

### NOT A MUSCLE-BUILDING COURSE

Some residents of Summer Street in Charlottetown yesterday found their lawns bristling with tree branches that were cut so that a building

could be moved along the street. Here, Norman Nicholson, 46 Summer Street, uses a saw to clear away part of a tree that had been left on his

front walk. Some Summer Street residents expressed annoyance that trees were cut reportedly without their permission.

## Quietness Said A Need For Good Study Habits

A meeting of the Notre Dame Home and School Association was held on Wednesday evening, attended by over 100 parents and all the teachers at Notre Dame Academy.

The president, Connie LeClair, chaired the business session and the program session was chaired by the chairman of program planning, J. Russell Driscoll.

Parents and teachers, in discussion groups of six members, were asked to discuss the following topics: Is the curriculum too heavy? What are the requirements for good study habits? How can parent-teacher relationships be improved? and What is the effect of emotional adjustment in the home on school performance?

Chairmen chosen by the groups gave reports on the discussions, following which these reports were analyzed by Claude Wood, superintendent of schools for the provincial department of education.

It was the consensus of the assembly that the curriculum content is not too heavy but that it is weighted more towards science and mathematics in the high school grades than would be necessary if these subjects were begun in the early elementary grades at a basic level and built upon gradually.

Regarding study habits, the significant points mentioned were: A quiet environment with good lighting, provision of necessary aids to study necessity of breaks in the study period rather than a continued period of study for long sessions at one time.

All groups spoke of the value of attending home and school association meetings and parent-teacher interviews as effective ways to improve parent-teacher relationships.

Secretary for the meeting was Sister Mary Herbert, C.N.D. The principal of the school, Sister St. Rita, C.N.D. invited the assembly to remain for refreshments and directed parents to class rooms for interviews with teachers.

Not all groups had opportunity to discuss the fourth question but those who did concurred that the type of emotional adjustment of the child in the home affects markedly his school performance.

Mr. Wood cautioned parents not to urge children to attempt to perform beyond their individual capabilities. He said, each person has a limit to his potential and the parent and teacher working together should help the child to approach this limit and adjust to it.

Entertainment was provided by four students at Notre-Dame Academy. They were Ann Egan, Peggy Coffin, Joan Grant and Rosalie Murphy.

Secretary for the meeting was Sister Mary Herbert, C.N.D. The principal of the school, Sister St. Rita, C.N.D. invited the assembly to remain for refreshments and directed parents to class rooms for interviews with teachers.

### SHORTHORN

(Continued from page 1)

showed horses, foxes and mink and took many of the major honors in all of them.

Back to the Hays formula. Not every one is completely happy with it, and its going to cause some meaningful changes in herd management and breeding.

One of the most important changes is the one that calls for mature cows shown, in dairy classes to have at least 115 per cent BCA in milk. This means the individual cow must have 15 per cent greater combined production in milk than the average of the cows in her breed across Canada.

George MacMillan, Cornwall, told me for example, that he has four excellent cows—this is the highest for type and conformation—at home and none of them qualify for a show under the Hays formula because he has not been registered under record of performance test the last two years. He had been in ROP for 23 years but quit it when the fees were raised drastically a few years ago.

There are other problems but most the breeders to whom I talked here like this formula better. For the first time, they told me, it is profitable to go to a show in immediate earnings.

Breeders never get enough in prize money to cover expenses under the former prize money plans. The only reason a pure bred cattle breeder went to advertise his stock, and hope he would make enough good sales as a result, to justify the money he lost on the exhibition trip.

Alex Lamond is AFW vice-president, he's also livestock superintendent here, and he's Canadian president of the Aberdeen Breeders' Association. So he should have his finger on the pulse of the cattle breeders. Mr. Lamond told me this week "The Harry Hays formula is there to stay, the boys really like it." There are minor irritations, he explains, but they'll likely work themselves out.

If you want a real contrast, though. Between the former years and the present Almon Boswall, Dunstaffnage told me at the sheep ringside that he drove a horse and two-wheeled truck to Charlottetown for his dad, Albert Boswall, for the exhibition there in 1890. Almon was seven then and it took three to four hours to cover the distance of approximately 2 miles. The horse had to walk all the way, so the load of exhibits he was hauling would not be shaken up.

