

Why is it that nearly all aged persons are thin?

And yet, when you think of it, what could you expect? Three score years of wear and tear are enough to make the digestion weak. Yet the body must be fed.

In Scott's Emulsion, the work is all done; that is, the oil in it is digested, all ready to be taken into the blood. The body rests, while the oil feeds and nourishes, and the hypophosphites makes the nerves steady and strong.

See and try, all druggists. SCOTT & BOWNE, Chemists, Toronto.

### Quebec Steamship Co'y (Limited)

### Of Special Interest to our Farmers

#### "KEEPING COWS FOR PROFIT."

A Treatise on Up-To-Date Dairying.

"Keeping Cows For Profit" is the well chosen title of the newest work on practical dairying to come under our notice. We understand that a large issue of this little publication is being gratuitously circulated with the compliments of The De Laval Separator Co., 74 Cortland St., New York, which concern offers to send a copy to every reader of THE EXAMINER, upon request.

The book treats of dairying as a manufacturing business, and discusses its problems from the standpoint that every dairy farmer is just as much a business man as though engaged in any other manufacturing or commercial undertaking. It is compiled in terse, practical manner, is easily readable, and can hardly fail to be interesting and instructive to every one in any way connected with dairying. It is splendidly printed, handsomely illustrated, and altogether pleasing. The front cover shows a lithographed milking scene, and the back cover the cut of the Jersey cow, Ida Marigold, which received First Prize at the Chicago Exposition.

The book begins with a brief review of the history of dairying, shows the relative percentages of the various component parts of the different dairying products, takes up the production and marketing of such products in one form after another, and closes with a pertinent reference to private dairying.

In an historical and statistical way it tells much that is interesting. We learn that dairying is of the most ancient beginning, going back at least 2000 years before Christ, but in a commercial form it is most modern, being scarcely more than the development of the last generation. We learn that in 1898 the dairy products of the United States were \$500,000,000; that there are some 17,000,000 milch cows in the U. S.; an annual consumption of 1,750,000,000 gallons of milk; 1,500,000,000 lbs. of butter and 300,000,000 lbs. of cheese; and that 1899 prices of all dairy products, especially butter, have been considerably higher than for several years past.

We find that the average U. S. yield of milk per cow is less than 4,000 lbs. a year, and only about 130 lbs. butter; while to be profitable the milk yield should be from 5,000 to 6,000 lbs., and the production never under 200 lbs. In this connection it is authoritatively stated that fully one-half of the butter produced in farm butter making, by the practice of the older dairying methods, is made and marketed at an actual loss to the maker.

One of the most interesting chapters is that devoted to skim-milk, of which the use of the centrifugal cream separator has made a new by-product in dairying, with a much wider field of usefulness than was either thought of or possible in the practice of gravity setting. We find many ways in which skim-milk is being used profitably, and that for some purpose it is as nutritive and useful as the whole-milk itself. This is mainly due to its freshness and sweetness in centrifugal separation since in gravity setting the bacterial growth in skim-milk develops rapidly and the milk sugar, which is an extremely nutritious ingredient in its natural state, changes into an acid which is harmful rather than beneficial to both the animal and human stomach. While the purpose of its distribution is no doubt an advertising one, in a considerable degree, there is much that is commendable in the little book, and we think it bears out the introductory

### School Children's Eyes

Supply Their Intellect

Defective eyes stunt the mind Can you expect fair progress in school or success in business if so handicapped?

Examination of children for glasses is a special feature of our Optical Department.

G. F. HUTCHESON, OPTICIAN AND JEWELER, Charlottetown.

statement that it is dedicated to every owner of a cow in the hope that it may afford some beneficial hint or suggestion to all who may take the trouble to look over its pages.

#### Fall Plowing.

There is a difference of opinion in regard to the value of fall plowing, but there is no question as to its value, in my mind. In the case of a stiff sward that is to be planted to corn in the spring, I presume that there would be a general agreement that it should be plowed in the fall, disked both ways and otherwise pulverized in the spring. The great value of fall plowing is in the conservation of moisture. While there will be considerable evaporation from unplowed ground, plowed land will absorb a great deal of rain and snow and hold it in the subsoil for the benefit of plant growth in the spring. The action of elements upon the plowed soil in winter is most beneficial, and the soil will contain a much larger quantity of nitrogen than it would if it had not been plowed. The effect upon insects is a matter of some importance, and, taking everything into consideration, I think that good farming involves fall plowing.—The Epitomist.

