

How Alcohol Effects the Heart.

Dr. N. B. Richardson, of London, the noted physician, says he was recently able to convey a considerable amount of conviction to an intelligent scholar by a simple experiment.

"Will you be good enough to feel my pulse as I stand here?"

He did so. I said:—"count it carefully; what does it say?"

"Your pulse says seventy-four."

I then sat down in a chair and asked him to count it again. He did so, and said:—"Your pulse has gone down to seventy."

I then lay down on the lounge, and said:—"Will you take it again?"

He replied:—"Why, it is only sixty-four; what an extraordinary thing!"

I then said:—"When you lie down at night, that is the way nature gives your heart rest. You know nothing about it, but that beating organ is resting to that extent; and if you reckon it up, it is a great deal of rest, because in lying down the heart is doing ten strokes less a minute. Multiply that by 60 and it is 600; multiply it by six hours, and within a fraction it is 5,000 strokes different; and as the heart is throwing six ounces of blood at every stroke a makes a difference of 30,000 ounces of lifting during the night. When I lie down at night without any alcohol, that is the rest my heart gets. But when you take your wine or grog you do not allow that rest, for the influence of alcohol is to increase the number of strokes, and instead of getting this rest you put on something like 15,000 extra strokes, and the result you rise up very seedy and unfit for the next day's work till you have taken little more of the 'ruddy bumper,' which you say is the soul of man below. His wife acknowledged that this was perfectly true. He began to reckon up those figures, and found what it meant lifting up an ounce so many thousand times, and the result was he became a total abstainer, with every benefit to his health, and, as he admits, to his happiness. I would like those who take stimulants to give them rest, just to take the opposite side of the question into consideration, and see how the two positions fit together."

"Your pulse says seventy-four."

I then sat down in a chair and asked him to count it again. He did so, and said:—"Your pulse has gone down to seventy."

I then lay down on the lounge, and said:—"Will you take it again?"

He replied:—"Why, it is only sixty-four; what an extraordinary thing!"

I then said:—"When you lie down at night, that is the way nature gives your heart rest. such officer may be invited may be invited to come to the port of entry and aid the revenue officer in such examinations."

The Great French Remedy, Dr LeDuc's Periodical Pills.

For the cure of Leucorrhoea or White's Excessive or painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagina, Hysteria, pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very enfeebled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

STARR KIDNEY PAD CO., 31 King Street, West Toronto. All Druggists. Dec. 16

MRS. A. E. McLEOD, Dressmaker and Milliner, has removed from Mrs. Burris' premises, to the house next to the St. Vincent Nursery, and immediately opposite the entrance to the old Burying Ground, Malpeque Road, where she will be most happy to attend punctually to all orders entrusted to her, and at reasonable rates. Parties having anything to do in her line would do well to call.

THE United States government seem determined to prohibit the importation of adulterated teas, as will be seen from the following circular issued by the Treasury Department at Washington to collectors of customs: "The department has been informed that attempts may be made to violate the Act to prevent the importation of adulterated and spurious teas, approved March 2nd, 1883, by means of importations from Canada. The attention of the customs officers upon the frontiers is, therefore, especially invited to the matter, and in case of doubt they are instructed not to deliver teas imported into their districts until proper samples shall have been sent to the nearest United States officer appointed under the provisions of the said Act, and his report thereon shall have been received. Or in case the circumstances justify such action,
