increased during the period while the working-age population became proportionately smaller.
In 1956, children under 15 made up 32.4 per cent of the population compared to 27.8 per cent in 1941.
The 15-to-64 group made up only three-fifths of the 1956 population compared to two-thirds of the 1941 population.
CHILDREN NUMEROUS
During the period, the number of Canadian children rose by more than 2,000,000, or about 60 per cent; the 65-and-over group increased by 476,183, also about 60 per cent, and the 15-to-64 group by 2,072,000, or about one-quarter.
The figures:
1956: total population, 16,080,791; under 15—5,225,000; 15-to-64—9,612,000; 65 and over—1,244,000.
1941: total population, 11,506,655; under 15—3,199,000; 15-to-64—7,540,000; 65 and over—767,815.
The 1956 under-15 population ratio is not record. This group made up 38.7 per cent of Canadians in 1941 and never fell much below one-third up to and including 1931. The small number of births in the 1930s brought about the reduced 1941 proportion.

SUBWAY START NEAR?

TORONTO (CP)—The Ontario municipal board will decide Aug. 19 of Metropolitan Toronto council can finance a \$200,000,000 east-west Bloor St. subway, board Chairman Lorne Cumming announced here Monday. Immediate start on the subway was approved by Metro and permissive legislation has been passed by the province to spend the money.
Senator Dupuis said he isn't satisfied, indicating the Senate may hear more about the incident. He raised it Tuesday night in the upper chamber.
The flag is a copyright design bearing 11 stripes horizontally, alternately red, white and blue. A green maple leaf on a square white background is at the upper left corner. The stripes represent the 10 provinces with one for the Yukon and Northwest Territories.

Clash Of Interests Seen In Situation At Gagetown

By DAVE McINTOSH Canadian Press Staff Writer
OTTAWA (CP)—The not infrequent clash between local and national interests in the field of defence is well illustrated in the army's situation in the Maritimes, especially New Brunswick.
Camp Gagetown in south central New Brunswick, officially opened Dominion Day by Defence Minister Pearkes, was built at a cost of \$100,000,000 to house an infantry brigade group of some 6,000 men and their families.
But there now is only one infantry battalion permanently stationed at Camp Gagetown compared to the normal three in an infantry brigade group.
Both battalions of the Black Watch were originally scheduled to be moved from Camp Aldershot, N.S., to Gagetown. One is there. But members of Parliament in the Camp Aldershot area, including Revenue Minister Nowlan, objected to both units being moved and Aldershot still is the home station of one Black Watch battalion. Aldershot is a Second World War camp and can't compare with modern Gagetown for facilities.
GOING TO GERMANY
Army informants said Wednesday the army now plans to send the Aldershot Black Watch Battalion to West Germany next year and leave Aldershot empty. Whether it will actually be able to abandon Aldershot remains to be seen, however.

Senator's Flag Is Taken Down

OTTAWA (CP) — Senator Vincent Dupuis learned Wednesday that his Canadian flag was taken down by the city of Gagetown.
An unidentified RCMP sergeant told Senator Dupuis he thought the flag might fall and informed the Senator's protective staff.
A Senate official, "regretting" the incident, said Tuesday the flag was removed from the senator's office window in accordance with an unwritten law that "if all kinds of flags and decora-

Canadian Red Cross Hosp. Continues As Real Memorial

By M. McIntyre Hood Special Columnist (Eng.) Correspondent.
For the Memories of war days, and of the thousands of Canadian soldiers who were nursed back to health and strength within its walls were revived today, July 9, at the Canadian Red Cross Memorial Hospital at Taplow, Buckinghamshire. A gift from the Canadian people through the Red Cross Society, the hospital which ministered to the sick and wounded soldiers, is today a place of healing and care for the population of South Buckinghamshire and East Berkshire. Working in a different and vital field, it is carrying forward the ideals of the organization which, on the outbreak of the Second World War created it.
Today was open house day at the Canadian Red Cross Memorial Hospital. So we went out to Taplow to join with many others in seeing once again a hospital which we had visited many times from 1940 to 1942. Unfortunately, the weather was dull and gloomy which detracted from the number of people who attended. But in a sense that was fortunate from our standpoint, as it enabled the matron, Miss O. Morris and the secretary of the hospital, T.A. Pywell, to take us on a personally-conducted tour of the hospital.
IMPORTANT RESEARCH
Once devoted to healing the victims of war, the hospital is now largely devoted to the healing of the victims of another type of war, the war of the crippling disease of rheumatism. The most important work being done there is research into juvenile rheumatism. The most important work has been going on for more than 10 years. Its results have already been amazing and have won recognition for it. This is of interest to Canadians, because one of

PERSONALS

Spending an enjoyable holiday in the Province at present is Mr. Neil F. Smith, of Toronto, whose wife is a daughter of the late John MacPhee, of Montague.
George P. Thompson and his son George A. Thompson leave by plane today for San Francisco where they will stay for a short time before continuing on their journey by steamer to Victoria and Vancouver, B. C. They will make the return trip home by rail through the Rocky Mountains as far as Calgary where they will remain for a short time before taking to the air again to complete their journey to the Island.

Aphids Present In Many Fields Says Bulletin

"It was pointed out in our last bulletin that the first signs of late blight are always found in piles of discarded potatoes," says Weekly Potato Bulletin No. 3. This season is no exception to this rule, for the disease was discovered in a cull pile in the Annapolis Valley of Nova Scotia on Friday, July 11.
Potato flea beetles are about all gone for the present but aphids are present in small numbers in many fields. With continued warm weather they will increase very rapidly. Apply Malathion 25% wettable powder, 2 pounds to 100 gallons of spray now to control them and prevent large populations building up.
The bulletin is issued by F. M. Cannon, Crop Insect Section; and L. C. Callbeck, Plant Pathology Section, of the Science Service Laboratory, Charlottetown, P.E.I.

SHOOTS SON AND SELF HONOLULU (AP) — A mother who could not endure seeing her son committed to a mental patient killed him with a .32-calibre bullet through his chest Wednesday and then shot herself.