### Suffering caused by Piles

Quickly Ended when Dr. A. W. Chase's Ointment is applied

Besides the intense agony caused by the itching, burning sensations of piles, there are other symptoms which produce restlessness and at times excruciating pains known only to the victim of piles.

What would one give to be free of this terrible disease? And yet there is a cure—a positive cure—which does not cost much and is not painful or difficult to apply. Dr. A. W. Chase's Ointment is, so far as is known, the only absolute cure for blind, itching, bleeding and protruding piles. It gives relief at the first application and affords a perfect cure in the most aggravated cases. Mr. Isaac Foster, Erieview, Ont., says: "I was troubled with itching piles for two years and could not sleep at night. I was half-crazed and tried everything. Finally seeing Dr. Chase's Ointment advertised I tried it and found it good. After a second application I found relief, and one large box cured me. Have never been bothered since, and I can recommend it to all suffering from the same trouble." Dr. Chase's Ointment is for sale by all dealers, or Edmanson, Bates & Co., Toronto

From Boston every Saturday at noon Tickets for sale at Stations on P. Railway. For tickets, rates on freight and all information apply H. L. CHIPMAN, W. W. CLARKE, Supt, Halifax. Agent Ch'town

### PRISONER RELEASED.

Victim of Kidney Disease Escapes From its Clutches by Means of Dodd's Kidney Pills

Sharbot Lake, Nov. 6.—Twenty years ago this month, John Nicholas Babcock first noticed the symptoms of Gravel and other Kidney troubles. Since that day he has never been free from pain until immediately previous to the report of his complete cure which appeared recently. He has been like a prisoner sentenced for life but his sentence has been up to-day. He says: "After twenty years of pain caused by Gravel and other kidney trouble, I am pleased to make it known that I have been completely cured by one box of Dodd's Kidney Pills. During these years I have spent hundreds of dollars without receiving any lasting relief."

The parliament, building in Wellington, New Zealand, is the largest wooden structure in the world. In Wellington and some other New Zealand towns nearly every house is constructed of wood. Large churches and important business premises are built of the same material.

### Minard's Liniment for sale everywhere.

In Arabia the Arabs sometimes find in the sandy deserts a kind of fungus which apparently resembles the manna of the Bible, and which serves as food for both men and camels when no better is to be had. It appears upon the sand after every rain, sometimes in little heaps.

### Minard's Liniment cures Dandruff.

There is one redeeming feature about a chronic borrower; he never strikes a man when he is down.

By the time the average man gets old enough to have good common sense he is too old to use it to any advantage.

### HIS OWN FREE WILL

DEAR SIR,—I cannot speak so strongly of the excellence of MINARD'S LINIMENT. It is THE remedy in my household for bruises, sprains, etc., and we would not be without it.

It is truly a wonderful medicine. JOHN A. MACDONALD, Publisher Inpropr Chronicle.

Foolish sayings now and then are uttered by the wisest men.

### Minard's Liniment Relieves Neuralgia.

It is nothing—that are made to look at that cost the most.

### Startling Confessions

Show that 25 per cent. of men and women suffer the tortures of itching piles. Investigation proves that Dr. A. W. Chase's Ointment has never yet failed to cure itching piles, and all of these men and women could end their sufferings at once by using it. Scores of thousands have been cured by this treatment. Every body can be cured in the same way.

Lots of men acquire fortunes by being kept too busy to spend the money they make.

### Active Man Wanted.

To read this advertisement and then give Putnam's Painless Corn Extractor a trial. It never fails to cure. Acts in twenty-four hours and causes neither pain nor discomfort. Putnam's Corn Extractor extracts corns. It is the best

### St. Dunstan's College

#### Classical and Commercial.

AFFILIATED TO LAVAL UNIVERSITY

The classes in St. Dunstan's College will be resumed on TUESDAY, the 12th September next.