Other speakers at the two-day session are Linus Cassidy, Montreal, past president of CACE; and Dr. Thomas A. Francoeur of London.

REV. E. J. ROCHE

### Rev. E. J. Roche Gives Address

The keynote address at the fourth annual meeting of the Canadian Association of Catholic Educators which is being held in Montreal today and Saturday will be delivered this morning by Rev. E. J. Roche of the staff of St. Dunstan's University.

Father Roche is executive-director of the English section of the Canadian Catholic Education Council and it is in this capacity that he will introduce and develop the conference theme: "A Developing Awareness of the Present-Day Challenge" in Canada.

A general discussion will follow which will be under the leadership of Father Roche.

Other speakers at the two-day session are Linus Cassidy, Montreal, past president of CACE; and Dr. Thomas A. Francoeur of London.

## Stories Of Public Apathy Untrue, Macquarrie Says

"This is the first election in the history of Canadian politics where the government has asked the people not for a mandate on certain policies of issues but only for more power". Heath Macquarrie, Progressive Conservative candidate in Queens said last night.

Speaking in Belgat the home district of his teammate J. Angus MacLean, Mr. Macquarrie said "this election was called by the Prime Minister for the simple purpose of obtaining a majority. The Liberals spent the first part of the campaign attempting to condition the electorate to this aim and now they are attempting to quietly command the nation to deliver the majority or be faced with another election within 18 months.

"The government seems to have forgotten that when a party goes to the people it must display all the evidence of its records, bad as well as good, its misdeeds as well as its deeds.

"The public has been accused with being apathetic toward this election, but I don't believe this is so. I think the public is quietly but deeply concerned with this election and they realize that they must make up their minds on deep moral issues.

NO FOUNDATION  
These stories of apathy certainly have no foundation in this province, because the people of this island are now as they have always been, in the forefront of political action. The people of this province will not accept the

degrading of the democratic process such as they witnessed in the last government and I am sure they will not accept the concentrated suggestions of the Liberal party that only that party has a chance of forming a majority government on Nov. 9.

"If Canadians even appear to give their stamp of approval to the sordid happenings in Ottawa in recent months, or appear not to care, it would give rise to an acceleration of dirty dealing and a further decay of our democratic system, J. Angus MacLean told his hometown audience.

Turning to basic Conservative policies, Mr. MacLean stated that "the government of John Diefenbaker was the first, national government to recognize the just claims of the Atlantic Provinces.

"I believe our young people have the right to opportunity at home and I am convinced that only by united action at all levels of government can this right be made real."

PARTY POLICY  
Mr. MacLean outlined to the audience the resolutions of policy laid down by the Conservative candidates from across the Atlantic Provinces at a recent meeting in Moncton.

He explained that in every election since 1957 the Conservative candidates have held a joint meeting to work out policies and programs of vital interest to the Atlantic community. The 17-point program laid out at this years meeting ranged from a revitalization of the ARDA program and stimulation of the agricultural economy of the Maritimes, to increased university grants and massive steps toward greater economic development through the Atlantic Development Grant plan, he told the audience.

Mr. MacLean urged the audience to take an objective look at the Canada Pension Plan. "This plan has many good points," he said, "but it has also many points that will not give full benefit to our people.

"This plan does not give the individual any choice. Those who are wage earners are compelled to participate in the plan and for many of them it becomes little more than a compulsory savings plan. Those who are not wage earners cannot join the scheme or reap any benefits."

Some of the opposition party in the last parliament attempted to introduce amendments to the plan that would make it more beneficial to our people but we were voted down. One amendment we tried to push was an increase in old age pension benefits to those now eligible for pensions and who will not benefit from the plan, but we were outvoted. A Conservative government in Ottawa will assure our senior citizens of the pension increases they need and deserve."

H. Bennett Carr spoke briefly on behalf of the Queens candidates. "There is not a constituency in Canada with a more active interest in politics than Queens," he said. "If we are not to talk about scandals in government as the Prime Minister suggests we should not, then I am sure the people of this county will give deep thought to this basic issue."

