

Skin & Illness

SKIN symptoms are not to be considered lightly. At times they may be the first evidence of some disease of the internal organs. Skin changes, when brought to the attention of a physician, can often speed the diagnosis of the underlying disease.

Certain dangerous and almost always fatal diseases of the lymph glands, such as Hodgkin's disease, have as their first symptom severe and uncontrollable itching of the skin with a rash appearing later on. Such itching may also indicate diabetes.

Leukemia, or cancer of the blood, may have as its first symptom a rash with tiny hemorrhages into the skin. Little yellow growths on the eyelids may be the first sign of some difficulty with the fat utilization of the body, such as occurs in pancreatitis. Liver disease can bring small spider-like eruptions to the body with an absence of hair on the skin of the chest.

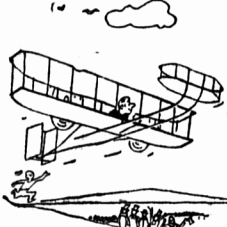

Diabetes can cause severe skin changes, with the body and especially the legs and arms being covered by a small eruption of yellow pimples. Sometimes a person who is not known to be diabetic develops red and brown plaques over the front of the legs with a violet ring around them. This skin rash is typical of the person who will develop diabetes within a few years. The skin can indeed disclose many severe illnesses that should be given proper and prompt care.

QUESTION AND ANSWER

Mr. G.: I had a rupture operated on six months ago. It has now returned. Was there something wrong with the operation?
Answer: It is not an uncommon occurrence for a hernia to recur following operation. Sometimes a rupture or hernia as it is known medically, has to be operated on three or four times in order to obtain a satisfactory result.

VIOLENT END

Christopher Marlowe, the Elizabethan dramatist, was killed in a tavern brawl at age 29, in 1593.

Mr. Wright travelled light

WHEN the Wright Brothers first took off at Kitty Hawk fifty years ago, weight-saving aluminum was already in on the act. Their tiny engine had a single cast aluminum crank-case and cylinder block. Aluminum has been growing with the aircraft industry ever since. Now strong aluminum alloys are helping to combat the heats and stresses of supersonic flight, and Alcan is busier than ever supplying aluminum for Canada's busy aircraft plants and other metals users looking for lightness and strength... at a fraction of the price that the Wright Brothers paid. Aluminum Company of Canada, Ltd. (Alcan).

A scrambled word contest was put on by Mrs. Oliver MacLeod and the prize won by Mrs. Garfield MacFadyen. Lunch was served by the hostess, assisted by Mrs. Guy MacLeod and Mrs. Kelsie Buchanan.

MUSICAL HAZARD

OTTAWA, (CP) — Music was the indirect cause of a broken leg for J. C. N. McKinnon, 72, of Woodstock, N. B. He was strolling on downtown Wellington street when he heard band music and was struck by a car as he crossed the street to see the R.C.M.P. band in front of the Supreme Court building.

To prevent a colored mark from fading onto a dress from gunpowder line the inside of the bottom.