In concluding his speech, Mr. Carr told the gathering that the fact "we are a small province cannot be changed but the fact that we are a poor province can and will be changed by a Conservative government in Ottawa."

Chairman of the meeting was J.T. McKenna, who reminded the assembly that on election day the names of the two Queens Conservative candidates would be the last two on the bottom of the ballot.

### WEATHER

HALIFAX (CP) — The weather office says an outbreak of cold air was ushered in by gales in the western half of the district late Thursday while in the eastern half mild temperatures were being experienced with equally strong winds.

The cold air will be swept into all three provinces and clearing is expected to take place in most regions this afternoon.

Saturday will be cloudy in the Maritimes but temperatures will be much milder than today.

Regional forecasts:  
Northern Nova Scotia, Cape Breton, Prince Edward Island: Cloudy with snowflurries. Turning cold. Winds westerly 30 with gusts to 50 diminishing this afternoon to northwest 20. Low-high at New Glasgow, Sydney and Charlottetown 32 and 35. Outlook for Saturday: Cloudy and much milder.

High tide today at Charlottetown 7:28 a.m. and 8:29 p.m. At Rustico at 2:13 a.m. and 4:01 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 6:46 a.m. and sets at 5:07 p.m.

### Caravan Group Meets In City

Representatives of the Ottawa Centennial Confederation committee on trains and caravans for the coming Dominion celebrations met with the local centennial committee in the Provincial Building yesterday.

Representatives of the Ottawa committee included: L. J. Maiden, project officer; Robert S. Hennigar, liaison engineer survey officer for caravan sites and Pat Patrick a member of the centennial committee.

Following this morning's meeting the delegates attended a dinner at the Confederation Centre with Dr. George Dewar provincial secretary as guest-speaker.

The dates and places for the trains and caravans will be announced following a meeting of the National Centennial Committee in Halifax, N.S., Nov. 29-30.

### Took Count, Is Dismissed

A deputy returning officer at St. Eleanor's in the Prince Edward Island constituency of Prince has been dismissed for a premature count of voting in an advance poll for Monday's federal election chief electoral officer Nelson Castonguay said yesterday.

It was the second premature count reported on voting in advance polls which were open last Saturday and Monday for voters who expect to be away from home on election day. The first was at Malartic in Villeneuve riding Quebec and the deputy there also was dismissed.

Justice of the Peace, Albert Dinias, imposed fines of \$10 and costs or four days on a number of accused in Traffic Court yesterday.

Fined were: George A. MacDonald, Charlottetown, speeding; Robert Omar Axworthy, Milton, squealing tires; Norman Lorne Walker, East Royalty, stop sign violation; Brian Vere MacBeth, inefficient equipment; Charles Finlay MacEachern, Newton Cross, stop sign violation.

A Charlottetown man, Wendell Wayne Campbell, was fined \$15 and costs on a speeding charge.

MOUNT FEARSOME OWLS  
STEVENAGE, England (CP) Sparrows caused so much damage to stock in a warehouse in this Hertfordshire town that 150 cardboard owls have been mounted along the walls to scare them away.

NAMED DIRECTOR  
Paul H. Jenkins of Jenkins Transfer Limited Charlottetown was named a regional director of the Canadian Warehousing Association at the association's recent conference held in Winnipeg.

CHURCH MEETING  
The Charlottetown Centre of the Royal Canadian College of Organists has invited the Ministerial Association to take part in a discussion on the relationships between minister and organist in the church. Clergy of all faiths have been invited to attend the meeting which will be held in Park Royal United Church on Saturday at 7:30 p.m.

CARD WINNERS  
The following are the results of the card party held at the Community Center last night: Ladies first, Mrs. Joseph R. Gallant; ladies second, Mrs. Frank Walker; gent's first, Sterling MacLeod; gent's second, James Garland; freeze-out, Mrs. Irma Ford and James Garland; consolation prize, Mrs. Katherine Shepherd and Patrick Trainor; door prize, Mrs. Arthur LeClair; special prize, John Shepherd.

MACCORMACK FUNERAL — Funeral services for the late Frank C. MacCormack, were held from St. James Church, Georgetown, on Wednesday, Nov. 3 at 9:30 a.m. Requiem High-Mass was celebrated by Rev.
